

Ecodigitale Design Reader

M Carnoy

Experimental Eco-Design Cara Brower, Rachel Mallory, Zachary Ohlman, 2009-02 Suitable for those interested in green design. This book offers a source listing of materials, manufacturers, design studios, and organizations.

Ecodesign Alastair Fuad-Luke, 2002-04 Alas, environmentally friendly design hasn't always meant high style. Confronting that challenge head on, *ecoDesign* lists well over 500 consumer products for those who seek design that's not only beautiful and useful, but also has minimal impact on the earth. Some of these pieces—from clothing to kitchenware, electronics, furniture, and much, much more—have already become classics. But this remarkable sourcebook also guides readers to undiscovered gems and handcrafted objects from artisanal studios. Detailed illustrated entries describe the products themselves, while an extensive reference section defines these new and hybrid materials and provides information on manufacturers, design studios, green organizations, and a further reading list. *ecoDesign* is the total resource guide for a new generation of contemporary design.

The Eco-design Handbook Alastair Fuad-Luke, 2004 The *Eco-Design Handbook* is the first book to present the best-designed objects for every aspect of the home and office, including the most environmentally sound materials and building products. The book contains three essential components. An introduction puts forward the history and latest thinking in green design strategies. Its core comprises two sections

devoted to detailed illustrated descriptions of objects for domestic living and products for the office or work-related activities. The third element is a vast reference source, defining available materials, from organic to specially developed eco-sensitive composites and then providing detailed information on manufacturers, design studios, green organizations, online information, as well as further reading and a glossary of useful terms and concepts. Lastly, a comprehensive index makes it possible for the reader to find any product, designer or manufacturer instantly.

The Eco-design Handbook Alastair Fuad-Luke, 2004
A complete guide to beautifully conceived, ecologically sensitive and consumer-friendly furniture and objects for everyday use. Whether you are interested in design or the sustainability of our environment, building a house or looking for new furniture, whether your office is buying stationery supplies or looking for ergonomic chairs, here is a complete resource, invaluable for the broad consumer market and design professionals. The Eco-Design Handbook offers the best-designed objects for every aspect of the home and office, including environmentally sound materials and building products. Some pieces are prototypes, some have already become classics; others have been discovered from far-away or unexpected places or difficult-to-find one-person studios. The introduction puts forward the history of green design and the latest eco-design strategies, and addresses the search for international standards. Sections are devoted to

detailed illustrated descriptions of furniture and objects for domestic living and for the office or work, another section is a catalogue of eco-materials, and there is a vast reference resource, including detailed listings of manufacturers, design studios and green organizations; a checklist of eco-design strategies; further reading; and a glossary of useful terms and concepts. Easy-to-use information panels and comprehensive index enable the reader to find any product, designer or manufacturer instantly.-- Publishers description.

1000 New Eco Designs and Where to Find Them

Rebecca Proctor, 2009-06-10 As we become only too aware of the damage man has caused to the planet, more of us want to furnish and decorate our homes with products that do not harm the environment. But being sensitive to the environment does not mean you have to sacrifice good design. More and more designers are creating products that are both beautiful and ethical. 1000 New Eco Designs is a showcase of contemporary product design and interior products that are ecologically sound. Informative and visually inspirational, the book acts as a handbook, guiding readers through the complex issues involved in creating and choosing eco-friendly designs for the home. A series of icons show each product's green credentials; highlighting the use of recycled, sustainable, and locally-sourced materials as well as non-toxic, low-energy, and low-waste manufacturing processes, so that readers can see at a glance the individual characteristics of each design. The book also provides full information on where to source and

buy the products featured.

Eco Design - Furniture Ivy Liu, Jian Wong, 2016 A comprehensive overview of the latest eco furniture works from the world's leading design teams.

Eco-generative Design for Early Stages of Architecture Xavier Marsault, 2017-12-27 This book can be first considered as a complete synthesis of the EcCoGen ANR project (2011-2012), involving researchers from different French labs (including MAP) and domains, breaking major difficulties of the real-time generative design in the early stages of a pre-architectural project. Then the scope becomes larger, and the authors introduce major prospects following recent advances on natural and artificial evolution.

The Sustainable Design Book Rebecca Proctor, 2015-03-23 The Sustainable Design Book updates the reader on the latest products and developments in the field of green design, and features 265 of the most exciting new products around. Q&As with leading designers give insight into trends and key techniques used within the industry, while handy icons highlight each product's sustainability credentials at a glance. Beginning with a chapter on sustainable materials, the book goes on to cover furniture, lighting, home accessories, and personal accessories. Web addresses of designers and retailers make each product easy to source. The Sustainable Design Book is an unbeatable resource for those aspiring to best practice within the field of sustainable design, as well as students of contemporary product design. Consumers looking for beautiful but environmentally conscious products and

accessories will also find this an essential guide.

The Social Design Reader Elizabeth Resnick, 2019-07-11 The Social Design Reader explores the ways in which design can be a catalyst for social change. Bringing together key texts of the last fifty years, editor Elizabeth Resnick traces the emergence of the notion of socially responsible design. This volume represents the authentic voices of the thinkers, writers and designers who are helping to build a 'canon' of informed literature which documents the development of the discipline. The Social Design Reader is divided into three parts. Section 1: Making a Stand includes an introduction to the term 'social design' and features papers which explore its historical underpinnings. Section 2: Creating the Future documents the emergence of social design as a concept, as a nascent field of study, and subsequently as a rapidly developing professional discipline, and Section 3: A Sea Change is made up of papers acknowledging social design as a firmly established practice. Contextualising section introductions are provided to aid readers in understanding the original source material, while summary boxes clearly articulate how each text fits with the larger milieu of social design theory, methods, and practice.

Eco-design for Buildings and Neighbourhoods
Bruno Peuportier, 2015-10-27 A growing number of

urban inhabitants are aware of pressing environmental concerns. This book aims to provide information about relevant environmental quality criteria in urban construction settings, before methods are proposed for assessing these criteria. These will be extremely helpful to eco-building designs, commencing from the very early stag

Eco Design ,2013 A comprehensive showcase of innovative ecological lighting designs by leading designers from all around the world.

Eco Design - Lamps Ivy Liu,Jian Wong,2016 A comprehensive overview of the most innovative ecological lighting designs by leading designers from all around the world.

Eco Elizabeth Wilhide,2004 Demonstrates how every individual can make a difference to the health of our planet by incorporating environmentally friendly design, decoration and strategies for living, in their home. It provides the most up-to-date information on eco sound materials, technology and products.

Kolenik Robert Kolenik,2015-02 Kolenik's style can be defined by the delicate, tasteful and surprising mix of natural and luxurious materials, resulting in a unique design. Together with a group of dedicated architects and designers, Kolenik is responsible for a variety of projects, corporate and private, product design and a furniture line. This book shows his top projects and vision on design. With his inspiring work, Kolenik has created a new vision on design. Text in English and Dutch. AUTHOR: After having studied marketing, Robert Kolenik (32) took over his

father's company in 2005 and established 'Kolenik Eco Chic Design'. His first assignment as a designer was for a cocktail bar in 2008. Despite the economic crisis, his reputation increased. Kolenik is co-founder of the 'Plastic Soup Foundation Junior', a project to educate children on the pollution of the environment and the oceans by means of plastic. SELLING POINTS: * Kolenik is conquering the international world of design. He is famous for designing the Amsterdam Fletcher Hotel and known for his eco-chic style 260 colour

Technologies and Eco-innovation Towards Sustainability, 2019 This 2-volume book covers the state-of-the-art of the research and practices on eco-design. It covers the latest topics in the field: e.g. global eco-design management, big data in eco-design, social perspectives in eco-design; as well as emphasizing the developments in emerging economies such as Asian countries. Eco-design of products and product-related services are indispensable to realize the circular economy and to increase resource efficiencies of our society. Eco-design practices are necessary both in developed countries and developing countries. The book chapters are contributed by the worldwide authors, especially authors from East Asian countries, European countries, and Southeast Asian countries, and contains selected presentations at the EcoDesign2017 symposium (10th International Symposium on Environmentally Conscious Design and Inverse Manufacturing). The second volume focus on assessment and management, including topics such as sustainable manufacturing and End of Life (EOL) management, sustainability assessment, policy and

regulations and Incentives for eco-design.

Eco-Architecture V C. A. Brebbia, R. M.

Pulseli, 2014-09-01 The papers in this book deal with topics such as building technologies, design by passive systems, design with nature, cultural sensitivity, life cycle assessment, resources and rehabilitation and many others. Also included are case studies from many different places around the world.
