Doctor Who: How to be a Time Lord - The Official Guide ,2018-08-30 This ancient Time Lord manual has been kicking around the TARDIS for thousands of years, giving the Doctor plenty of time to 'improve' it with scribbles, doodles and post-it notes as a gift for his successor, the Twelfth Doctor. He's even ripped out the middle of the book and replaced it with a scrapbook packed with everything important to our hero, and how to be just like him! So if you have ever wondered if you'd cut it in the Time Lord Academy, how to fly the TARDIS, or the correct way to dip a fish finger into custard, this is the book for you! Essential reading for all aspiring Time Lords!

Doctor Who #1 Jody Houser,2020-11-18 After a deadly run-in with Weeping Angels and Autons in 1969 London, the Tenth and Thirteenth Doctors won the day, and went their separate ways. Thirteen returned with her Fam to their present, narrowly avoiding a devastating paradox that would ripple through time and space - or so they thought...

The Nth Doctor Jean-Marc Lofficier,Randy Lofficier,2003-04 Over the last three decades, several film production companies have held the rights to make a Doctor Who movie. To this day, intense speculation surrounds the details of these unmade productions. Here, for the first time, is an in-depth exploration of the Doctor Who films that almost were, including detailed synopses and extracts from the scripts themselves, interviews with the writers, behind-the-scenes articles explaining how these productions came to be, why the contemplated films were never shot, and the role played by stars such as Leonard Nimoy and Steven Spielberg. "The Nth Doctor is a lot of fun—by showing the process of how Doctor Who might have started again, we can get a lot of insight about why it is one of our favorite programs." —Michael Lee, Minnesota Doctor Who Information List "I really enjoyed this look at what Doctor Who might have been. The Nth Doctor is a nice addition to the range of non-fiction Who and covers an area about which little was previously known." —David Howe, Howe's Who

The Dr. Seuss Catalog Richard H.F. Lindemann,2005-01-21 Theodor Seuss Geisel--known worldwide as the beloved children's author Dr. Seuss--produced a body of work that spans more than 70 years. Though most often associated with children's books, he frequently contributed cartoons and humorous essays to popular magazines, produced effective and memorable advertising campaigns (Quick, Henry, the Flit!), and won Oscars and Emmys for motion picture productions, animated shorts, and features. As founder and president of Beginner Books, his influence on children's book publishing was revolutionary, especially in the field of elementary readers. Geisel's prolific career--he wrote or contributed illustrations to more than 75 books, most of which have been reprinted repeatedly and translated worldwide--and his predilection for made-up creatures make this joint bibliography and iconography especially useful to readers and researchers. The exhaustive bibliography is arranged chronologically, providing full bibliographic information, including translations as they appear, reissue information, and descriptions of the binding. The iconography links more than 900 fictional

names, places and terms to the works in which they appear. For the reader seeking a first edition of *Quomodo Invidiosulus Nomine Grinchus Christi Natalem Abrogaverit* (How the Grinch Stole Christmas! translated into Latin) or hoping to identify abrasion-contusions (race cars in *If I Ran the Circus!*), this work promises as much discovery as a walk down Mulberry Street.

Women in Doctor Who Valerie Estelle Frankel,2018-02-27 Over the past half-century Doctor Who has defined science fiction television. The women in the series--from orphans and heroic mothers to seductresses and clever teachers--flourish in their roles yet rarely surmount them. Some companions rescue the Doctor and charm viewers with their technical brilliance, while others only scream for rescue. The villainesses dazzle with their cruelty, from the Rani to Cassandra and Missy. Covering all of the series--classic and new--along with *Class*, *K9*, *Torchwood*, *The Sarah Jane Adventures*, novels, comics and Big Finish Audio adventures, this book examines the women archetypes in Doctor Who.

The Catalogue of Shipwrecked Books Edward Wilson-Lee,2020-03-10 This impeccably researched and “adventure-packed” (The Washington Post) account of the obsessive quest by Christopher Columbus’s son to create the greatest library in the world is “the stuff of Hollywood blockbusters” (NPR) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus’s death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father’s campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include “all books, in all languages and on all subjects,” even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. “Magnificent...a thrill on almost every page” (The New York Times Book Review), *The Catalogue of Shipwrecked Books* is a window into sixteenth-century Europe’s information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.

Science Fiction Film, Television, and Adaptation Jay Telotte,Gerald Duchovnay,2011-08-02 While film and television seem to be closely allied screen media, our feature films and television series have seldom been successfully adapted across those screens. In fact, rather than functioning as portals, those allied media often seem, quite literally, screens that filter out something that made the source work so popular in its original form. Differences in budget, running times, cast, viewing habits, screen size and shape all come into play, and this volume's aim is to track a number of popular texts in the course of their adaptive journeys across the screens in order to sketch the workings of that cross-media adaptation. For its specific examples, the volume draws on a single genre—science fiction—not only because it is one of the most popular today in either film or television, but also because it is arguably the most self-conscious of contemporary genres, and thus one that most obviously frames the terms of these technological adaptations. The essays included here mine that reflexive character, in both highly successful and in failed efforts at cross-media adaption, to help us understand what film and television achieve in screening science fiction, and to reveal some of the key issues involved in all of our efforts to navigate the various screens that have become part of contemporary culture.

How Doctors Care Dominic Vachon,2019-08-07 Compassion draws physicians into medicine, but then they believe they must jettison that compassion to survive. Paradoxically, science has now shown that losing that compassion not only harms the patient, it also harms the doctor. *How Doctors Care: The Science of Compassionate and Balanced Caring in Medicine* explains what physicians and other clinicians can do to provide balanced and compassionate caring for patients without becoming emotionally detached or overwhelmed. The text provides a research-informed and non-sentimental description of physician/clinician compassion. Bringing together cutting-edge scientific research for practicing physicians and those in training, *How Doctors Care* provides the first full articulation of what constitutes optimal compassionate mental performance in the practice of medicine. It argues how maintaining this internal state is the key to physician resilience and fulfillment in a dysfunctional healthcare system. Rather than blaming clinicians for burnout, *How Doctors Care* argues that healthcare organizations must provide organizational protection and support to clinicians so that they are able to maintain the compassionate internal state they desire so much and that benefits patients the most. Dominic O. Vachon, M.Div., Ph.D., is the John G. Sheedy M.D. Director of the Ruth M. Hillebrand Center for Compassionate Care in Medicine in the College of Science at the University of Notre Dame. He is also a professor of practice in the Preprofessional Studies Department, where he teaches courses in compassionate care in medicine, medical counseling skills, and spiritualities of caring in the helping professions. Dr. Vachon does research on the internal mental and emotional process of the clinician compassion mindset in patient care, clinician communication skills, and innovations in medical training applying the science of compassion. Dr. Vachon has devoted the last 25 years of his professional career to supporting and training physicians, residents, medical students, premedical students, and other clinicians in patient communication skills as well as dealing with burnout and the recovery of compassionate care in the inner lives of clinicians. As a medical psychologist who has spent most of his life training new physicians as well as conducting his own clinical practice, Vachon has been uniquely positioned to hear how physicians suffer in clinical practice and to bring to bear the

insights of the science of compassionate caring to help them restore their compassionate ideals and thereby, to improve patient care.
