The 991.2 standard model range was the first complete 911 model range to be fitted solely with 3.0-litre twin-turbocharged engines. These new technology standard model engines are explained in detail. All other new technology advancements utilised in the 991 series are also described along with all the advantages and improvements over previous 911 series. A complete history of the model, technical specifications, care and maintenance, plus a review of its racing career make this THE Essential Companion for all Porsche 991 owners and enthusiasts.

Announcements of Plot in Genesis Laurence A. Turner,2008-04-14 This volume investigates the plots of the Genesis stories. Rather than fragmenting Genesis into hypothetical sources and reading each in isolation from the others, as has often been the case in scholarship, this final-form reading exposes the coherence and complexity of the book. In particular, the initial announcements of plot, prefacing each major block of the book are shown to exercise an intimate yet surprising influence over the narratives they govern. The seemingly naive stories of Genesis, when read wholistically, offer profound insights into the interplay between divine providence and human free will.
