### Essays on Macroeconomic News Announcements and Option-implied Information Janne Äijö,2007

All the News That's Fit to Sell James T. Hamilton,2011-10-23 That market forces drive the news is not news. Whether a story appears in print, on television, or on the Internet depends on who is interested, its value to advertisers, the costs of assembling the details, and competitors' products. But in All the News That's Fit to Sell, economist James Hamilton shows just how this happens. Furthermore, many complaints about journalism--media bias, soft news, and pundits as celebrities--arise from the impact of this economic logic on news judgments. This is the first book to develop an economic theory of news, analyze evidence across a wide range of media markets on how incentives affect news content, and offer policy conclusions. Media bias, for instance, was long a staple of the news. Hamilton's analysis of newspapers from 1870 to 1900 reveals how nonpartisan reporting became the norm. A hundred years later, some partisan elements reemerged as, for example, evening news broadcasts tried to retain young female viewers with stories aimed at their (Democratic) political interests. Examination of story selection on the network evening news programs from 1969 to 1998 shows how cable competition, deregulation, and ownership changes encouraged a shift from hard news about politics toward more soft news about entertainers. Hamilton concludes by calling for lower costs of access to government information, a greater role for nonprofits in funding journalism, the development of norms that stress hard news reporting, and the defining of digital and Internet property rights to encourage the flow of news. Ultimately, this book shows that by more fully understanding the economics behind the news, we will be better positioned to ensure that the news serves the public good.

Reality Check Dennis Keegan,David West,2008-07-29 Streaming headlines, round-the-clock broadcasts--we live in a world of twenty-four hour news. But lately, most of what we read and hear is either negative, biased, or both. Cutting through the gloomy reports and liberal slant are Dennis Keegan and David West with their brand new book, Reality Check: The Unreported Good News About America. Contrary to what the cynical reporters and politicians say, Keegan and West prove that America is still a shining city on a hill, with a low unemployment rate, high GDP, and enviable democracy. These are not opinions, but facts--based on statistics that the media isn't reporting because of political agendas, industry competition, and limited resources. In Reality Check, Keegan and West cut through the bias and spin to reveal: \* How our twenty-four hour news culture gives us more

inaccurate information, not less \* Why the U.S. economy is doing better than we realize \* Why the recent rhetoric and politics of change may do more harm than good In this age of information saturation, the need to question and critically think about what we're reading and hearing is more important than ever. In Reality Check, Keegan and West show us how to be discerning consumers and why the news about America is much better than the media would have you believe.

Monitoring the News: The Brilliant Launch and Sudden Collapse of the Monitor Channel Susan Bridge, 2015-05-20 In her colorful insider's account, Susan Bridge analyzes the bitter struggle that ensued when a sophisticated entrepreneurial leadership tried to diversify and reposition The Christian Science Monitor beyond the failing newspaper into radio, the Internet, multimedia publishing, and -- the highest-ticket item of all -- The Monitor Channel, a CNN-style, 24-hour news and public affairs channel. Using the Monitor's story as a focus, Susan Bridge raises fundamental questions about how and whether the public's interest can be served in an age of spiraling costs, competition between print and electronic media, changing public tastes, and undeclared media wars.

**Corporate Reputation and the News Media** Craig Carroll, 2010-09-01 This volume examines agenda-setting theory as it applies to the news media's influence on corporate reputation. It presents interdisciplinary, international, and empirical investigations examining the relationship between corporate reputation and the news media throughout the world. Providing coverage of more than twenty-five countries, contributors write about their local media and business communities, representing developed, emerging, and frontier markets – including Argentina, Brazil, Chile, China, Germany, Greece, Japan, Nigeria, Spain, and Turkey, among others. The chapters present primary and secondary research on various geo-political issues, the nature of the news media, the practice of public relations, and the role of public relations agencies in each of the various countries. Each chapter is structured to consider two to three hypotheses in the country under discussion, including: the impact of media visibility on organizational prominence, top-of-mind awareness and brand-name recognition the impact of media favorability on the public's organizational images of these firms how media coverage of specific public issues and news topics relates to the associations people form of specific firms. Contributors contextualize their findings in light of the geopolitical environment of their home countries, the nature of their media systems, and the relationship between business and the news media within their countries' borders. Incorporating scholarship from a broad range of disciplines, including advertising, strategic management, business, political

communication, and sociology, this volume has much to offer scholars and students examining business and the news media.

**Economic News** Arjen van Dalen,Helle Svensson,Antonis Kalogeropoulos,Erik Albæk,Claes H. de Vreese,2018-10-26 This book tells the story of how the news media can help the inattentive members of the public become better educated and knowledgeable 'economic citizens'. The authors argue that changes in the economy, journalism and consumer culture have made economic news more visible, more mainstream and more accessible. They show how economic news not only affects economic perceptions, but also interest in the economy, knowledge about the economy, and economic voting. Relying on statistical analyses, the book provides a comprehensive and systematic study of the effects of economic news.

**Fascination** Nancy Graham Holm,2013-04-03 Developed from the established traditions of print and radio journalism, television journalism has often failed to reach its potential to develop away from these other media. However, because of the synthesis of words, pictures, and sound, television journalism has the ability to shift from simply reporting the news to weaving stories. In *Fascination*, veteran television journalist Nancy Graham Holm incorporates years in the field and extensive teaching experience to produce an instructive and entertaining guide to all aspects of television journalism. With a dual focus on aesthetics and technique, this book instructs the reader on the best way to use visuals and sound, different reporting techniques, and appropriate behaviour for journalists. Each chapter benefits from real-world examples and helpful tips to guide the reader through each stage of television journalism. This book is an excellent guide for those wanting to start a career in television journalism as well as seasoned professionals wishing to gain a new perspective.

Basic TV Reporting Ivor Yorke,1997-10-24 Basic TV Reporting is a practical, easy to read guide to the skills needed to become a successful television reporter - arguably the most demanding and glamorous job in journalism. The book describes the role in detail, how reporters fit into the editorial team and where their duties begin and end. Basic TV Reporting is a practical, easy to read guide to the skills needed to become a successful television reporter - arguably the most demanding and glamorous job in journalism. The book describes the role in detail, how reporters fit into the

editorial team and where their duties begin and end. The late Ivor Yorke has enjoyed a wealth of experience to pass on to aspiring broadcast journalists, having spent more than 20 years as a writer, reporter, producer and editor, before becoming Head of Journalist Training, BBC News and Current Affairs. He was also a freelance training consultant. He is the author of *Television News* (now in its third edition) and co-author with the late Bernard Hesketh of *An Introduction to ENG*, also published by Focal Press. Reviews: 'This is a short, well-constructed book which is of as much value to the interviewed as to the interviewer. It is practical and down-to-earth ('keep off the gin, and stick to the tonic') and delightfully easy to read.' *British Journal of Educational Technology*. 'Easy to read guide to the skills needed to become a successful TV reporter.' *Voice of the Listener*

**The New News** Joan Van Tassel, Mary Murphy, Joseph Schmitz, 2020-07-30 The *New News* offers an approachable, practical guide to the 21st-century newsroom, equipping journalists with the skills needed to work expertly, accurately, and efficiently across multiple media platforms. Emphasizing the importance of verification and authentication, the book shows how journalists adapt traditional practices of information-gathering, observation, interviewing, and newswriting for online publications. The text includes comprehensive coverage of key digital and multimedia competencies – capturing multimedia content, doing data journalism, mobile reporting, working in teams, participating with global audiences, and building a personal brand. Features developed exclusively for this book include innovative visuals showing the multimedia news structures and workflows used in modern newsrooms; interviews with prominent journalists about their experiences in contemporary journalism; a glossary of up-to-date terms relevant to online journalism; and practical exercises and activities for classroom use, as well as additional downloadable online instructor materials. The *New News* provides excellent resources to help journalism students and early-career professionals succeed in today's digital networked news industry. The authors are donating all royalties to nonprofit LION's programs to support local online news publications.

**Inside the TV Newsroom** Line Hassall Thomsen, 2018 TV journalists today feel pressured like never before. This book takes the reader into the newsroom to show how the age of social media and market logic affects TV journalists at work. *Inside the TV Newsroom* draws on a total of ten years of unique access to the newsrooms of BBC News and ITV News in the UK, and DR TV Avisen and TV2 Nyhedeme in Denmark, providing new insights into journalism practice today. The book reveals how journalists sense their work as a struggle to suit both professional ideals of good journalism and new management demands of multi-skilling, collaboration and multi-platf.

*Screening the Public Sphere* Saima Saeed, 2020-11-30 For centuries, democracy and development have steered the imagination of governments, citizens, intelligentsia and policymakers alike. Democracy without free media is a contradiction, while development without democracy is futile. Highlighting the power and significance of contemporary media, this book deconstructs news and news-making on Indian television. In exploring the concepts of 'sense-making' and 'meaning-generation', it examines how news and the dissemination of information and opinion influence the public sphere, participatory democracy, citizenship and civil society. Providing an original interpretation of the paradigmatic shifts in news content and newsroom practices, this book focuses on changing ownership patterns, increasing 'entertainmentization' of news and the resultant 'developmental reportage deficit'. At the same time, it confronts the uneasy and critical consequences of commercialization and rising sensationalism in news media. Finally, it discusses the role of Public Service Broadcasting, journalistic ethics, objectivity, and the politics of language and ideology in the media today, pointing to the need for greater diversity of content on the one hand and an emphasis on public interest in media policy-making, on the other. Drawing upon comprehensive empirical data, the democracy-media-development relationship is demonstrated through critical analyses of the media's coverage of recent news events. This includes exhaustive content examination of news programmes on all major news channels of India, surveys with media experts and news professionals by way of questionnaires, and interviews with the audience to gauge the impact of media content on their understanding of social, political and economic issues. This volume will be especially useful to those in journalism, media and communication studies, as also to students of political science, sociology and economics.

**Economie, Politiek En De Eurocrisis** Bert Wenkenbach, 2017-02-27 Dagelijks worden we overspoeld met economisch en politiek nieuws. De Europese Centrale Bank heeft de rente opnieuw verlaagd en koopt nu maandelijks voor 60 miljard aan staatsleningen op. Het IMF steunt met extra krediet Griekenland. En zo maar door. Maar veel mensen hebben het gevoel dat het er niet beter op wordt en dat ze niet meer overzien wat er eigenlijk gebeurt. Daarom is het goed weer bij het begin te beginnen. Hoe functioneert een economie eigenlijk. Wat zijn monetaire maatregelen en hoe functioneert een centrale bank. En welke invloed hebben politieke maatregelen op een economie? Voor iedereen die dat wil weten is dit boek geschreven! Het boek *Economie, politiek en de Eurocrisis*: zet de belangrijkste economische basisprincipes op een rij, maakt duidelijk welke politieke keuzes gemaakt kunnen worden, toetst via breed geaccepteerde macro-economische gegevens, economische theorieën aan de praktijk, plaatst

ontwikkelingen in een historische context, wijdt een hoofdstuk aan Europa, de EU en de Eurocrisis, de ultieme praktijkcase over economie en politiek, verlangt geen economische voorkennis, gebruikt zo min mogelijk vakjargon, is met minder dan 150 pagina's vlot leesbaar! Economie, politiek en de EUrocrisis is geschreven voor iedereen die: wil weten wat geld eigenlijk is, hoe inflatie of deflatie ontstaan, hoe het banksysteem functioneert, welke invloed centrale banken kunnen uitoefenen en hoe dat functioneert, waarom sparen belangrijk is voor het duurzaam creëren van welvaart, waarom een vrije markt zo belangrijk is voor een gezonde economie, iets wil weten van wat er de afgelopen 50 jaar economisch en maatschappelijk gebeurt is, hoe de krediet crisis is ontstaan en waarom deze volkomen voorspelbaar was, wil begrijpen waarom de Euro in de huidige vorm niet houdbaar zal blijken, kortom, voor iedereen die wil begrijpen hoe welvaart ontstaat en vergaat!

*The Crisis of Western Political Economy* Peter Jay, 1981-01-01

**The Consolations of Economics** Gerard Lyons, 2015 In the wake of a major financial crisis comes leading economist Gerard Lyons with the good news. In the next twenty years the world economy will enjoy one of its strongest periods of growth. Greater innovation and technical change will increase opportunities. Life expectancy, income and educational standards will rise. The West's share in the global economic cake may get smaller, but there will be more cake than ever before. These are the predictions of Gerard Lyons, a leading international economist who spent nearly thirty years working in the City. He is now the chief economic adviser to the Mayor of London. Over the last quarter-century he has been ahead of the game in predicting the major economic trends that we now take as a given. *The Consolations of Economics* is a lucid and accessible expert's attempt to look objectively at the changing global economy - what is happening and what it means. He shows how we can embrace change, rather than hide from it. The results are fascinating, refreshing - and unusually cheering.

Macro-economie. Derde, herziene uitgave Freddy Heylen, 2014-11-03 Economische groei, werkgelegenheid en werkloosheid, begrotingstekort en overheidsschuld, inflatie, rentevoeten, waarde van de munt, concurrentiekracht, inkomenskloof tussen rijke en arme landen. Macro-economische ontwikkelingen staan onafgebroken in de publieke belangstelling. Ze behoren tot het nieuws van elke dag. Dit boek richt zich zowel tot studenten als tot een breed publiek van geïnteresseerden. Het biedt een inzicht in de evolutie van alle belangrijke macro-economische variabelen en in hun onderlinge

samenhang. Deze derde en sterk herziene editie brengt niet alleen een coherent theoretisch denkkader, er is ook uitgebreide aandacht voor de confrontatie van de theorie met de praktijk. Aan de hand van voorbeelden uit de reële wereld en dertig uitgewerkte toepassingen neemt het boek de lezer mee door de belangrijkste macro-economische ontwikkelingen en discussies van de laatste tien tot vijftien jaar: de wereldwijde financiële en economische crisis die in 2008 uitbrak, de economische onevenwichten in de eurozone, de publieke schuldencrisis, het gevoerde monetair en budgettair beleid en de effecten daarvan, de discussies over werkgelegenheid en economische groei enz. Via de opbouw en toepassing van een samenhangend macro-economisch denkkader wil dit boek bijdragen tot een beter begrip van economische ontwikkelingen uit het verleden, en tot de correcte inschatting van de mogelijke gevolgen van toekomstige gebeurtenissen.

Interactive Journalism Nikki Usher, 2016-10-13 Interactive journalism has transformed the newsroom. Emerging out of changes in technology, culture, and economics, this new specialty uses a visual presentation of storytelling that allows users to interact with the reporting of information. Today it stands at a nexus: part of the traditional newsroom, yet still novel enough to contribute innovative practices and thinking to the industry. Nikki Usher brings together a comprehensive portrait of nothing less than a new journalistic identity. Usher provides a comprehensive history of the impact of digital technology on reporting, photojournalism, graphics, and other disciplines that define interactive journalism. Her eyewitness study of the field's evolution and accomplishments ranges from the interactive creation of Al Jazeera English to the celebrated data desk at the Guardian to the New York Times' Pulitzer-endowed efforts in the new field. What emerges is an illuminating, richly reported portrait of the people coding a revolution that may reverse the decline and fall of traditional journalism.

*Watergate's Legacy and the Press* Jon Marshall, 2011-01-30 Bob Woodward and Carl Bernstein exemplify an era when investigative reporters were seen as courageous fighters of corruption and injustice. Their epoch-making expose of the Watergate conspiracy not only contributed to the resignation of President Richard M. Nixon but also set the standard to which successive generations of investigative reporters have aspired. In *Watergate's Legacy and the Press*, John Marshall recounts this captivating story and details the complex ways in which the press and American government have reshaped themselves in its wake. Marshall's thorough understanding of the history of these institutions gives rise to insights regarding present and future challenges. Although many mainstream reporting. Marshall finds hope in the opportunities offered by blogs, crowdsourcing, and nonprofit institutions.

The result of painstaking research and scholarship, Watergate's Legacy and the Press is ultimately a tribute to the irrepressible investigative impulse in American journalism and the crucial public service provided by investigative reporters.
