Blackboard Drawing Frederick Whitney,2019-12-04 Blackboard Drawing is a monograph by Frederick Whitney about the practice of blackboard drawing, its meaning as a kind of art, and the possibilities and great value of the practical use of blackboard drawing in a classroom. However, the most significant value of this book is the beautiful masterpiece-level illustrations of blackboard drawings created by the book's author.

Blackboard Drawing (Yesterday's Classics) Mildred Swannell,2021-05-28 A handy guide to introducing chalk drawing to children so they develop drawing skills hand in hand with cultivating their powers of observation. Beginning with circles, children move on to patterns that can be made within a circle and then drawing of simple objects based on a circle. Ovals are introduced next, and form the basis of instruction on how to draw fish, leaves, and birds. Flowers, insects, and larger animals are then each taken up in turn. The book concludes with ways chalk drawings can be used to excite interest in arithmetic, geography, and history lessons. The 27 different black and white plates in this book are meant both to instruct and to inspire. For ease of use, in this edition the text and the plates they reference are placed on facing pages, allowing the reader to refer to both at the same time (rather than having all the plates at the end, as in the original edition). Note: Several plates are included in more than one page spread when the corresponding text spans multiple pages.

Blackboard Drawing Frederick Whitney,2015-07-06 Excerpt from Blackboard Drawing: A Monograph This Monograph is a reprint of a series of articles first published in the second volume of the magazine now known as The School Arts Book. The articles attracted wide attention both on account of their timeliness and their illustrations. The plates were made from photographs or actual work upon the blackboard by Mr. Whitney, and are undoubtedly the most attractive blackboard drawings ever published. The demand for these articles has been so great that the original editions have been exhausted. They are republished in this form in the hope that they may influence yet more strongly the increasing number of teachers who find the blackboard indispensable in teaching. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. Chalk Talk Made Easy William Allen Bixler,2011-03-10 One does not need to be an artist to use the crayon successfully. Chalk talking is an art in itself, and by a little practice any speaker can increase his ability 100 per cent. William A. Bixler, the artist-author, has produced at his easel a crayon sketch of the boy Christ kneeling on the seashore, his face toward the rising sun, imploring his heavenly Father for assistance to prepare himself for his lifework, unmindful of the cross reflected in the shadow on the sand. Mr. Bixler, a devout father, has always shown a keen interest in children and young people. He has written hundreds of articles and nature stories for publication and is also the author of books having a large circulation. For years he has demonstrated the use of crayon at religious and social gatherings. The title of Riley Artist was given Mr. Bixler for his work in connection with paintings of James Whitcomb Riley's Old Swimmin' Hole and the life-size bronze statue of Riley erected in Greenfield, Ind., in 1918. It was in 1912 that Mr. Bixler produced a painting in oil of the famous spot for the poet Riley. Then a committee of Greenfield citizens determined to erect a bronze statue in honor of Mr. Riley and they retained Mr. Bixler to make oil paintings of the Old Swimmin' Hole for schools throughout the Union that would contribute toward the monument fund. During the following six years over 5,000 canvases of the noted spot were produced for that purpose by Mr. Bixler, the Riley Artist. The Anderson (Ind.) Herald, November 26, 1918, said of Mr. Bixler: Without any question, Mr. Bixler has more paintings hanging in the schools of the United States than any other living artist. The Long Beach (Calif.) Telegram, 1927, says: The outstanding feature of Mr. Bixler's program is his drawing. In a few moments he transforms a blank canvas into a charming landscape. Mr. Bixler is an artist of national fame, known particularly for his painting of the Old Swimmin' Hole'.
