Curating Community Collections Mary Schreiber, Wendy K. Bartlett, 2024-01-25 Begins where diversity audits end, informing and supporting academic, school, and public librarians in the quest to embed diversity, equity, and inclusion in a meaningful and sustainable manner throughout collections, policies, and practices. A primary question for many librarians, directors, and board members is how to evaluate diversity in a collection on an ongoing basis. *Curating Community Collections* provides librarians with the tools they need to understand the results of diversity audits and to formulate a reasonable, achievable plan for increasing diversity, equity, and inclusion not only in the collection itself, but also in library collection policies and practices. Information on ways to make diversity, equity, and inclusion part of a library's everyday workflow will help ensure the sustainability of these principles. Mary Schreiber and Wendy Bartlett teach readers how to increase the number of diverse materials in their collections and make them more discoverable to library patrons through the implementation of a community collections program. Stories from librarians around the United States and Canada who are auditing and improving the diversity of their collections add broad, scalable perspectives for libraries of any size, budget, and mission. Action steps provided at the end of each section offer a practical road map for all types of libraries to curate a diverse, equitable, and inclusive community collection.

The Community Table Susan Cole Urano, 2019-01-15 In resource-challenged Athens County, Ohio, staff and volunteers at the nonprofit Athens County Foundation came up with a daring idea: to host a locally sourced, gourmet dinner for four hundred people. The meal would be held on the brick-paved main street of the city of Athens, to raise funds for the food bank, and increase awareness of the persistent local struggle with food insecurity, as well as raise the visibility of the foundation. The logistical challenges were daunting, but the plan would unite the community around the common theme of providing for its own. Since then, *Bounty on the Bricks* has become a touchstone event that raises close to one hundred thousand dollars for the food bank. In *The Community Table*, Athens County Foundation executive director Susan Urano translates her years of nonprofit experience with large-scale annual fundraisers into a step-by-step guide for development professionals, community leaders, and volunteers. Urano guides readers to consider when to mount a fundraiser, who the stakeholders are, what social and financial value the event will bring to the community, and how partnerships might augment the payoff. Using real-life examples, she explains how organizers can learn from mistakes and illustrates methods of team building, conflict resolution, and problem solving. Sample ideas, timelines, budgets, publicity plans, and committee structures round out *The Community Table*.

Visitors come by the thousands annually to visit the recreated colonial town where the Founding Fathers walked. Sadly, a forgotten fact is that the very ground in Williamsburg where the Founding Fathers once walked was later soaked with the blood of their children and grandchildren during the Civil War. Most visitors are unaware that it is truly hallowed ground. This book is an attempt to tell some of the forgotten stories of when America was at war with itself.

Media Management Bernd W. Wirtz, 2020-09-11 "Digitalization significantly changes the media. To cope with this change and to exploit new market opportunities is a major challenge for media corporations. Bernd Wirtz provides a valuable guideline for this new world, combining theory, facts, and practice." Dr. Hubert Burda, German publisher and Managing Corporate Partner of Hubert Burda Media Holding KG "The media business is subject to substantial change while differences between distinctive media areas are fading away. This is due to technical innovation in areas like transmittance of content, bearer of content and recording devices but also due to new formats, trends and constant change of consumer behavior." The textbook "Media and Internet Management" stays abreast of changes and covers this topic on a well-founded and comprehensive basis. It makes a valuable contribution to theory and practice in media management and is highly recommendable to media managers." Christoph Mohn, Chairman of the Supervisory Board, Bertelsmann AG "The world of media is full of challenges and dynamic conditions for its field. The dynamic of this market is accelerated even more by new digital technologies and ongoing globalization. This book is an absolute "must have" for everyone who wants to know more about the basics, conditions and requirements of modern media management. The analytical clearness and structure make this publication highly relevant for students, but also for managers." Urs Rohner, Chairman of the Board of Directors, Credit Suisse Group AG "Media Management is a textbook, but a very welcome newcomer for students and teachers as it fills a market gap for good educational material in this rapidly evolving field. It is concise, simple (but not simplistic), and contains a contemporary overview of concepts and tools for media managers. " Prof. Dr. Bozena I. Mierzejewska, Editor of The International Journal on Media Management, Fordham University, New York "Summed up, with his second edition Wirtz managed to strengthen the outstanding position of his publication "Media Management". His textbook shines because of its content, analytical clearness and the high relevance for business practice without losing its academic background. With the second edition this book has established its position in the field of media business as the leading standard reference book in Germany. It is suitable for business students, lectures as well as managers who can gain magnificent information from it." Prof. Dr. Wolfgang Fritz, Director of the Institute of Marketing, Braunschweig University of Technology, Germany; Honorary Professor at the Institute of Business Administration, University of Vienna, Austria.

healthcare reform, and the manner in which political leaders should navigate the new media environment. While the majority of contributors examine new media and politics in the United States, the volume also provides a unique comparative perspective on this relationship using cases from abroad.

Accounting for the Varieties of Volunteering Riccardo Guidi,Ksenija Fonović,Tania Cappadozzi,2021-07-07 For a long time, volunteering lacked standardized data sets allowing methodologically robust comparative analyses and global policy making. Starting from 2011, the International Labour Office (ILO) and the United Nations (UN) have provided global statistical standards for organization-based and direct volunteering which offer path-breaking opportunities. The global statistical standards on volunteering are however only relatively known. They also have to face difficult methodological and substantial challenges: Can they really account for the local varieties of volunteering in the different areas of the world? Does their adoption further develop our knowledge of volunteering both at national and international level? Beyond illustrating which innovations these statistical standards bring and critically assessing the tensions between the global guidelines and the local differences, the book shows how the ILO and the UN standards can be implemented into national statistics and which advancements in the understanding of characters, antecedents and impacts of contemporary organization-based and direct volunteering they allow. The Volume takes Italy as an illustrative case that offers global value. This multidisciplinary book demonstrates that a holistic approach to the implementation of the ILO and UN guidelines permits to virtuously balance international statistical standards and locally embedded cultures as well as to move knowledge of volunteering forward in a complexity-driven agenda. The book provides tools, evidences and inspiration for scholars, statistical agencies, practitioners and policy-makers.
