**Music Commodities, Markets, and Values** Jayson Beaster-Jones,2016-05-12 This book examines music stores as sites of cultural production in contemporary India. Analyzing social practices of selling music in a variety of retail contexts, it focuses upon the economic and social values that are produced and circulated by music retailers in the marketplace. Based upon research conducted over a volatile ten-year period of the Indian music industry, Beaster-Jones discusses the cultural histories of the recording industry, the social changes that have accompanied India's economic liberalization reforms, and the economic realities of selling music in India as digital circulation of music recordings gradually displaced physical distribution. The volume considers the mobilization of musical, economic, and social values as a component of branding discourses in neoliberal India, as a justification for new regimes of legitimate use and intellectual property, as a scene for the performance of cosmopolitanism by shopping, and as a site of anxiety about transformations in the marketplace. It relies upon ethnographic observation and interviews from a variety of sources within the Indian music industry, including perspectives of executives at music labels, family-run and corporate music stores, and hawkers in street markets selling counterfeit recordings. This ethnography of the practices, spaces, and anxieties of selling music in urban India will be an important resource for scholars in a wide range of fields, including ethnomusicology, anthropology, popular music studies, and South Asian studies.

**Focus: Popular Music in Contemporary India** Natalie Sarrazin,2019-11-28 Focus: Popular Music in Contemporary India examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. From Bollywood film songs and Indo-jazz to bhangra hip-hop and Indian death metal, the book situates Indian popular music within critical and historical frameworks, highlighting the unprecedented changes the region's music has undergone in recent decades. This critical approach provides readers with a foundation for understanding an Indian musical culture that is as diverse and complex as the region itself. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a national aesthetic, the effects of Western music, and identity politics as they relate to class, caste, LGBTQ perspectives, and other marginalized voices. Presented through a global lens, Focus: Popular Music in Contemporary India contextualizes the dynamic popular music of India and its vast cultural impact.

The Hindi Music Jukebox Manek Premchand,2018-07-18 This Indian film music book is a collection of eighty essays about the people who made remarkable music in Bollywood cinema, especially during the great era, and the ideas such people brought to the recording studios. When songs had to go without rhythms or when melodies had plenty of Q n A in them. In this music book, we flirt with Rock n Roll and scan songs that speed up at the end, we peep behind the screen to see what the idea was behind chorus songs in our films – even if there was no one to sing that chorus on the screen; it's a huge list. These pages are a reflection of the time when everyone was fired up in their art, and when no one wanted to finish last in the race. It is about artists who every now and then dreamt ideas, and only after crystallizing things perfectly in their mind's eye, went out to translate and transform their dreams into unforgettable melodies in Indian movies. Jukebox will interest the layman as well as the academician.

**Sanathana Sarathi English Volume 07 (2012 - 2021)** Sri Sathya Sai Media Centre,2022-11-12 Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th

This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... *The Influence of Hindustani Classical Music on Bollywood Songs. A Statistical Outlook* Amrita Singh, Soubhik Chakraborty, 2019-07-19 Master's Thesis from the year 2019 in the subject Musicology, grade: 8.5, , language: English, abstract: The present work attempts to study the impact of Hindustani Classical Music on Bollywood in a legitimate manner using a statistical approach emphasizing on statistical modeling of musical structure and performance and other statistical features such as note duration and inter onset interval with a case study in raga Yaman. Any music originates in the society and develops with the changing realities of it. It accepts new and modifies the existing cultural norms in different periods of time. This process of acceptance and rejection makes any form of art exist for long. In spite of all this, in various phases, Hindustani classical music, being the base of many popular Bollywood songs has helped in their popularity and lifelong existence because of the strong focus on melody. A raga, which is the nucleus of Indian classical music, be it Hindustani or Carnatic, is a melodic structure with fixed notes and a set of rules which characterize a certain mood conveyed by performance. Hindustani ragas have embraced the elements of several Bollywood songs, which has given these songs a strong impact despite the strong influence of western art music in Bollywood music industry. The present work attempts to study this impact in a legitimate manner using a statistical approach emphasizing on statistical modeling of musical structure and performance and other statistical features such as note duration and inter onset interval with a case study in raga Yaman. It turns out that the same statistical model for both the raga bandish and a song based on the same raga, i.e., Yaman, an evening raga of the Kalyan thaat.

*East Indian Music in the West Indies* Peter Lamarche Manuel, Trinidadian sitarist, composer, and music authority, Mangal Patasar once remarked about tãn-singing, You take a capsule from India, leave it here for a hundred years, and this is what you get. Patasar was referring to what may be the most sophisticated and distinctive art form cultivated among the one and a half million East Indians whose ancestors migrated as indentured laborers from colonial India to the West Indies between 1845 and 1917. Known in Trinidad and Guyana as tãn-singing or local-classical music and in Suriname as baithak gãna (sitting music), tãn-singing has evolved into a unique idiom, embodying the rich poetic and musical heritage brought from India as modified by a diaspora group largely cut off from its ancestral homeland. In recent decades, however, tãn-singing has been declining, regarded as quaint and crude by younger generations raised on MTV, Hindi film music, and disco. At the same time, Indo-Caribbeans have been participating in their countries' economic, political, and cultural lives to a far greater extent than previously. Accompanying this participation has been a lively cultural revival, encompassing both an enhanced assertion of Indianness and a spirit of innovative syncretism. One of the most well-known products of this process is chutney, a dynamic music and dance phenomenon that is simultaneously a folk revival and a pop hybrid. In Trinidad, it has also been the vehicle for a controversial form of female empowerment and an agent of a new, more inclusive, conception of national identity. Thus, East Indian Music in the West Indies is a portrait of a diaspora community in motion. It documents the social and cultural development of a people without history, a people who have sometimes been dismissed as foreigners who merely perpetuate the culture of the homeland rather than becoming truly Caribbean. Professor Manuel shows how inaccurate this characterization is. On the one hand, in the form of tãn-singing, it examines the distinctiveness of traditional Indo-Caribbean musical culture. On the other, in the form of chutney, it examines the new assertiveness and syncretism of Indo-Caribbean popular music. Students of Indo-Caribbean music and curious world-music fans alike will be fascinated by Professor Manuel's guided tour through the complex and exciting world of Indo-Caribbean musical culture. Author note: Peter Manuel, an authority on the music of both North India and the Caribbean, is Associate Professor in the Department of Art, Music, and Philosophy at John Jay College. He is the author of several books, including *Popular Musics of the Non-Western World* (Oxford University Press), *Cassette Culture: Popular Music and Technology in North India*, and *Caribbean Currents: Caribbean Music from Rumba to Reggae* (Temple University Press).

*Hindi Film Songs and the Cinema* Anna Morcom, 2017-07-05 Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes, eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India's still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.
