**The Great Bike Race** Geoffrey Nicholson, 2016-05-24 REVIEWS This is unquestionably the finest book ever written on the subject of cycling, bar none. the combination of the late Geoffrey Nicholson's (he died in 1999) observations, coupled with an impeccable writing style, make "the great bike race" almost a complete education in and of itself — The Washing-Machine Post

**Tour de France** Marguerite Lazell, 2013 'Tour De France' plots the evolution of this great race, focusing on legends such as Jacques Anquetil, Eddie Merckx, Greg Lemond and Miguel Indurain, as well as controversial seven-time 'winner', Lance Armstrong.

*Tour de France* Robin Magowan, 1979

**Tour de France** Marguerite Lazell, 2011 The Tour's popularity in the United States has exploded, thanks largely to the performance of the American cyclist Lance Armstrong, who won his 4th consecutive Tour de France in 2002. This volume is packed with vivid, action-filled photos and covers every aspect of the race.

*Where There's A Will* Emily Chappell, 2019-11-07 Shortlisted for the Wales Book of the Year Non-Fiction Award 2020 'Chappell is a gifted storyteller' - Observer In 2015 Emily Chappell embarked on a formidable new bike race: The Transcontinental. 4,000km across Europe, unassisted, in the shortest time possible. On her first attempt she made it only halfway, waking up suddenly on her back in a field, floored by the physical and mental exertion. A year later she entered the race again - and won. Where There's a Will takes us into Emily Chappell's race, grinding up mountain passes and charging down the other side; snatching twenty minutes' sleep on the outskirts of a village before jumping back on the bike to surge ahead for another day; feeding in bursts and navigating on the go. We experience the crippling self-doubt of the ultra distance racer, the confusing intensity of winning and the desperation of losing a dear friend who understood all of this.

**The Six-day Bicycle Races** Peter Nye, Jeff Groman, Mark Tyson, 2006 A photographic portrait of what was the most popular spectator sport in America during the period from 1900 to 1930: 6-day bicycle racing. It was a big-money sport, because bets were on. The sport was tough and the stakes were high, as the most prominent people in society flocked to Madison Square Garden to watch the races and place their bets. This compilation of historic photographs reproduced in fine duotone detail and accompanying text paints the complete picture of this fascinating but almost forgotten era in American sports.

Hearts of Lions Peter Nye, 2020-05 Bike racers were America's media darlings less than a century ago--dashing, eccentric, and very rich daredevils. Until the 1920s bike races drew larger crowds than all other American sports events, including Major League Baseball games. Prize-winning racer and journalist Peter Joffre Nye vividly re-creates this period of sports history, forgotten until now, in *Hearts of Lions*, a true story of courage, daring, and occasional lunacy. Revised, updated, and expanded, this second edition of *Hearts of Lions* is based on interviews with more than one thousand cyclists whose racing careers span from 1908 through the 2016 Rio Olympics, along with interviews with trainers and family members. Included are stories about Joseph Magnani, the lone American from southern Illinois who rode on the dusty roads of Europe in road racing's golden era of the 1930s and 1940s; Lance Armstrong, whose rise in the mid-1990s was eclipsed in the doping era that still casts a long shadow over the sport; Kristin Armstrong, a three-time Olympic gold medalist who set new standards for women in cycling; and Evelyn Evie Stevens, who chucked a Wall Street career in her mid-twenties to compete in two Olympics and win several world championship gold medals. *Hearts of Lions* is a colorful, exciting, classic work on the art of bicycle racing over 140 years against a backdrop of social, political, and technical changes.

The Big Bike Race Harcourt School Publishers Staff, Lucy Jane Bledsoe, 2001 Ernest Peterson's hopes of winning the Washington, D.C., Citywide Cup bicycle race are shattered when his grandmother gives him a huge, clunky, yellow bike for his tenth birthday.

Tour de France Les Woodland, 2014-05 *Tour de France: The Inside Story* The Tour de France is the greatest bike race in the world, but it began as a humble promotional gimmick for a floundering newspaper. More than 100 years later the Tour still captivates the world and is broadcast to over 180 countries. How did a few men looking for some way to save their struggling business become masters of a giant, successful enterprise? Les Woodland tells the inside story of the Tour de France through the prism of the men who started it, and those who now run it. As he explores the creation and evolution of the Tour, he never runs out of those fascinating illustrative tales that make his books impossible to put down. This book was originally published in a slightly altered form in 2009 as *Tourmen: The Men Who Made the Tour de France*. It has been updated to reflect the events that have happened since the original publication. About the author: Les Woodland has been cycling for 50 years and has been writing about cycling since 1965, when he wrote his first reports for the British publication *Cycling*. Since then he has been a prolific contributor to newspapers, magazines and radio stations in the U.K. and Belgium. Mr. Woodland, who currently lives in France, speaks several of the languages of cycling: English, Dutch and French.

**Giro d'Italia** Colin O'Brien, 2017-04-13 The story of the Giro d'Italia - Italy's equivalent of the Tour de France, and its superior in the eyes of many - is as dramatic and full of extraordinary characters as the story of Italy itself. Heroism, suffering, feuds and betrayals, tradition under threat from modernity all play out against a timeless landscape. The iconic riders, mythical stories and career defining exploits are conveyed in rich, vibrant prose.

**The Call of the Road: The History of Cycle Road Racing** Chris Sidwells, 2018-06-28 Eddy Merckx. Fausto Coppi. Jacques Anquetil. Bernard Hinault. Beryl Burton. Marianne Vos.

*Riding in the Zone Rouge* Tom Isitt, 2019-03-21 'An evocatively thoughtful wider history of the race, the war and the peace' GUARDIAN 'Occasionally funny and regularly poignant, brilliantly focused in its research . . . His drive, wit and curiosity inform *Zone Rouge* . . . gently profound and genuinely moving' HERALD The Circuit des Champs de Bataille (the Tour of the Battlefields) was held in 1919, less than six months after the end of the First World War. It covered 2,000 kilometres and was raced in appalling conditions across the battlefields of the Western Front, otherwise known as the Zone Rouge. The race was so tough that only 21 riders finished, and it was never staged again. With one of the most demanding routes ever to feature in a bicycle race, and plagued by appalling weather conditions, the Circuit des Champs de Bataille was beyond gruelling, but today its extraordinary story is largely forgotten. Many of the riders came to the event straight from the army and had to ride 18-hour stages through sleet and snow across the battlefields on which they had fought, and lost friends and family, only a few months before. But in addition to the hellish conditions there were moments of high comedy, even farce. The rediscovered story of the Circuit des Champs de Bataille is an epic tale of human endurance, suffering and triumph over extreme adversity.

*Viva La Vuelta!* Lucy Fallon,2005-10-01 A history of the Vuelta a Espana that recounts the story of the Spanish cyclists, whose lives reflect the changes their country has undergone. The story of the Vuelta is also an account of a race trying to establish itself in an international calendar where the Tour de France and Giro d'Italia had the advantage of a clear head-start.

*The Race Across America* Geronimo Stilton,2009 Geronimo Stilton's friend Hyena invites him to race across America on bicycle.

*Tour de Oz* Bret Harris,2017-06-01 Four years before the inaugural Tour de France, four cyclists known as 'Overlanders' set out on a race around Australia. On 24 November 1896 a wiry and wily bushman named Arthur Richardson left Coolgardie for Adelaide by bicycle. Carrying only a small kit and a water-bag, he followed the telegraph line. After much 'sweating and swearing' on sandy roads west of Eucla, and enduring the scorching heat, 31 days later he became the first man to pedal across the Nullarbor. But within three years Richardson had set his sights on becoming the first person to ride around the vast island continent, not yet a nation, and some 18,507km. On 5 June, 1899, he left Perth, heading north, carrying no more than a swag and a pistol. It took courage, self-confidence, endurance and resourcefulness to tackle such a ride. Richardson would follow dirt tracks, cattle and camel pads and stars in the night sky as he battled thirst, hunger, exhaustion, crocodile attack and spears from Aboriginal warriors to realize his dream. But he also had competition...another party of cyclists with the same ambition. New Zealand-born Brothers Frank and Alex White and wealthy adventurer Donald Mackay from Wallandbeen Station, NSW, were attempting the ride in a counter-clockwise direction from Melbourne and Brisbane respectively. Set against the fledgling pastoralist empires of pre-Federation Australia, Tour de Oz, is the extraordinarily true story of a remarkable race to 'circumcycle' the Australian continent - before we became a nation.

Endless Perfect Circles Ian Walker,2020-07-27 A professional psychologist spent his entire life believing he had no ability or interest in sport. Then, in his forties, he became a champion ultradistance athlete before breaking the world record for the fastest bicycle crossing of Europe. This journey - made entirely alone and without any support crew - went from the northernmost point in the Arctic down to the very southernmost point in Spain. Averaging 377 kilometres each day and with up to 18 hours in the saddle at a time, the total distance of 6367 km was covered in well under 17 days, knocking more than two days off the previous record. It was a journey of ultimate self-reliance. Endless Perfect Circles is not just a tale of sleep deprivation and eating terrible food in supermarket car parks, it is also a celebration of how tough sporting challenges offer ordinary people a path to self-improvement. Weaving his own experiences together with psychological insights, Ian Walker demonstrates the rewards we can all find from

setting ourselves difficult personal goals and working out how we will rise to meet these. When I ride, my mind is both crowded and empty. The practical part of me churns, thinking all the time about navigation, shops, food, weather and lodging, seeking information about those raw essentials of life and planning dozens of contingencies. But when I look back on any given ride, even one lasting many days, I would struggle to tell you a single thought that passed through my head, because the rest of my mind has been liberated. All of life's needs have been simplified by the pure act of riding. About the author Ian Walker splits his time across two related worlds. By day, he is an environmental psychologist at the University of Bath, specialising in transport choices, traffic safety, energy consumption and water use. As you will see from his textbooks, he also teaches research methods and statistics at a whole range of levels from entry-level introductions up to doctoral level. Ian's professional interest in clean transport and traffic safety also extends into his personal life, where he takes part in ultradistance bicycle racing - an activity explored in his new book *Endless Perfect Circles*. This introduces readers to the extraordinary world of nonstop bicycle races that last for weeks at a time. It goes on to describe how Ian won a tough 4300-kilometre cycle race before breaking the Guinness World Record for the fastest ever bicycle crossing of Europe.

**Tour of the Forest Bike Race** H. E. Thomson, 1990-01-01 Animal cyclists make a tour of the forest in an introduction to the Tour de France and the sport of bicycle racing

**Cycle Chase** Corinne J. Naden, 1980 Discusses the National Championship Series of motorcycle races which is held each year from February to October.
