The Age of Discovery, 1400-1600 David Arnold, 2013-09-27 The Age of Discovery explores one of the most dramatic features of the late medieval and early modern period: when voyagers from Western Europe led by Spain and Portugal set out across the world and established links with Africa, Asia and the Americas. This book examines the main motivations behind the voyages and discusses the developments in navigation expertise and technology that made them possible. This second edition brings the scholarship up to date and includes two new chapters on the important topics of the idea of discovery and on biological and environmental factors which favoured or limited European expansion.

1400 Historical Dates of the Town and City of Bath Levi Lemont, 2023-03-14 Reprint of the original, first published in 1874.

Jerusalem, 1000–1400 Barbara Drake Boehm, Melanie Holcomb, 2016-09-14 Medieval Jerusalem was a vibrant international center, home to multiple cultures, faiths, and languages. Harmonious and dissonant voices from many lands, including Persians, Turks, Greeks, Syrians, Armenians, Georgians, Copts, Ethiopians, Indians, and Europeans, passed in the narrow streets of a city not much larger than midtown Manhattan. Patrons, artists, pilgrims, poets, and scholars from Christian, Jewish, and Islamic traditions focused their attention on the Holy City, endowing and enriching its sacred buildings, creating luxury goods for its residents, and praising its merits. This artistic fertility was particularly in evidence between the eleventh and fourteenth centuries, notwithstanding often devastating circumstances—from the earthquake of 1033 to the fierce battles of the Crusades. So strong a magnet was Jerusalem that it drew out the creative imagination of even those separated from it by great distance, from as far north as Scandinavia to as far east as present-day China. This publication is the first to define these four centuries as a singularly creative moment in a singularly complex city. Through absorbing essays and incisive discussions of nearly 200 works of art, *Jerusalem, 1000–1400: Every People Under Heaven* explores not only the meaning of the city to its many faiths and its importance as a destination for tourists and pilgrims but also the aesthetic strands that enhanced and enlivened the medieval city that served as the crossroads of the known world.

The Global Atlantic Christoph Strobel, 2015-02-11 The Global Atlantic provides a concise, lively overview of the complex and diverse history of the greater Atlantic region from 1400 to 1900. During this period, the lands around the Atlantic basin – Europe, Africa, and the Americas – became deeply interconnected in networks of trade, cultural exchange, and geopolitics that reshaped these regions and the world beyond. In this accessible and engaging text, Christoph Strobel integrates the Atlantic into world history, showing that the Atlantic oceanic system was always interlinked with the rest of globe. From the Mediterranean origins of slave-worked sugar plantations to the Chinese demand for silver from American mines, The Global Atlantic discusses key examples of these connections with clarity, enabling students to understand how existing ideas and incentives shaped the emerging Global Atlantic, and how these Atlantic systems in turn created the world we live in today.

The Medieval Experience, 300-1400 Jill N. Claster,1982-02 This general survey of medieval European economy, society, and culture is intended as a first guide to the subject for college students. In writing The Medieval Experience, Jill Claster has been particularly concerned to demonstrate the vitality and diversity that the world of the Middle Ages achieved, despite the fact that the physical aspects of life were exceedingly difficult. This very usable and accessible textbook is enhanced by illustrations and source quotations which help convey a sense of the period's historical texture. The range of topics explored is extensive. Economic factors such as progress in agriculture and the growth of commerce are thoroughly examined, as are the political and social histories of feudal Europe. Claster looks particularly closely at monasticism, the cultural influence of religion, and the revival of learning. She probes the problems faced by Jews in a predominantly Christian society, and contemplates as well the problems faced by women.

The European Renaissance 1400-1600 Robin Kirkpatrick,2014-10-17 With Italy at its centre, but encompassing the whole of Renaissance Europe, this evocative history challenges some of the popularly-held views on the Renaissance period. In particular, whilst always acknowledging the brilliance and exuberance of Renaissance culture, Robin Kirkpatrick draws equal attention to the strangeness and often unresolved tensions that lay beneath the surface of that culture.Insisting on a European rather than purely Italian viewpoint, he embraces Renaissance thinking and culture in all its diversity: from Northern thinkers such as Cusanus, Luther and Calvin, to the painting of Van der Weyden and El Greco, and the music of the Flemish musicians, Josquin des Prez and Orlando Lassus. Special attention is also paid to the unique contribution made by Margueritte of Navarre to the development of humanist culture. The book concludes with a study of Shakespeare in which his plays are viewed as a searching critique of some of the main principles of Renaissance culture.

Collecting Early Modern Art (1400-1800) in the U.S. South Lisandra Estevez,2021-04-09 This volume gathers together recent research from leading scholars specializing in the history of collecting. American Southern art collections, both public and private, contain rich and representative holdings of Renaissance and Baroque art which remain understudied, compared to the collections bracketing the east and west coasts of the United States. This anthology considers how these works of art were acquired for both prominent public and private collections, how they have been curated and displayed in exhibitions, and how they have also been preserved historically. Individual essays address a variety of art media representative of the early modern period in Europe and the Americas. Case studies of specific works of art, collections, and collectors address the broad geographic scope of Southern collections, inclusive of Washington, DC, the Carolinas, Georgia, Alabama, Louisiana, Arkansas, and Texas.
