Metronama: Scenes from the Delhi Metro Rashmi Sadana,2022-01-21 Rashmi Sadana is Associate Professor of Anthropology at George Mason University and author of English Heart, Hindi Heartland: The Political Life of Literature in India.

The Moving City Rashmi Sadana,2021-12-07 The Moving City is a rich and intimate account of urban transformation told through the story of Delhi's Metro, a massive infrastructure project that is reshaping the city's social and urban landscapes. Ethnographic vignettes introduce the feel and form of the Metro and let readers experience the city, scene by scene, stop by stop, as if they, too, have come along for the ride. Laying bare the radical possibilities and concretized inequalities of the Metro, and how people live with and through its built environment, this is a story of women and men on the move, the nature of Indian aspiration, and what it takes morally and materially to sustain urban life. Through exquisite prose, Rashmi Sadana transports the reader to a city shaped by both its Metro and those who depend on it, revealing a perspective on Delhi unlike any other.

Metro Rail Today April 2021 Mamta Shah,2021-04-07 In this edition, we have featured the developments about the Lucknow Metro which celebrated its anniversary recently. Our scope is very genuine and we are hopeful that this magazine will surely be able to connect different stakeholders of the Metro and Rail sectors. Although we haven't much focused on the traditional Rail networks, we continue to provide a deep insight into the developments of the new Rail technologies and the changes which make the sector fast-growing. We have covered the interviews of Kumar Keshav, Managing Director, UPMRC and Anil Munjal, CEO, Riello Power India. The two people have made a huge success in their respective fields and we have brought the insights directly from the industry.

Tunnels and Underground Structures: Proceedings Tunnels & Underground Structures, Singapore 2000 KrishnanR.,2017-10-02 This text describes topics discussed at the conference, including: tunnelling and construction in soft ground and rocks; geological investigations; tunnelling machines; planning for underground infrastructure; safety issues and environmental and social aspects of underground development.

Love In Metro Arun Anand,2021-01-19 He is an upcoming journalist from Delhi. She is a beautiful young woman from Chandigarh. He lives with his family in Delhi and has a bright future ahead. She is trying to find a foothold in Delhi with a bleak past and even a bleaker future. Destiny brought them together in a compartment of Delhi Metro on a bright sunny morning and ensured that they meet again and again. But then the sun sets too fast on them . The darkness envelops their lives as if there is no tomorrow. A bleeding; battered Nisha makes the final frantic call to Pankaj from somewhere between Chandigarh and Delhi. This was her final call.

Responsible Leadership for Sustainability in Uncertain Times Tanuja Sharma,Rupamanjari Sinha Ray,Nayan Mitra,2022-10-05 This book contains compilation of emerging discourses on responsible leadership for sustainability in uncertain times. Uncertainty is looming large at global level due to COVID, climatic disruptions and persisting social discriminations, especially since the pandemic, which have disrupted economies at both local and global levels. Technology was a boon to mitigate hardships emerging from such disruptions. The book documents the leadership roles, welfare issues, best practices and innovations that help organizations to sustain in a VUCA world. Economic, social and environmental concerns and their mitigation as documented in this book will be relevant for future planning and execution for sustainable existence. A blend of research by practitioners and academicians, capturing organizational experiences through case studies makes it attractive for a wide range of readership. Business leaders will find this book extremely helpful to understand the nuances and insights for responsible leadership and innovative strategies for stakeholder management and engagement for sustained businesses. Practitioners would get insights into responsible leadership for improving existing sustainable practices and speed up the transition which is necessitated due to disruptions. Prospective entrepreneurs may find that book helpful for creating responsible organizations which are sustainable due to responsible management of resources, employees and environment. Students and researchers can learn from the cases and documentation on responsible leadership, social and environmental concerns and sustainability in this book.

Metro Rail Today May 2021 Mamta Shah,2021-05-07 In this edition, we have featured the developments about the Delhi Metro which celebrated its 27th anniversary recently. We have discussed how the world's first metro rail system was built in London? Based on feedback received from the readers, we have also started a knowledge series to keep readers updated on metro rail technology. We have covered the interviews of Mr. Achal Khare, Managing Director, National High Speed Rail Corporation (NHSRCL), Mr. Ashutosh Shukla, Director (Transportation & Mobility), Schneider Electric India and Mr. Luong Vo Ta, General Director, Vinh Hung JSC, Vietnam. These leaders have made a huge success in their respective fields despite the covid-19 impact on the industry.

Historical Cities of Delhi: Walks Using the Delhi Metro Siva Prasad Bose,Joy Bose,2022-11-23 Delhi is much more than just the capital of India. It is a city with an amazing history. So many times, it has been the major city or capital of India, from the earliest Mahabharata days to the Rajputs to the Delhi Sultanate to the Mughals to the British. Each time the new rulers left their mark on the city. As a result, now we have a Delhi which has the mark of at least seven or eight different historical cities, if not more. In this book, we review the different historical cities of Delhi. We use the Delhi metro, which is currently probably the best developed metro in India, as the preferred means of transport to see the sights of the seven cities of Delhi. We hope that this short guide will help the reader the experience a little bit of what Delhi is all about, its people and its history. In this book, we do not cover all the historical sites or attractions of Delhi, such as the many modern museums, markets and other attractions. Rather, we focus on the sites that form part of the historical cities of Delhi and those that are located within the historical boundaries of those cities. This book was born out of many

travels and exploratory walks made by the authors in Delhi, where they live.

Mainstreaming Climate Co-Benefits in Indian Cities Mahendra Sethi,Jose A. Puppim de Oliveira,2018-02-06 This volume presents a novel framework to understand urban climate co-benefits in India, that is, tackling climate change and achieving sustainable development goals in cities. It utilizes methods and tools from several assessment frameworks to scientifically evaluate sector co-benefits for informed decision making. The co-benefits approach can lead to significant improvements in the way societies use environmental resources and distribute their outputs. The volume discusses four main themes: (1) Concepts and theories on cities and climate co-benefits; (2) Contextualizing co-benefit issues across spatial scales and sectors; (3) Sectoral analyses of co-benefits in energy, transport, buildings, waste, and biodiversity, and (4) Innovations and reforms needed to promote co-benefits in cities. The discussions are based on empirical research conducted in Indian cities and aligned with the international discourse on the 2030 UN Development Agenda and New Urban Agenda created at the UN-Habitat III in 2016. The analyses and recommendations in this volume are of considerable interest to policy experts, scholars and researchers of urban and regional studies, geography, public policy, international development/law, economics, development planning, environmental planning, climate change, energy studies, and so on.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2015/16 ,2016-03-15 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working on energy and related sectors. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. The thirtieth edition of the publication, TEDDY 2015/16, comes with several interesting features. The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices, which are of current interest in the sectors discussed under the sections on energy supply, energy demand, and local and global environment. The publication also features a section that discusses sustainable development goals and air pollution and health. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents. Key Features: · Exhaustive compilation of data from energy supply and demand sectors · Recent data along with data for the past years presented in the form of structured and easy to understand tables · Recent advances made in the energy sectors are covered in the book · Self-explanatory figures and graphs showing the latest trends in various sectors are also part of chapters · The “Green focus” section in every chapter highlights a topical issue · The book comes with a complimentary CD that contains all the chapters and additional tables Contents: Energy and environment: an overview, Commercial energy balance tables and conversion factors □ Energy supply: Coal and lignite, Petroleum and natural gas, Power, Renewable energy sources and technologies □ Energy demand: Agriculture, Industry, Transport, Household energy □ Local and global environment: Environment, Climate change □ Energy and environment goals: Sustainable development goals and implications for India, Air pollution and health
