*Draw Your Weapons* Sarah Sentilles,2017-07-04 A single book might not change the world. But this utterly original meditation on art and war might transform the way you see the world—and that makes all the difference. “How to live in the face of so much suffering? What difference can one person make in this beautiful, imperfect, and imperiled world?” Through a dazzling combination of memoir, history, reporting, visual culture, literature, and theology, Sarah Sentilles offers an impassioned defense of life lived by peace and principle. It is a literary collage with an urgent hope at its core: that art might offer tools for remaking the world. In *Draw Your Weapons*, Sentilles tells the true stories of Howard, a conscientious objector during World War II, and Miles, a former prison guard at Abu Ghraib, and in the process she challenges conventional thinking about how war is waged, witnessed, and resisted. The pacifist and the soldier both create art in response to war: Howard builds a violin; Miles paints portraits of detainees. With echoes of Susan Sontag and Maggie Nelson, Sentilles investigates images of violence from the era of slavery to the drone age. In doing so, she wrestles with some of our most profound questions: What does it take to inspire compassion? What impact can one person have? How should we respond to violence when it feels like it can’t be stopped? Praise for *Draw Your Weapons* “A collage of death, savagery, torture, and trauma across generations and continents, Sarah Sentilles’s *Draw Your Weapons* is painful to read, hard to put down, and impossible to forget.”—O: The Oprah Magazine “In her dynamic, impressionistic (and cleverly titled) book, Sentilles focuses on language and images—particularly photography—and considers what role they play in peace and war. Eschewing a traditional narrative, Sentilles focuses on two men—one a World War II conscience objector who makes violins, and the other an Abu Ghraib prison guard who paints detainee portraits. In brief, delicately layered pieces rather than a narrative, Sentilles has created a collage that explores art, violence, and what it means to live a principled life.”—The National Book Review “It’s the kind of book that, after reading just half, you have to stop and catch your breath, because reading it changes you, not just in terms of what you know—it changes the way you think and how you feel—so much so that, halfway in, I wanted to go back and start again because I felt I was already a different person to the person I was when I began.”—Turnaround

*Draw Mexico, Central and South America* Kristin Draeger,2016-06-28 Geography is essential to a child's education. And basic to that study is a simple outline of provinces, countries and continents. In *Draw Mexico, Central & South America* I have tried to give students an easy introduction to committing the map of Mexico, Central & South America to memory. Through simple, step-by-step instructions, students learn to draw each area as they connect to their neighbors and, with a little practice, will be able to draw Mexico, Central & South America as a whole.

*Draw the Dark* Ilisa J. Bick,2013-08-01 There are things the people of Winter, Wisconsin, would rather forget. The year the Nazis came to town, for one. That fire, for another. But what they'd really like to forget is Christian Cage. Seventeen-year-old Christian's parents disappeared when he was a little boy. Ever since, he's drawn obsessively: his mother's face...her eyes...and what he calls the sideways place, where he says his parents are trapped. Christian figures if he can just see through his mother's eyes, maybe he can get there somehow and save them. But Christian also draws other things. Ugly things. Evil things. Dark things. Things like other people's fears and nightmares. Their pasts. Their destiny. There's one more thing the people of Winter would like to forget: murder. But Winter won't be able to forget the truth, no matter how hard it tries. Not as long as Christian draws the dark...
