Race Me in a Lobster Suit Kelly Mahon,2019-03-26 This collection of prank Craigslist ads and the real email exchanges that followed is “hilarious, good fun” and the perfect gift for fans of offbeat humor (Huffington Post) When New York City copywriter Kelly Mahon started posting fake gig ads online as a creative outlet, she was surprised to find that there was someone interested in every bizarre job offer she dreamed up. Race Me in a Lobster Suit collects Mahon’s funniest posts, along with the improvised email exchanges with would-be cocoon knitters and lobster racers. Some correspondents became suspicious, while others seemed willing to play along. The result is good-natured comedy gold and a kind of collaborative entertainment that could only exist in the internet gig economy. Irreverent illustrations by cartoonist Graham Annable (creator of the Harvey Award nominated Grickle comics) ensure that this small book offers outsize laughs. A quick, hilarious read, Race Me in a Lobster Suit is perfect for anyone who needs a bit of absurdity to brighten their day.

21st Century Guitar Richard Perks,John McGrath,2023-01-12 In the 21st Century, the guitar, as both a material object and tool for artistic expression, continues to be reimagined and reinvented. From simple adaptations or modifications made by performers themselves, to custom-made instruments commissioned to fulfil specific functions, to the mass production of new lines of commercially available instruments, the extant and emergent forms of this much-loved musical instrument vary perhaps more than ever before. As guitars sporting multiple necks, a greater number of strings, and additional frets become increasingly common, so too do those with reduced registers, fewer strings, and fretless fingerboards. Furthermore, as we approach the mark of the first quarter-century, the role of technology in relation to the guitar's protean nature is proving key, from the use of external effects units to synergies with computers and AR headsets. Such wide-ranging evolutions and augmentations of the guitar reflect the advancing creative and expressive needs of the modern guitarist and offer myriad new affordances. 21st Century Guitar examines the diverse physical manifestations of the guitar across the modern performative landscape through a series of essays and interviews. Academics, performers and dual-practitioners provide significant insights into the rich array of guitar-based performance practices emerging and thriving in this century, inviting a reassessment of the guitar's identity, physicality and sound-creating possibilities.

Child Development and the Brain Rob Abbott,Esther Burkitt,2023-05-30 This bestselling textbook provides social science students with an accessible introduction to neuroscience and the implications for our understandings of child development, considering the links between brain development and social and cultural issues. Now covering the 0-18+ age range, the new edition critically analyses the relationship between children and young people’s thoughts, behaviours and feelings and the ways in which their developing brains are structured. It includes a new section on emotional development in adolescence, considering the impact of drugs and alcohol on the brain and the role of brain changes in driving risky behaviours. Assuming no prior knowledge of the subject, the text connects the latest scientific knowledge to the practice of understanding and working with children. Incorporating the latest research and debate throughout, the book offers students and practitioners working with children: • case studies showing how brain science is changing practice; • a companion website including self-test questions; • end-of-chapter summaries, further reading and questions to test knowledge; • a glossary of neuroscientific terms.
