Going to a Concert Rebecca Rissman,2012 Summary: Discusses different types of concerts and the music that they feature, including operas, choral concerts, and marching band shows.

A Tidal Wave of Encouragement E. Douglas Bomberger,2001-10-30 In July of 1884, pianist Calixa Lavallée performed a recital of works by American composers that began a highly influential series of such concerts. Over the course of the next decade, hundreds of all-American concerts were performed in the United States and Europe, a movement that fostered both the development and the perception of American music as a unique art form. A Tidal Wave of Encouragement-the title of which is derived from one observer's description of the movement-is the first in-depth study of this significant period in American music. Providing a comprehensive history of the Concerts as well as detailed accounts of the intense critical debate surrounding them, author E. Douglas Bomberger reveals how one decade shaped the future of American classical music and very much impacted the way we hear it today. The movement, crucial in focusing discussion on American music and providing performance opportunities for composers and musicians for whom no such opportunities had before existed, was far more extensive and widespread than most scholarship had credited it. This oversight is due in large part to the dearth of objective studies of the Concerts; previous considerations have tended either toward the merely nostalgic or toward the unnecessarily disparaging. Bomberger's work is a corrective to this, as well as much-needed historical and critical account of a project whose influence had yet to be fully acknowledged.

Ticket Masters Dean Budnick,Josh Baron,2012-04-24 “A clear, comprehensive look at a murky business.” —The Wall Street Journal Your favorite band has just announced their nationwide tour. Should you pay to join their fan club and get in on the pre-sale? No, you decide to wait. But the on-sale date arrives, and the site is jammed. You can't get on—and the concert is sold out in six minutes. What happened? What now? Music journalists Dean Budnick and Josh Baron chronicle the behind-the-scenes history of the modern concert industry. Filled with entertaining rock-and-roll anecdotes about The Rolling Stones, The Grateful Dead, Pearl Jam, and more—and charting the emergence of players like Ticketmaster, StubHub, Live Nation, and Outbox—Ticket Masters will transfix every concertgoer who wonders just where the price of admission really goes. This edition has an updated epilogue that covers recent industry developments.

**Film Music in Concert** Emilio Audissino,2021-12-16 The Boston Pops Orchestra was the first orchestra of its kind in the USA: founded in 1885 from the ranks of the Boston Symphony Orchestra, its remit was to offer concerts of light symphonic music. Over the years, and in particular during the fifty-year tenure of its most famous conductor, Arthur Fiedler, the Pops established itself as the premier US orchestra specialising in bridging the fields of 'art music' and 'popular music'. When the Hollywood composer John Williams was assigned the conductorship of the orchestra in 1980, he energetically advocated for the inclusion of film-music repertoire, changing Fiedler's approach significantly. This Element offers a historical survey of the pioneering agency that the Boston Pops had under Williams's tenure in the legitimisation of film music as a viable repertoire for concert programmes. The case study is complemented with more general discussions on the aesthetic of film music in concert.

**The Arena Concert** Robert Edgar,Kirsty Fairclough-Isaacs,Benjamin Halligan,Nicola Spelman,2015-01-01 The Arena Concert: Music, Media and Mass Entertainment is the first sustained engagement with what might said to be - in its melding of concert and gathering, in its evolving relationship with digital and social media, in its delivery of event, experience, technology and star - the art form of the 21st century. This volume offers interviews with key designers, discussions of the practicalities of mounting arena concerts, mixing and performing live to a mass audience, recollections of the giants of late twentieth century music in performance, and critiques of latter-day pretenders to the throne. The authors track the evolution of the arena concert, consider design and architecture, celebrity and fashion, and turn to feminism, ethnographic research, and ideas of humour, liveness and authenticity, in order to explore and frame the arena concert. The arena concert becomes the “real time” centre of a global digital network, and the gig-goer pays not only for an immersion in (and, indeed, role in) its spectacular nature, but also for a close encounter with the performers, in this contained and exalted space. The spectacular nature of the arena concert raises challenges that have yet to be fully technologically overcome, and has given rise to a reinvention of what live music actually means. Love it or loathe it, the arena concert is a major presence in the cultural landscape of the 21st century. This volume finds out why.
