Beckstrom,2022-01-11 A quick, easy-to-read synthesis of theory, guidelines, and evidence-based research, this book offers timely, practical guidance for library and information professionals who must navigate ethical crises in information privacy and stay on top of emerging privacy trends. Emerging technologies create new concerns about information privacy within library and information organizations, and many information professionals lack guidance on how to navigate the ethical crises that emerge when information privacy and library policy clash. What should we do when a patron leaves something behind? How do we justify filtering internet access while respecting accessibility and privacy? How do we balance new technologies that provide anonymity with the library's need to prevent the illegal use of their facilities? Library Patrons' Privacy presents clear, conversational, evidence-based guidance on how to navigate these ethical questions in information privacy. Ideas from professional organizations, government entities, scholarly publications, and personal experiences are synthesized into an approachable guide for librarians at all stages

of their career. This guide, designed by three experienced LIS scholars and professionals, is a quick and enjoyable read that students and professionals of all levels of technical knowledge and skill will find useful and applicable to their libraries.

Shared Knowledge Class of 2020, Amy Betteridge, Gina Buckle, Megan Dunn, Juliette Flach, Phoebe Gunton, Shakira Kumar, Hannah Lawson, Caitlin Lewis, Niamh Madden, Holly Martin, Daisy Moon, Georgia Preece, Adam J. Robson, Shriya Ruparelia, Phoebe Singer, Shona Smith, Aimee Spence, Lauren Spokes, Srishti Verma, Amy Wilkinson, Zenab Anwar, 2021-08-16 A lot of people know a lot of stuff, and most of us don't get to share the best bits with other people. So this book gets together twenty-one recent graduates to share something they think you should know. Among other things you can learn: Why you should care about Japan's ageing population How a baby is made (after the fun bit) How the English and Scottish dealt with 'witches' Why we should think about disasters a bit differently How performance analysis works in sport Our editors graduated from university in 2008, during the last once in a lifetime financial armageddon. The idea behind this book was to allow recent graduates (who are hitting the real world a full twelve years after it went wrong last time) an opportunity to do something interesting with their time. Our experience tells us the next few years' worth of graduates will spend a long time being called lazy and stupid for the crime of being born about twenty-one years before it all went pear-shaped. So, for our authors, at least, they will have something to point at that they have achieved to disprove that. But mostly we just wanted to get together twenty-one chapters worth of stuff we didn't know before.
