**The Economics of the Popular Music Industry** C. Byun, 2016-04-29 This Palgrave Pivot uses modeling from microeconomic theory and industrial organization to demonstrate how consumers and producers have responded to major changes in the music industry. Byun examines the important role of technology in changing its structure, particularly as new methods of creating and accessing music prove to be a double-edged sword for creators and producers. An underlying theme in the project is the question of how the business of music affects creativity, and how artists continue to produce creative output in the face of business pressures, the erosion of copyright enforcement, and rampant online piracy. In addition to being a useful resource for economists interested in the music industry, this approachable Pivot is also ideal for business and music majors studying the effect of technology on their chosen fields.

**With the Fire on High** Elizabeth Acevedo, 2019-06-01 From New York Times bestselling author of POET X comes a story of a girl with talent, pride and a little bit of magic that keeps her fire burning bright. Ever since she got pregnant during freshman year, Emoni Santiago's life has been about making the tough decisions, doing what has to be done for her daughter and her abuela. The one place she can let all that go is in the kitchen. There, she lets her hands tell her what to cook, listening to her intuition and adding a little something magical every time, turning her food into straight-up goodness. Even though she's always dreamed of working in a kitchen after she graduates, Emoni knows that it's not worth her time to pursue the impossible. But then an opportunity presents itself to not only enrol in a culinary arts class in her high school, but also to travel abroad to Spain for an immersion program. Emoni knows that her decisions post high school have to be practical ones, but despite the rules she's made for her life – and everyone else's rules that she refuses to play by – once Emoni starts cooking, her only choice is to let her talent break free.
