**Lesser Spotted Animals** Martin Brown,2016-12-27 A hilarious, fact-tastic picture book about the coolest creatures you've never heard of, from the illustrator of the internationally bestselling Horrible Histories. Bison? They're banned! Tigers? Taboo! Say good-bye to the gnu, cheerio to the cheetah, and peace to the panda.The world of Lesser Spotted Animals STARTS HERE!Find out all about the amazing animals you need to know but never get to see, from the numbat to the zorilla, and everything in between. A non-fiction picture book with attitude, Martin Brown's Lesser Spotted Animals combines the humor and verve of books like Dragons Love Tacos and Please Mr. Panda with the informative breadth and gorgeous presentation of non-fiction from Steve Jenkins, Diana Aston, and Jenny Broom.

**Humanimal** Christopher Lloyd,2019-10

Even More Lesser Spotted Animals Martin Brown,2019-07-30 Approachable and funny, Even More Lesser Spotted Animals combines the humor and verve of Sandra Markle with the gorgeous presentation of picture books from Steve Jenkins and Diana Aston. Just as Lesser Spotted Animals showed you some of the wonderfully WOW wildlife we never get to see, the next book of the lesser known animal kingdom reveals the stories of even more of the world's unseen and unsung creatures. No king-of-the-jungle, fancy-pants, hair necked lions here -- we've got the magnificent maned wolf instead. No blue whales either, we've got beaked whales -- and lorises and dingisos and dibatags and many, many more.

*Do You Know Them? Endangered Animals Book Grade 4 | Children's Nature Books* Baby Professor,2020-12-31 Go beyond the question of “what are endangered animals?” Instead, try to dig deeper and understand how these animals became endangered in the first place. Because what’s more important than identifying the endangered animals is to realize how certain forces have almost driven them to extinction. Is there anything that you can do to save these animals?

**Do You Know Where the Animals Live?** Peter Wohlleben,2021-05-03 “I absolutely love this book.” – Jane Goodall From the New York Times-bestselling author of The Hidden Life of Trees and The Inner Life of Animals comes a book for kids ages 8-12 about animals at home and around the world. Get ready to become an animal expert! Perfect for STEM learning and outdoor education. Have you ever wondered ... Are worms afraid of the rain? Do fish use farts to communicate? Why do elephants stomp their feet? Do animals dream? What do they dream about? Do animals get scared, feel happy, or become excited like we do? In this highly visual, fun, and interactive book, kids will get to know all sorts of animals, from birds and caterpillars in their own backyard, to grizzly bears in chilly Alaska, to puffer fish in the waters of Australia. Through a mix of activities, facts, stories, and pictures, kids will learn: How to spot animal homes and follow their movements How our actions impact animals and their ability to survive and thrive in nature About some of the wildest and most interesting creatures on Earth This wonderful introduction to the animal kingdom features playful questions, fun quizzes, and activities that will help kids study animals in their own backyards—and make the world a better place for them.

Shark or Dolphin? Melissa Stewart,2011-01-01 They both live in the ocean. They are both large, gray, and eat fish, but one is a shark and the other is a dolphin. How do you know which animal is which? Award-winning children's author Melissa Stewart explains a few of the many differences between these animals. Stewart's simple text is paired with stunning underwater photography to show readers just how different these animals really are.

**Beyond Words** Carl Safina,2015-07-14 In a world where we usually measure animals by human standards, prize-winning author and MacArthur Fellow Carl Safina takes us inside their lives and minds, witnessing their profound capacity for perception, thought and emotion, showing why the word it is often inappropriate as we discover who they really are. Weaving decades of observations of actual families of free-living creatures with new discoveries about brain functioning, Carl Safina's narrative breaches many commonly held boundaries between humans and other animals. InBeyond Words, readers travel the wilds of Africa to visit some of the last great elephant gatherings, then follow wolves of Yellowstone National Park sort out the aftermath of their personal tragedy, then plunge into the astonishingly peaceful society of killer whales living in waters of the Pacific Northwest. We spend quality time, too, with dogs and falcons and ravens; and consider how the human mind originated. In his wise and passionate new book, Safina delivers a graceful examination of how animals truly think and feel, which calls to question what really does—and what should—make us human.

*What Do You Know About Albino Animals?* Francine Topacio,2020-07-15 Albinism is a condition in which there's a lack of pigment in an animal's eyes, skin, scales, or

feathers. This condition is genetically transmitted from parent to offspring. Albinism is found in nearly all animal species, including humans, snakes, and beetles. Readers will learn what causes albinism, the challenges albino animals face, and why these animals are so special. Fact boxes provide readers with supplementary information while color photographs capture readers' attention.

**What Do You Know About Animals with Pouches?** Francine Topacio,2020-07-15 Marsupials are mammals that have a pouch or a fold of skin called a marsupium in which their young are protected, carried, and nourished. Almost all species of marsupials live in Australia, although some species live on land and others live in trees. Young explorers will learn about the early stages of marsupials' life cycle and the habitats in which they live. Captivating photographs draw readers in and fun facts maintain their attention throughout this learning experience.

**Alligator or Crocodile?** Melissa Stewart,2011-01-01 Alligators and crocodiles may look the same to you, but you might be surprised to learn just how different these animals are. Readers get a close up look at the differences between these animals with brilliant color photographs. This appealing new book will show young readers that alligators and crocodiles are not as similar as they appear. A perfect and exciting book for nonfiction reading, too.

**What Do You Know About Animals with Armor?** Francine Topacio,2020-07-15 Just as knights in the Middle Ages wore armor to keep their bodies safe during battle, some animals have strong, hard coverings to keep their bodies safe from predators. Some animals have hard scales, shells, or thick skin that acts as armor. Your curious learners are introduced to the different types of armor that animals have and they'll encounter examples of each. Bright photographs grab readers' attention while a graphic organizer presents key information in one go-to place.

**Are We Smart Enough to Know How Smart Animals Are?** Frans de Waal,2016-04-25 A New York Times bestseller: A passionate and convincing case for the sophistication of nonhuman minds. —Alison Gopnik, The Atlantic Hailed as a classic, Are We Smart Enough to Know How Smart Animals Are? explores the oddities and complexities of animal cognition—in crows, dolphins, parrots, sheep, wasps, bats, chimpanzees, and bonobos—to reveal how smart animals really are, and how we've underestimated their abilities for too long. Did you know that octopuses use coconut shells as tools, that elephants classify humans by gender and language, and that there is a young male chimpanzee at Kyoto University whose flash memory puts that of humans to shame? Fascinating, entertaining, and deeply informed, de Waal's landmark work will convince you to rethink everything you thought you knew about animal—and human—intelligence.

**Animals Should Definitely Not Wear Clothing** Judi Barrett,2012-01-03 Not everyone needs to get dressed. A beloved favorite is now an eBook, with audio and new illustrations! Animals should definitely not wear clothing...because a snake would lose it, a billy goat would eat it for lunch, and it would always be wet on a walrus! This popular book by Judi Barrett and Ron Barrett shows the very youngest why animals' natural clothing is perfect just as it is. Now with new illustrations that retain the charming quality of the originals but give this edition a fresh look, this beloved story is available as an engaging eBook with audio narration.

**Everything You Know About Animals is Wrong** Matt Brown,2020-03-25 A humorous and informative book, debunking a range of commonly held myths about animals. Camels store water in their humps and magpies love to steal shiny objects. Or do they? A must-read in the Everything you Know series, this book debunks a range of old-cod stories about animals in author Matt Brown's inimitable humorous and fascinating style. Covering everything from the myth that lemmings throw themselves off cliffs in

suicide (they don't, but on occasion some just fall off) to the one about bats being blind (they're not, and they can see but use the more sophisticated echolocation for certain hunting). From head in the sand ostriches to cats landing on their feet, a wealth of information on our beloved pets to creepy crawlies and wild giants, this book will set the marvel of the animal word straight. Plus, there are special features on the odd diets of animals and how wrongly they are portrayed in the movies. All the old stories and myths about animals we've had since childhood are gleefully debunked in a hugely entertaining book.
