Dubai, from the scratch until today - A new vision of tourism? Svenja Lis, 2010-07-13 Seminar paper from the year 2009 in the subject Tourism - Miscellaneous, grade: 1,7, Stralsund University of Applied Sciences, language: English, abstract: You can never understand Dubai if you have not been there. But being there is no guaranty for comprehension either! Dubai is the place of the ultimate superlatives. Nothing is impossible and dreams can come true. Like in a modern fairytale, in Dubai everything seems to be possible and what shines seems to be made of gold... Skiing in the desert, clubbing in an Islamic country, the famous "Palm" and upcoming "Dubailand" to name only some of the numerous attractions Dubai has to offer. I had the great opportunity to be part of an outstanding excursion to the United Arab Emirates with main interest on Dubai and to get an impression of one of the most fascinating destinations in the world. Not only as a tourist, but with the possibility to experience Dubai from a different sight, I had the chance to make up my mind about a fascinating city that never sleeps. For this reason my interest in Dubai arose and makes me take a closer look on Dubai. How did Dubai become what it is today? How can it fulfil it's own premises to still grow and develop? And how can a single person, His Highness Sheikh Mohammed bin Rashid Al Maktoum, be responsible for all this? With the following assignment I try to answer these questions by giving an overview of Dubai's history, the current touristic situation in Dubai and the vision of Dubai in 2015.

**A study of opportunities and threats emerging from the current and likely future tourism development in Dubai** Julia Kühn, 2009-10-26 Bachelor Thesis from the year 2008 in the subject Tourism, grade: Upper Second, New College Durham, language: English,

abstract: This research project assesses the current and likely future tourism development in Dubai. Particular reference was given to the concept of sustainable tourism development. It was to be answered, whether the current scale of tourism development in Dubai is likely to be sustainable. In order to answer this question, the author has used several frameworks for assessing Dubai's current scale of tourism development and its strengths and weaknesses as a tourist destination. Moreover the concept of sustainability has been introduced in this project. The importance of sustainable tourism development in Dubai had to be assessed; hence, the author demonstrated a choice of Dubai's approaches towards sustainability. Finally recommendations are given of how to further tourism development in Dubai should be realised. The research findings show that Dubai's strategic tourism development is focused on quantity rather on quality. 20 years ago, Dubai consisted mainly of desert, today countless hotels, theme parks, and even artificial islands are being built to meet the current demand and to attract more tourists. Such a rapid development is not without criticism in terms of major negative sociocultural and environmental impacts. This piece of work highlights these impacts and points out whether they can be overcome or not.

*The Economy of Dubai* Abdulrazak Al Faris, Raimundo Soto, 2016-01-28 Over the last 50 years, Dubai has transformed itself from a small fishing and trading village into an integrated, modern, and vibrant economy. The development process was initiated by oil richness but, unlike most other oil exporters, it has successfully diversified away from hydrocarbons with the creation of world-class clusters of financial services, tourism, and trading activities. Understandably, Dubai has become a model of economic development not only for the other six emirates that comprise the UAE, but also for most regional economies. Indeed, its success in diversifying its economic base makes Dubai an interesting case study for any resource-dependent economy wishing to achieve sustainable prosperity by engaging in better-balanced growth paths than those typically induced by the exploitation of natural resources. This book provides a comprehensive economic and historical account of the

evolution of the economy of Dubai since the foundation of the United Arab Emirates in 1971. It focuses on its transformations and experiences and the roles played by government policies and private sector initiatives. Based on solid analysis, it provides a perspective and policy recommendations on the way forward in an intensely increasing competitive global economy.

**Routledge Handbook of Tourism Cities** Alastair M. Morrison,J. Andres Coca-Stefaniak,2020-08-27 The Routledge Handbook of Tourism Cities presents an up-to-date, critical and comprehensive overview of established

and emerging themes in urban tourism and tourist cities. Offering socio-cultural perspectives and multidisciplinary insights from leading scholars, the book explores contemporary issues, challenges and trends. Organised into four parts, the handbook begins with an introductory section that explores contemporary issues, challenges and trends that tourism cities face today. A range of topics are explored, including sustainable urban tourism, overtourism and urbanisation, the impact of terrorism, visitor-host interactions, as well as reflections on present and future challenges for tourism cities. In Part II the marketing, branding and markets for tourism cities are considered, exploring topics such as destination marketing and branding, business travellers and exhibition hosting. This section combines academic scholarship with real-life practice and case studies from cities. Part III discusses product and technology developments for tourism cities, examining their supply and impact on different travellers, from open-air markets to creative waterfronts, from social media to smart cities. The final Part offers examples of how urban tourism is developing in different parts of the world and how worldwide tourism cities are adapting to the challenges ahead. It also explores emerging forms of specialist tourism, including geology and ecology-based tourism, socialist heritage and post-communist destination tourism. This handbook fills a notable gap by offering a critical and detailed understanding of the diverse elements of the tourist experience today. It contains useful suggestions for practitioners, as well as examples for theoretical frameworks to students in the fields of urban tourism and tourism cities. The handbook will be of interest to scholars and students working in urban tourism, heritage studies, human geography, urban studies and urban planning, sociology, psychology and business

studies.

### **United Arab Emirates Travel Guide** Jesse

Russell, 2019-11-19 United Arab Emirates Travel Guide. Tourism. Comprised of little more than sand dunes, crumbling forts and fishing villages a century ago, the United Arab Emirates (UAE) has grown into a show-stopping, headline-grabbing destination which offers an intriguing blend of traditional Islamic culture and rampant consumerism. Powered largely (but by no means exclusively) by oil wealth, the UAE today is defined by opulent resort hotels, ultra-modern architecture and a seemingly unending thirst for new and innovative mega-projects. Manmade islands in the shape of palm trees? Tick. Billionaire royals taking over Premiership football clubs? Tick. Tallest building on the planet? Naturally. Seven separate emirates make up the country, but visitor attention falls mainly on Dubai and Abu Dhabi. Both are home to an ever-growing spread of luxury accommodation, gourmet restaurants, branded nightclubs and gleaming shopping malls. Dubai's most iconic sights include the sail-shaped 7-star hotel Burj Al Arab, the Burj Khalifa skyscraper and the sea-themed Atlantis Resort, which are microcosms of the UAE's lofty ambitions. The regular fountain show in the Downtown area rivals that of the Bellagio in Las Vegas, while vast shopping complexes like Dubai Mall (complete with one of the world's largest aquariums) and Mall of the Emirates (complete with ski slope) are packed with premium international labels. Abu Dhabi, meanwhile, doesn't have quite the same verve but boasts some remarkable attractions, from the Sheikh Zayed Grand Mosque to the Ferrari World theme park. And in both destinations, there's the option to delve into the UAE's blend of Islamic culture and modernity, from spice souks to falcon hospitals. Meanwhile, the vast natural

desert offers endless discoveries via exciting modes of transport from hot air balloon and quad bike to helicopter or sandboard.

*Mega Tourist Metropolises* Mark Gotttiener, Tim Simpson, Heiko Schmid, 2010-04-01 The 'mega' tourist spaces of Las Vegas and recently Dubai and Macau are significant examples of new forms of urban landscape created by global capitalism that attracts huge sums of investment and employ spectacle, theming and consumer experience to extract massive profits from tourism. These regions are significant as they constitute a new way of making money from a spatial location. *Mega Tourist Metropolises* is the first book to thoroughly examine and compare these three 'mega' tourist spaces together in the context of the scale of their respective development for tourism, massive global investment and new urban theories to reveal how they emerge, work and result in massive profits from tourism. It achieves this by evaluating these landscapes from multidisciplinary perspectives concerned with the economic, political, cultural socio-spatial factors that influence the production of these spaces. It analyzes the use of signs and the consumption of these signs to market these places and attract tourists as well as drawing on primary research with tourists in these regions to shed light on why they choose to visit these places and experience they have had. By looking at the urban growth and change in these regions as well as tourism experience it contributes to a greater understanding of these contemporary urban landscapes that extends beyond these geographical locations and will contribute to the development of these spaces in other regions. Written by leading authorities in this area, this book will be a valuable resource for students and academics interested in Tourism, Urban Studies, Geography, Cultural Studies and Urban

Sociology.
