Finder Gary Provost, 2015-12-17 In the last two decades, Private Investigator Marilyn Greene has found more than two hundred people – sometimes discovering in hours or minutes a person missing for years. In *FINDER*, Greene shares her news-making triumphs, the joyous family reunions she's made possible, and the chilling cases of dead ends. Often called in when all efforts by law enforcement officials have failed, she has traveled the country to locate runaways, children abducted by parents and strangers, and suicide and homicide victims. Hailed by *Esquire* as one of the men and women under forty who are changing the face of America, Marilyn Greene's story is riveting true adventure. Here is the compelling account of how she uses her instincts and her experience to find hopelessly lost individuals; surprising techniques about how and where to look for missing persons; and the tools of her trade, from specially trained dogs to publicly available directories and maps. *FINDER* is an invaluable resource on missing-person cases – and spellbinding reading.

The 50s: The Story of a Decade The New Yorker Magazine, 2015-10-27 This engrossing anthology assembles classic New Yorker pieces from a complex era enshrined in the popular imagination as the decade of poodle skirts and Cold War paranoia—featuring contributions from Philip Roth, John Updike, Nadine Gordimer, and Adrienne Rich, along with fresh analysis of the 1950s by some of today's finest writers. The New Yorker was there in real time, chronicling the tensions and innovations that lay beneath the era's placid surface. In this thrilling volume, classic works of reportage, criticism, and fiction are complemented by new contributions from the magazine's present all-star lineup of writers. The magazine's commitment to overseas reporting flourished in the 1950s, leading to important dispatches from East Berlin, the Gaza Strip, and Cuba during the rise of Castro. Closer to home, the fight to break barriers and establish a new American identity led to both illuminating coverage, as in a portrait of Thurgood Marshall at an NAACP meeting in Atlanta, and trenchant commentary, as in E. B. White's blistering critique of Senator Joe McCarthy. The arts scene is recalled in critical writing rarely reprinted, including Wolcott Gibbs on *My Fair Lady*, Anthony West on *Invisible Man*, and Philip Hamburger on *Candid Camera*. Also featured are great early works from Philip Roth and Nadine Gordimer, as well as startling poems by Theodore Roethke and Anne Sexton, among others. Completing the panoply are insightful and entertaining new pieces by present-day New Yorker contributors examining the 1950s through contemporary eyes. The result is a vital portrait of American culture as only one magazine in the world could do it. Including contributions by Elizabeth Bishop • Truman Capote • John Cheever • Roald Dahl • Janet Flanner • Nadine Gordimer • A. J. Liebling • Dwight Macdonald • Joseph Mitchell • Marianne Moore • Vladimir Nabokov • Sylvia Plath • V. S.

Pritchett • Adrienne Rich • Lillian Ross • Philip Roth • Anne Sexton • James Thurber • John Updike • Eudora Welty • E. B. White • Edmund Wilson And featuring new perspectives by Jonathan Franzen • Malcolm Gladwell • Adam Gopnik • Elizabeth Kolbert • Jill Lepore • Rebecca Mead • Paul Muldoon • Evan Osnos • David Remnick Praise for The 50s "Superb: a gift that keeps on giving."—Kirkus Reviews (starred review) "[A] magnificent anthology."—Literary Review

Nineteen Eighty-Four George Orwell, 2021-01-09 *Nineteen Eighty-Four: A Novel*, often published as 1984, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, *Nineteen Eighty-Four* centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Abyss of Elysium - Mars Wars Dennis Chamberland,2005-04 The earth has established twin bases on Mars. Two competing nations have founded their remote, interplanetary outposts on the red planet, separated by over two thousand kilometers of alien and hostile desert. Without warning, communications with the earth are suddenly and inexplicably lost. All systematized transmissions from earth have ceased. It is as though the earth has disappeared. Without warning or explanation, the colonists are alone in the universe. Survival on Mars is a synthesis of skill, intellect, courage as well as the most advanced technology ever developed. But in no one's blackest nightmare has anyone ever planned on permanently severing all links with the home planet. The thin barrier between life and death has just been sliced in two - and now the relatively small band of humans are no longer explorers, but now they are interplanetary castaways, waiting for a rescue that may never come. Now there are too many people and there is far too little to go around. It soon becomes apparent, they would have to fight one another to live - war on another planet becomes the only way out. Dennis Chamberland's *Abyss of Elysium - Mars Wars* - is filled with the full sweep of the most dramatic, high-tech, nail biting audacious adventure in the genre. Chamberland's style is characterized by a sustained extreme energy, high stakes and maximum passion, a fusion of the human drama and the technology that links the humans with an alien planet.

Life Traces of the Georgia Coast Anthony J. Martin, 2013-01-14 Have you ever wondered what left behind those prints and tracks on the seashore, or what made those marks or dug those holes in the dunes? Life Traces of the Georgia Coast is an up-close look at these traces of life and the animals and plants that made them. It tells about the how the tracemakers lived and how they interacted with their environments. This is a book about ichnology (the study of such traces), a wonderful way to learn about the behavior of organisms, living and long extinct. Life Traces presents an overview of the traces left by modern animals and plants in this biologically rich region; shows how life traces relate to the environments, natural history, and behaviors of their tracemakers; and applies that knowledge toward a better understanding of the fossilized traces that ancient life left in the geologic record. Augmented by numerous illustrations of traces made by both ancient and modern organisms, the book shows how ancient trace fossils directly relate to modern traces and tracemakers, among them, insects, grasses, crabs, shorebirds, alligators, and sea turtles. The result is an aesthetically appealing and scientifically accurate book that will serve as both a source book for scientists and for anyone interested in the natural history of the Georgia coast.
