Boundary-Spanning in Organizations Janice Langan Fox, Cary Cooper, 2013-11-12 In more recent times, the essence of the gatekeeper's role has moved to the 'boundary spanner' - a systems thinker who understands the specific needs and interests of the organization and whose greatest asset is their ability to move across and through the formal and informal features of the modern organization. There are many types of boundaries associated with an organization, for example, horizontal, (function and expertise), vertical (status, hierarchy), geographic, demographic, and stakeholder. Boundaries are the defining characteristic of organizations and, boundary roles are the link between the environment and the organization (Aldrich & Herker, 1977) with functions crucial to the effectiveness and success of the organization. Despite being a critical success factor for an organization, beginning in the 1970s, the term - 'boundary spanning' has had an intermittent research history: there has been no systematic body of research that has evolved over time. This book aims to invigorate, excite, and expand the literature on boundary spanning in a diverse range of disciplines such as sociology, organizational psychology, management, medicine, defence, health, social work, and community services. The book serves as the first collection of reviews on boundary spanning in organizations.

History of Maintenance of Indian Air Force 1977-2016 A Krupakaran, P Khandekar, 2022-08-13 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi-dimensional capabilities and a potent force to reckon with. It is said that the history is written by winners. But what is important is that the history is documented impartially, objectively and factually, as much as possible. It may be worth for IAF to consider coming out with a book each on Operations, Maintenance and Administration, depicting the historical decisions taken - successes and failures in equal measure - and how the IAF progressed over the decades to be what it is today - a professionally managed, optimally exploited, synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation. Yes, coffee table books and anniversary issues do gloss over a few events, but the real history is made by the toil, blood and sweat and tears of the

men behind these operations. Individual awards and citations many times compromise on actualities and are miserly with truth. “History is an argument without an end” said Pieter Geyl the Dutch historian. “I am glad to recommend this book to all, as the readers of the book, irrespective of their background, will enjoy the journey of these ‘spanners and screwdrivers’ of 12 AEC covering almost 900 man-years of IAF maintenance. It is also bound to raise curiosity in many minds to know more about air force maintenance. The book may act as a lighthouse for a lot of the present serving aeronautical engineers in their progression.” – Air Marshal KS Bhatia, PVSM AVSM & BAR “40 years of IAF maintenance history told through the voices of 39 outstanding air force officers with an unsurpassed breadth of experience and accomplishments. Most inspiring.” – Ramesh Dontha, Author of The 60-Minute Startup series of books, 3 times bestselling author, Gold Medal Award winner in 2020 Reader’s Favorite International Competition (Marketing)

comprehensive guide to the preparation and publication of research papers for researchers in communication sciences and disorders. Individual chapters address the structure, content, and style of the introduction, method, results, and discussion sections of a research paper.
