La construcción y el paisaje en las ciudades Patrimonio Mundial. Historia, gestión y procesos Joaquín Saúl García Marchante,Miguel Ángel Valero Tévar,Nelia Valverde Gascueña,2023-04-28 El 6 de diciembre de 1996 la UNESCO declaraba a Cuenca como Ciudad Patrimonio de la Humanidad por ser un ejemplo de ciudad medieval fortificada que conserva su paisaje urbano original y que confluye a la perfección con paisaje natural que la rodea. Han pasado casi 27 años y Cuenca ha mantenido esos valores que la hicieron merecedora de ese galardón, adaptándose a los nuevos tiempos, pero conservando esa raíz histórica que la ata a las rocas sobre las que está erigida. Esa herencia recibida debemos gestionarla de manera adecuada, ya que es nuestro bien más preciado. Por ello, era necesario reunir en una monografía a diversos expertos que analizasen desde un punto de vista interdisciplinar algunas cuestiones de los procesos formativos de la ciudad, tanto geográficos como históricos, y constructivos. Así surge este trabajo, que bajo el título La construcción y el paisaje en las ciudades Patrimonio Mundial. Historia, gestión y procesos, nos adentra en los valores que hicieron a Cuenca merecedora de ser ciudad Patrimonio de la Humanidad y en cómo se debe gestionar este galardón en el futuro.

From Vernacular to World Heritage Letizia Dipasquale,Saverio Mecca ,Mariana Correia,2022 This publication brings together the results of the project 3DPAST: Living and virtual visiting European World Heritage, co-funded by the Creative Europe EU programme. The research highlighted the exceptional character and quality of living in vernacular dwellings found in World Heritage sites. This was possible by seizing the cultural space of European vernacular heritage, located in Pico island (Portugal), Cuenca town (Spain), Pienza (Italy), Old Rauma (Finland), Transylvania (Romania), Berat & Gjirokastra (Albania), Pátmos (Greece), and Upper Svaneti (Georgia). New digital realities grant the possibility to visit and to appreciate those places, to non-travelling audiences, who lack the opportunity to experience this unique heritage in situ. Creative potential is highlighted in 3D models and digital visualisations, which associate outstanding local knowledge with the vernacular expression of World Heritage.

Turismo cultural en ciudades Patrimonio de la Humanidad Juan Antonio Mondéjar Jiménez,Miguel Ángel Gómez Borja,2009-07-17 El reconocimiento como Ciudad Patrimonio de la Humanidad por la UNESCO es un privilegio del que gozan solo unas cuantas urbes españolas: Alcalá de Henares, Ávila, Cáceres, Córdoba, Cuenca, Ibiza, Mérida, Salamanca, San Cristobal de la Laguna, Santiago de Compostela, Segovia, Tarragona y Toledo. Este reconocimiento internacional supone un honor y, al mismo tiempo, una distinción que ha posicionado a estos destinos turísticos en lugares de primer orden a todos los niveles. Precisamente los avances que, en los últimos años, se han experimentado en el ámbito del turismo, tanto desde el punto de vista de la oferta como a nivel de la demanda, están poniendo de manifiesto nuevas necesidades y, al mismo tiempo, revelan una exigencia de los gestores implicados en actividades turísticas en aras a la adopción de nuevos planteamientos y estrategias, especialmente en los destinos declarados Patrimonio de la Humanidad por la UNESCO. Dentro de este planteamiento, el importante desarrollo experimentado en los últimos años por el denominado turismo cultural constituye un fenómeno de especial interés y una magnífica oportunidad de desarrollo, singularmente para aquellos territorios y ciudades con unos recursos patrimoniales y culturales tradicionalmente poco explotados como posibles recursos turísticos. Por ello, este libro representa un marco de reflexión a partir del cual poder extraer las estrategias de actuación y herramientas de gestión que permitan, tanto a instituciones públicas como a empresas, aprovechar al máximo las posibilidades que ofrece este ámbito turístico.

The Future of the Past: Paths towards Participatory Governance for Cultural Heritage Gabriela García,Aziliz Vandesande,Fausto Cardoso,Koen Van Balen,2021-06-03 The Future of the Past is a biennial conference generally carried out during the commemoration date of the incorporation of Santa Ana de Los Ríos de Cuenca Ecuador as a World Heritage Site (WHS). It initiated in 2014, organized by the City Preservation Management research project (CPM) of the University of Cuenca, to create a space for dialoguing among interested actors in the cultural heritage field. Since then, this space has served to exchange initiatives and to promote coordinated actions based on shared responsibility, in the local context. The third edition of this conference took place in the context of the 20th anniversary of being listed as WHS and a decade of CPM as the Southern host of the PRECOM3OS UNESCO Chair (Preventive Conservation, Maintenance and Monitoring of Monuments and Sites). For the very first time, and thanks to the collaboration with the Raymond Lemaire International Centre for Conservation of the University of Leuven (Belgium), the conference expanded its local scope. On this occasion, contributions reflected around a worldwide challenge in the cultural field: revealing the paths towards participatory governance of cultural heritage. Participatory governance is understood as institutional decision-making structures supported by shared responsibilities and rights among diverse actors.

Vivir las ciudades históricas Miguel Angel Troitiño Vinuesa,Joaquín Saúl García Marchante,1998 Este libro recoge los textos de las ponencias presentadas en el seminario Vivir las ciudades históricas, organizado por el Vicerrectorado de Extensión Universitaria de la UCLM y celebrado en Cuenca coincidiendo con la exposición del mismo título, promovida por la Fundación la Caixa. El seminario se planteó en torno a una idea central: la preocupación por la recuperación integrada de las ciudades históricas, uno de los grandes retos del siglo XXI, sobre el que ya han llamado la atención el Consejo de Europa, la Unión Europea, la Unesco o la Asociación de Ciudades Patrimonio Mundial. La finalidad del seminario, propiciar una reflexión sosegada sobre la práctica cotidiana del vivir las ciudades históricas, queda patente en el contenido de los trabajos que ahora se editan, en los que se compatibiliza lo general y lo local, así como las variadas dimensiones presentes en la vida de una ciudad: culturales, urbanísticas, arquitectónicas, medioambientales, sociales, políticas, económicas o de accesibilidad.

Ivars Baidal,Francisco López Palomeque,2008-09-01 Esta publicación recoge una cincuentena de aportaciones referidas al turismo, al ocio y a los espacios de recreo. La potente capacidad transformadora relacionada con la actividad turística hace necesario debatir, no sólo sobre las características y problemáticas del desarrollo turístico de los últimos años, sino también sobre la virtualidad de las estrategias y actuaciones acometidas, con la finalidad de evaluar su impacto territorial, económico y social. Tomando los destinos turísticos como principal eje argumental, ponencias, experiencias de interés y comunicaciones, plantean las complejas relaciones e interdependencias entre turismo y territorio en los destinos urbanos, los espacios rurales/ interior y los litorales. Se trata, en suma, de una aportación, desde la Geografía, orientada a propiciar una reflexión serena sobre el papel del turismo en las dinámicas territoriales y sobre las características de los territorios turísticos que estamos construyendo en estos comienzos del siglo XXI.

Sustainable Energy Planning in Smart Grids David Borge-Diez,Enrique Rosales-Asensio,2023-09-29 Sustainable Energy Planning in Smart Grids curates a diverse selection of innovative technological applications for problem-solving towards a sustainable smart grid. Through these examples, the reader will discover the flexibility and analytical skills required for the race towards reliable, resilient, renewable energy. This book's combination of real-world case studies allows students and researchers to understand the complex, interdisciplinary systems that impact potential solutions. Detailed analysis highlights the positives and drawbacks of a variety of options, modeling considerations, and criteria for success. Urban Residence Christien Klaufus,2012-04-30 Riobamba and Cuenca, two intermediate cities in Ecuador, have become part of global networks through transnational migration, incoming remittances, tourism, and global economic connections. Their landscape is changing in several significant ways, a reflection of the social and urban transformations occurring in contemporary Ecuadorian society. Exploring the discourses and actions of two

contrasting population groups, rarely studied in tandem, within these cities-popular-settlement residents and professionals in the planning and construction sector-this study analyzes how each is involved in house designs and neighborhood consolidation. Ideas, ambitions, and power relations come into play at every stage of the production and use of urban space, and as a result individual decisions about both house designs and the urban layout influence the development of the urban fabric. Knowledge about intermediate cities is crucial in order to understand current trends in the predominantly urban societies of Latin America, and this study is an example of needed interdisciplinary scholarship that contributes to the fields of urban studies, urban anthropology, sociology, and architecture.

[The Power of Cities](#) ,2019-09-16 The Power of Cities is an interdisciplinary, cultural-comparative volume on Iberian urban studies. It is the first attempt to bring together recent research on the transformation of Iberian cities from Late Antiquity to the 18th century combining archaeological and historical sources.

ICT as Innovator Between Tourism and Culture Ramos, Célia M.Q.,Quinteiro, Silvia,Gonçalves, Alexandra R.,2021-11-05 Lately, tourists consider their mobile devices as essential accessories for the realization of their trip before, during, and after the visit. Such devices allow them to consult information about points of interest, services, or products in real time. Thus, mobile devices have come to be considered as tools to support decision making regarding the realization of trips. In the digital environment, tourists seek complementary information to consolidate knowledge about the destination, heritage, culture, customs, and traditions that make the visited place unique. Simultaneously, they transform tourist experiences into a memory associated with travel, contribute to the sustainability of local populations, reduce inequalities, and cooperate to improve the quality of life of all involved. ICT as Innovator Between Tourism and Culture differs from others on the same areas because it aims to place the emphasis on and increase the bridge of knowledge between information communications technology (ICT), tourism, and culture, considering ICT as the main driver that creates the development environment and enhances the tourist experience in general. In particular, it is linked to cultural heritage, making it a more sustainable and intelligent tourist destination, taking into account the well-being of the local population and visitors. Covering topics such as destination image, religious tourism, and innovation dynamics, this book is an essential resource for IT consultants, hotel managers, marketers, travel agencies, tour operators, tourism researchers, professors, students, practitioners within the tourism industry, and academicians.
