Disney Channel Tween Programming Christopher E. Bell, 2020-08-28 Much has been written about the Walt Disney Company's productions, but the focus has largely been on animation and feature film created by Disney. In this essay collection, the attention is turned to The Disney Channel and the programs it presents for a largely tween audience. Since its emergence as a market category in the 1980s, the tween demographic has commanded purchasing power and cultural influence, and the impressionability and social development of the age group makes it an important range of people to study. Presenting both a groundbreaking view of The Disney Channel's programming by the numbers and a deep focus on many of the best-known programs and characters of the 2000s--shows like *The Wizards of Waverly Place*, *That's So Raven* and *Hannah Montana*--this collection asks the simple questions, What does The Disney Channel Universe look and sound like? Who are the stories about? Who matters on The Disney Channel?

Girlhood on Disney Channel Morgan Genevieve Blue, 2017-03-03 Since the early 2000s, Disney Channel has been dominated by original live-action programming popular among tween girls. The shows' successes rely not only on their popularity among girl audiences, but also on the development of star personae by girl performers, such as Raven-Symoné, Miley Cyrus, and Selena Gomez. In addition, these programs and their performers have spawned lucrative media and merchandising franchises for the Walt Disney Company. This book includes analyses of this Disney Channel programming, as well as Disney corporate reports and executive statements, together with Disney Channel stars' performances, promotional appearances, media production, philanthropic efforts, and

entrepreneurism. Analyzing these texts, performances, activities, and personae, it considers the ways in which they reproduce celebrity, visibility, and feminine performativity as central to successful twenty-first century girlhood.
