Dark Souls. Beyond the Grave - Volume 1 Damien Mecheri, Sylvain Romieu, 2019-02-19 Story of a saga video games... If the Dark Souls series managed to seduce players and journalists, it was mainly by word of mouth. It was such a great success that Dark Souls 2 was named "Game of the Year" 2014 by the vast majority of gaming magazines and websites. To date, this saga is one of the most important in the gaming industry. The odd thing is that these games are well known for their difficulty and their cryptic universe. This publication narrates the epic success story, but also describes its gameplay mechanics and its specific lore across more than 300 pages. Characters, plots and the scenario of the three Souls (Demon's Souls, Dark Souls and Dark Souls II) are deciphered by Damien Mecheri and Sylvain Romieu, who spent a long year studying these dense and enigmatic games down to the smallest detail. The serie Dark Souls and her spiritual father Demon's Souls will not have secrets for you anymore! **EXTRACT** In May 2014, Hidetaka Miyazaki succeeded Naotoshi Zin as president of FromSoftware, after the studio was purchased by Kadokawa Shoten. This was a highly significant promotion for the person who had led the company's most successful project, Dark Souls. And yet, he did not lose from view what had attracted him to the field: an insatiable creative drive. In spite of his new status within the studio, one of the conditions he requested and was granted was to remain creative director of his new project: Bloodborne. This allowed him to successfully design this spiritual successor to the first Souls game, while also assuming his new responsibilities. Given his drive to work and create, it is not surprising how quickly Miyazaki moved up through the ranks. **ABOUT THE AUTHORS** Passionate about films and video games, Damien Mecheri joined the writers team of Gameplay RPG in 2004, writing several articles for the second special edition on the Final Fantasy saga. He continued his work with the team in another publication called Background, before continuing the online adventure in 2008 with the site Gameweb.fr. Since 2011, he has come aboard Third Éditions with Mehdi El Kanafi and Nicolas Courcier, the publisher's two founders. Damien is also the author of the book Video Game Music: a History of Gaming Music. For Third Éditions, he is actively working on the "Level Up" and "Année jeu vidéo" collections. He has also written or co-written several works from the same publisher: The Legend of Final Fantasy X, Welcome to Silent Hill: a journey into Hell, The Works of Fumito Ueda: a Different Perspective on Video Games and, of course, the first volume of Dark Souls: Beyond the Grave. Curious by nature, a dreamer against the grain and a chronic ranter, Sylvain Romieu is also a passionate traveler of the real and the unreal, the world and the virtual universes, always in search of enriching discoveries and varied cultures. A developer by trade, he took up his modest pen several years ago to study the characteristics and richness of the marvelously creative world of video games. He writes for a French video game site called Chroniques-Ludiques, particularly on the topic of RPGs, his preferred genre.

Sekiro Ludovic Castro,2020-09-02 Discover an analytic work of Sekiro, a game that spectacularly marked the 2010s. Few video game series can boast having marked the 2010s as much as Souls. FromSoftware mainly owes this amazing and unexpected success to the talents of the now-famous Hidetaka Miyazaki, whose radical vision of video games was quick to charm and win around players. In May 2014, the director was promoted to president of FromSoftware. He could have continued to create Souls forevermore, but instead chose to develop new franchises. The first true representative of this new era was Sekiro: Shadows Die Twice, a game with unprecedented richness and flawless thematic consistency. This book will discuss the work's development process, an analysis of the storyline and characters, the soundtrack, themes, and its historical, cultural and artistic influences. It will also present an analysis of the problem with Sekiro's difficulty—which saw a lot of ink spilled at its release—and take a look at the evolution of Miyazaki's games. This book will provide you with an analysis of Sekiro: Shadows Die Twice : it will discuss the game creation process, as well as the themes, the storyline, the characters, the soundtrack and its different influences. The book will also present an analysis of the problem with the game's difficulty and the evolution of Miyazaki's games. ABOUT THE AUTHOR It is by exploring the world of Super Metroid at the age of seven that Ludovic Castro finds himself for the first time captivated by a world of video games. A big fan of Japanese RPGs, he later became passionate about the background stories about his favorite games in Gameplay RPG magazine. Now a doctor of theoretical chemistry, he sometimes manages to find enough free time to write about his favorite series, Megami Tensei.

The World of Lore: Monstrous Creatures Aaron Mahnke,2017-10-10 A fascinating, beautifully illustrated guide to the monsters that are part of our collective psyche, featuring stories from the Lore podcast—now a streaming television series—including “They Made a Tonic,” “Passed Notes,” and “Unboxed,” as well as rare material. They live in shadows—deep in the forest, late in the night, in the dark recesses of our minds. They're spoken of in stories and superstitions, relics of an unenlightened age, old wives' tales, passed down through generations. Yet no matter how wary and jaded we have become, as individuals or as a society, a part of us remains vulnerable to them: werewolves and wendigos, poltergeists and vampires, angry elves and vengeful spirits. In this beautifully illustrated volume, the host of the hit podcast Lore serves as a guide on a fascinating journey through the history of these terrifying creatures, exploring not only the legends but what they tell us about ourselves. Aaron Mahnke invites us to the desolate Pine Barrens of New Jersey, where the notorious winged, red-eyed Jersey Devil dwells. He delves into harrowing accounts of cannibalism—some officially documented, others the stuff of speculation . . . perhaps. He visits the dimly lit rooms where séances take place, the European villages where gremlins make mischief, even Key West, Florida, home of a haunted doll named Robert. In a world of “emotional vampires” and “zombie malls,” the monsters of folklore have become both a part of our language and a part of our collective psyche. Whether these beasts and bogeymen are real or just a reflection of our primal fears, we know, on some level, that not every mystery has been explained and that the unknown still holds the power to strike fear deep in our hearts and souls. As Aaron Mahnke reminds us, sometimes the truth is even scarier than the lore. The World of Lore series includes: MONSTROUS CREATURES • WICKED MORTALS • DREADFUL PLACES
