The Church Behind the Bamboo Curtain [by] Andrew Gih. Foreword by J. Edwin Orr Andrew Gih,1961

The Registered Church in China Wayne Ten Harmsel,2021-03-09 In *The Registered Church in China*, Wayne Ten Harmsel pulls back for Western readers the shroud of mystery surrounding Chinese registered churches. Through interviews with Chinese pastors, evangelists, and lay Christians, he provides a rare view of what it means to live in the shadow of both the government and the well-known house churches. Registered churches have received criticism from both of these sources, as well as from many churches in other countries, particularly the United States. Ten Harmsel examines the charges leveled against registered churches and presents a balanced picture of the complexity of the church situation in China. (Such complexity arises, for instance, in the registered churches' struggle to respond to new religious regulations and the controversy over Sinicization.) China has become a major center of twenty-first-century Christianity, and, despite how little is known about registered churches in the West, these congregations play a significant role in shaping Chinese Christianity today.

Private International Law and the Internet Dan Jerker B. Svantesson,2016-03-22 In this, the third edition of *Private International Law and the Internet*, Professor Dan Svantesson provides a detailed and insightful account of what is emerging as the most crucial current issue in private international law; that is, how the Internet affects and is affected by the four fundamental questions: When should a lawsuit be entertained by the courts? Which state's law should be applied? When should a court that can entertain a lawsuit decline to do so? And will a judgment rendered in one country be recognized and enforced in another? He identifies and investigates twelve characteristics of Internet communication that are relevant to these questions, and then proceeds with a detailed discussion of what is required of modern private international law rules. Professor Svantesson's approach focuses on several issues that have far-reaching practical consequences in the Internet context, including the following: • cross-border defamation; • cross-border business contracts; • cross-border consumer contracts; and • cross-border intellectual property issues. A wide survey of private international law solutions encompasses insightful and timely analyses of relevant laws adopted in a variety of countries including Australia, England, Hong Kong, the United States, Germany, Sweden, and China as well as in a range of international instruments. There is also a chapter on advances in geo-identification technology and its special value for legal practice. The book concludes with two model international conventions, one on cross-border defamation and one on cross-border contracts; as well as a set of practical check-lists to guide legal practitioners faced with cross-border matters within the discussed fields. Professor Svantesson's book brings together a wealth of research findings in the overlapping disciplines of law and technology that will be of particular utility to practitioners and academics working in this new and rapidly changing field. His thoughtful analysis of the interplay of the developing Internet and private international law will also be of great value, as will the tools he offers with which to anticipate the future. *Private International Law and the Internet* provides a remarkable stimulus to continue working towards globally acceptable rules on jurisdiction, applicable law, and recognition and enforcement of judgments for communication via the Internet.

China's Harvest Fields Tabor Laughlin,2020-04-29 This book is about specific ministry needs or opportunities in China. It is perfect for missionaries who are serving or will serve in China to read, to get a better idea for ministry opportunities within China. Additionally, the chapters are very relevant for Chinese believers in house churches in China. Though house churches in China have spread across China and matured over recent decades, this book focuses on multi-faceted ways that house churches in China can continue to mature in their faithfulness to the gospel. This book has multiple authors, each of which is writing a chapter relating to their expertise. A chapter in this book written by author John Ensor is about doing ministry through anti-abortion pregnancy help clinics in China. Another chapter in this book, written by Elisabeth Kim, is about doing ministry through working in large corporations in China. These are just some examples of profound and practical chapters that are written by the authors of this book about ministry opportunities in China. Some of the authors in this book are mission professors in the US. Some are missionaries with various platforms and ministries in China.

Surviving the State, Remaking the Church Li Ma,Jin Li,2017-12-11 Selected as one of Ten Outstanding Books of 2017 for Mission Studies by the International Bulletin of Mission Research This sociological portrait presents how Chinese Christians have coped with life under a hostile regime over a span of different historical periods, and how Christian churches as collective entities have been reshaped by ripples of social change. China's change from a centrally planned economy to a market economy, or from an agrarian society to an urbanizing society, are admittedly significant phenomena worthy of scholarly attention, but real changes are about values and beliefs that give rise to social structures over time. The growth of Christianity has become interwoven with the disintegration or emergence of Chinese cultural beliefs, political ideologies, and commercial values. Relying mainly on an oral history method for data collection, the authors allow the narratives of Chinese Christians to speak for themselves. Identifying the formative cultural elements, a sociohistorical analysis also helps to lay out a coherent understanding of the complexity of religious experiences for Christians in the Chinese world. This book also serves to bring back scholarly discussions on the habits of the heart as the condition that helps form identities and nurture social morality, whether individuals engage in private or public affairs.

Chinese Christians in America Fenggang Yang,2010-11-01 Christianity has become the most practiced religion among the Chinese in America, but very little solid research exists on Chinese Christians and their churches. This book is the first to explore the subject from the inside, revealing how Chinese Christians construct and reconstruct their identity--as Christians, Americans, and Chinese--in local congregations amid the radical pluralism of the late twentieth century. Today there are more than one thousand Chinese churches in the United States, most of them Protestant evangelical congregations, bringing together

diasporic Chinese from diverse origins--Taiwan, Hong Kong, mainland China, and Southeast Asian countries. Fenggang Yang finds that despite the many tensions and conflicts that exist within these congregations, most individuals find ways to creatively integrate their evangelical Christian beliefs with traditional Chinese (most Confucian) values. The church becomes a place where they can selectively assimilate into American society while simultaneously preserving Chinese values and culture. Yang brings to this study unique experience as both participant and observer. Born in mainland China, he is a sociologist who converted to Christianity after coming to the United States. The heart of this book is an ethnographic study of a representative Chinese church, located in Washington, D. C., where he became a member. Throughout the book, Yang draws upon interviews with members of this congregation while making comparisons with other churches throughout the United States. Chinese Christians in America is an important addition to the literature on the experience of new immigrant communities.
