Organizing For Dummies Eileen Roth, Elizabeth Miles, 2011-03-21 What's the favorite four-letter word of people who are less than fully organized? "Help!" So many technological, social, and economic changes affect your life that you need organization just to keep up, let alone advance. Many people have two jobs - one at the office and one taking care of things at home. If you have a family, you may count that as a third job. Caring for elderly relatives or have community commitments? You can count off four, five, and keep right on going. No matter what life stage you're in, getting organized can make every day better and help you achieve your long-term goals. Organizing For Dummies is for anyone who wants to Polish his or her professional reputation Experience less stress Increase productivity Build better relationships Maximize personal time Organization isn't inherited. With the human genome decoded, the evidence is clear: DNA strings dedicated to putting things into place and managing your time like a pro are nonexistent. Instead, organization is a learned skill set. Organizing For Dummies helps you gain that skill with topics such as: Understanding how clutter costs you in time, money, and health Training your mind to be organized and developing a plan Cleaning house, room by room, from basement to attic (including the garage) Creating functional space for efficiency and storage Time-management strategies for home, office, and tavel Scheduling, delegating, and multitasking Making time for your family Managing your health - physical and financial Finding time for love Organizing and cashing in on a great garage sale Getting organized is about unstuffing your life, clearing out the dead weight in places from your closet to your calendar to your computer, and then installing systems that keep the good stuff in its place. Organizing is a liberating and enlightening experience that can enhance your effectiveness and lessen your stress every day - and it's all yours simply for saying "No" to clutter.

The Star Clock Chronicles E.J. Kitchens, 2021-01-14 In a world where sun and moon are myths, dawn is coming. No sun ever rose, no moon ever waxed or waned, no stars ever danced a rhythmic pattern across the night sky. Only faerie crystals brightening and dimming according to one man's will signaled dawn and dusk, month and season. Long ago, the faerie queen Morgan Unseelie cast a veil between heaven and earth, obscuring all heaven's lights, for the pleasure and power of a mortal man, who then fashioned himself the Rí Am, the Time King. From all other mortals, she took away knowledge of time and direction and skill of navigation. Man was dependent on the Rí Am's automaton navigators for travel and trade and thought the sun a myth and the faerie queen a benevolent goddess. Those few who kept the true faith-belief in the celestial lights and their Maker-called themselves Sky Keepers and refused to pay homage to the queen and her time king, often at great cost. But when airship captain Marianna Bowditch and Sky Keeper Bertram Orren stumble upon ancient books on navigation while trapped in an abandoned faerie court, everything starts to change. THE STAR CLOCK CHRONICLES is a collection of five novelette- to novella-length tales of adventure and clean romance in steampunk world and tells of the defeat of the Time King and the coming of dawn. This is the complete collection and includes Dawn Bringer, Star Veil, Sky Keeper, Moon Song, and Dusk Crier.
