Bird Land J. M. White, 2017-06-26 They had been in space a long time. They had examined every planet within their trajectory as ordered. There had been six planets in their path that they examined as possible sites for colonization and a nebula off in the distance. The nebula was very beautiful, kind of purple and dark blue. But, their orders were not to examine nebulas, but to find a class M planet that could be adaptable to humans. This was definitely a class M planet all the readings were perfect. But, with all the experts on board no one could find the source of the intelligence it took to make these amazing gardens that circled the planet. Some fairly large birds had been seen. But, there were no land animals with brains large enough to make these gardens. They had to be gardens, gardens with uniformed rows of growing crops. There were uniformed rows of trees as well and lines of shrubs or hedge which divided the garden areas. This planet was placed between three suns just right so as to have one side always warm. The temperature was around 70 to 80 degrees and at night near 50 degrees. The suns were orbiting in a slightly arched line with this small planet. The planet and its two moons orbited around the larger sun. The smaller suns being further away gave little light and a small amount of warmth just enough so the other sides of the planet were not in total darkness at any time. It had water and oxygen, breathable oxygen that meant no suits or helmets. This planet was just what they were looking for. It was a small green pearl in the vast darkness of space.

Foreign Exchange Operations David F. DeRosa, 2013-10-28 The ultimate nuts-and-bolts guide to foreign exchange operations The foreign exchange landscape is particularly risky since so much of the world is unregulated and takes place over the counter (off exchange). Brilliant traders and money managers who are profitable may find themselves underperforming, or worse, losing, simply because they failed to establish strong operations. In this book, David DeRosa provides industry players with everything they need for strong operational functions from

all the types of trades to execution, master trading agreements, documentation, settlement, margin and collateral, and prime brokerage services. Contains vital work flow solutions for trading in the volatile foreign exchange marketplace Offers information for mastering the operational aspect of foreign exchange trading to help determine best partners such as prime brokers and others Written by David DeRosa a leading foreign exchange expert who has consulted to hundreds of financial institutions Foreign Exchange Operations helps traders mitigate risks and offers a guide to all aspects of trading operations from mastering trading agreements to margin documentation.

Finder Connie Suttle, 2014-03-24 A dead god. A dying world. A girl never meant to be sentient. Siriaa is dying. A poison is spreading throughout the planet and none know how to neutralize it. Finder, working in King Tamblin's castle kitchen most of her life, has never spoken. A child of questionable parentage, Finder is an orphan assigned to perform duties nobody else wants. While others plan intrigue, murder and invasion to escape the poison's effects, Finder watches all in mute acceptance. Will she be the key to Siriaa's salvation, or will it die about her, without knowing why?
