Politics and Economic Policy in Yugoslavia, 1918-1929 Alan Fogelquist, 2011 This study, based on the author's doctoral dissertation at UCLA, examines Yugoslav economic policy from 1918 to 1929, how it was made, and how it was affected by political developments of the time. It studies the activities of Yugoslavia's regional political and business elites, political groups, and corporations, their reactions to Yugoslav economic policy and their efforts to influence it. The study contains a detailed analysis of party politics and the manner in which the political process affected economic policy. The study uncovers and explains relationships between state, elite, class, national-confessional groups, and territorial regions in the determination of social and economic policy in the Kingdom of Serbs, Croats, and Slovenes, later renamed Yugoslavia, and the relationship between these groups and the Yugoslav state.

The National Question in Yugoslavia Ivo Banac, 2015-06-09 Even before it collapsed into civil war, ethnic cleansing, and dissolution, Yugoslavia was an archetypical example of a troubled multinational mosaic, a state without a single national base or even a majority. Its stability and very existence were challenged repeatedly by the tension between the pressures for overarching political cohesion and the defense of separate national identities and aspirations. In a brilliant analysis of this complex and sensitive national question, Ivo Banac provides a comprehensive introduction to Yugoslav political history. His book is a genetic study of the ideas, circumstances, and events that shaped the pattern of relations among the nationalities of Yugoslavia. It traces and analyzes the history and characteristics of South Slavic national ideologies, connects these trends with Yugoslavia's flawed unification in 1918, and ends with the fatal adoption of the centralist system in 1921. Banac focuses on the first two and a half years in the history of the Kingdom of the Serbs, Croats, and Slovenes, because in his view this was the period that set the pattern for subsequent development of the national question. The issues that divided the South Slavs, and that still divide them today, took on definite form during that time, he maintains. Banac provides extensive treatment of all of Yugoslavia's nationalities; his sections on the Montenegrins, Albanians, Macedonians, and Bosnian Muslims are unique in the literature. In this unbiased account, all of the principals and groups assume a tragic fascination. When published in 1984, *The National Question in Yugoslavia* was the first complete introduction to the cultural history of the South Slavic peoples and to the politics of Yugoslavia, and it remains a major contribution to the scholarship on modern European nationalism and the stability of multinational states.

Varieties of Antisemitism Murray Baumgarten, Peter Kenez, Bruce Allan Thompson, 2009 The essays in this volume articulate the historical ground on which this artistic exploration of the Holocaust and anti-Semitism depends. They also elaborate the spectrum that connects them, in terms of their historical location and ideological emphases, and thus suggest the ways in which they are connected in terms of rhetorical discourse. The essays are governed by the sense that anti-Semitism has not been a unitary experience or event. Rather it is its varieties that are explored--exactly those aspects that have made it so difficult to grasp, and that led to the wide-ranging events and murdering methods of the Holocaust. Thus the editors eschew the causal explanation of Hitler's Willing Executioners as they seek to provide more nuanced understanding. Murray Baumgarten directs the Jewish Studies program at the University of California, Santa Cruz. Peter Kenez teaches at the University of California, Santa Cruz. Bruce Thompson is a lecturer in History and Literature at the University of California, Santa Cruz.

Soviet Soft Power in Poland Patryk Babiracki, 2015-05-15 Concentrating on the formative years of the Cold War from 1943 to 1957, Patryk Babiracki reveals little-known Soviet efforts to build a postwar East European empire through culture. Babiracki argues that the Soviets involved in foreign cultural outreach tried to use soft power in order to galvanize broad support for the postwar order in the emerging Soviet bloc. Populated with compelling characters ranging from artists, writers, journalists, and scientists to party and government functionaries, this work illuminates the behind-the-scenes schemes of the Stalinist international propaganda machine. Based on exhaustive research in Russian and Polish archives, Babiracki's study is the first in any language to examine the two-way interactions between Soviet and Polish propagandists and to evaluate their attempts at cultural cooperation. Babiracki shows that the Stalinist system ultimately undermined Soviet efforts to secure popular legitimacy abroad through persuasive propaganda. He also highlights the limitations and contradictions of Soviet international cultural outreach, which help explain why the Soviet empire in Eastern Europe crumbled so easily after less than a half-century of existence.

Bosnian, Croatian, Serbian, a Textbook Ronelle Alexander, Ellen Elias-Bursac, 2010-03-01 Three official languages have emerged in the Balkan region that was formerly Yugoslavia: Croatian in Croatia, Serbian in Serbia, and both of these languages plus Bosnian in Bosnia-Herzegovina. *Bosnian, Croatian, Serbian, a Textbook* introduces the student to all three. Dialogues and exercises are presented in each language, shown side by side for easy comparison; in addition, Serbian is rendered in both its Latin and its Cyrillic spellings. Teachers may choose a single language to use in the classroom, or they may familiarize students with all three. This popular textbook is now revised and updated with current maps, discussion of a Montenegrin language, advice for self-study learners, an expanded glossary, and an appendix of verb types. It also features:

- All dialogues, exercises, and homework assignments available in Bosnian, Croatian, and Serbian
- Classroom exercises designed for both small-group and full-class work, allowing for maximum oral participation
- Reading selections written by Bosnian, Croatian, and Serbian authors especially for this book
- Vocabulary lists for each individual section and full glossaries at the end of the book
- A short animated film, on an accompanying DVD, for use with chapter 15
- Brief grammar explanations after each dialogue, with a cross-reference to more detailed grammar chapters in the companion book, *Bosnian, Croatian, Serbian, a Grammar*.

The Routledge Handbook of EU-Russia Relations Tatiana Romanova, Maxine David, 2021-07-25 The Routledge Handbook of EU-Russia Relations offers a comprehensive overview of the changing dynamics in relations between the EU and Russia provided by leading experts in the field. Coherently organised into seven parts, the book provides a structure through which EU-Russia relations can be studied in a comprehensive yet manageable fashion. It provides readers with the tools to deliver critical analysis of this sometimes volatile and polarising relationship, so new events and facts can be conceptualised in an objective and critical manner. Informed by high-quality academic research and key bilateral data/statistics, it further brings scope, balance and depth, with chapters contributed by a range of experts from the EU, Russia and beyond. Chapters deal with a wide range of policy areas and issues that are highly topical and fundamental to understanding the continuing development of EU-Russia relations, such as political and security relations, economic relations, social relations and regional and global governance. The Routledge Handbook of EU-Russia Relations aims to promote dialogue between the different research agendas in EU-Russia relations, as well as between Russian and Western scholars and, hopefully, also between civil societies. As such, it will be an essential reference for scholars, students, researchers, policymakers and journalists interested and working in the fields of Russian politics/studies, EU studies/politics, European politics/studies, post-Communist/post-Soviet politics and international relations. The Routledge Handbook of EU-Russia Relations is part of a mini-series Europe in the World Handbooks examining EU-regional relations established by Professor Wei Shen.

Development, Globalization, Global Values, and Security Glen Segell, 2023-04-12 This book, written in honor of Arno Tausch, presents cutting-edge research on globalization, development,

and global values. Internationally renowned authors cover topics such as global economic and political cycles, global values, and support for terrorism. Over the last five decades, the Austrian political scientist Arno Tausch was a pioneer in studies on globalization, development and global values. This collection of essays takes up the issues dealt with by Tausch and presents perspectives for the 21st Century. Throughout his work, Tausch applied quantitative methods to study the fundamental issues of the global political economy and the global political system, like dependency, economic and political cycles, and global values, based on a rigorous study of available social scientific data, like the World Values Survey and the Arab Barometer.

From Stalin to Mao Elidor Mëhilli, 2017-11-15 Elidor Mëhilli has produced a groundbreaking history of communist Albania that illuminates one of Europe's longest but least understood dictatorships. From Stalin to Mao, which is informed throughout by Mëhilli's unprecedented access to previously restricted archives, captures the powerful globalism of post-1945 socialism, as well as the unintended consequences of cross-border exchanges from the Mediterranean to East Asia. After a decade of vigorous borrowing from the Soviet Union—advisers, factories, school textbooks, urban plans—Albania's party clique switched allegiance to China during the 1960s Sino-Soviet conflict, seeing in Mao's patronage an opportunity to keep Stalinism alive. Mëhilli shows how socialism created a shared transnational material and mental culture—still evident today around Eurasia—but it failed to generate political unity. Combining an analysis of ideology with a sharp sense of geopolitics, he brings into view Fascist Italy's involvement in Albania, then explores the country's Eastern bloc entanglements, the profound fascination with the Soviets, and the contradictions of the dramatic anti-Soviet turn. Richly illustrated with never-before-published photographs, From Stalin to Mao draws on a wealth of Albanian, Russian, German, British, Italian, Czech, and American archival sources, in addition to fiction, interviews, and memoirs. Mëhilli's fresh perspective on the Soviet-Chinese battle for the soul of revolution in the global Cold War also illuminates the paradoxes of state planning in the twentieth century.

Non-Interrogative Subordinate Wh-Clauses Łukasz Jędrzejowski, Postdoctoral Researcher Łukasz Jędrzejowski, Carla Umbach, 2023-06-13 This volume examines subordinate wh-clauses that lack an interrogative interpretation, particularly those in which the wh-word seems to deviate from its literal meaning. These include subordinate manner wh-clauses that have a declarative-like meaning, locative wh-clauses expressing kinds, and headed relatives that serve as recognitional cues, among many others. While regular interrogative embedding has been widely studied in recent years, little is known about the circumstances under which non-interrogative (subordinate) wh-clauses are licensed, nor why some, but not all, wh-phrases can be polyfunctional. The chapters in the book combine the study of cross-linguistic variation in patterns of subordination with formal semantic and syntactic analyses, with data drawn from a wide range of languages including Basque, Czech, English, Mandarin, Romanian, and Taiwan Southern Min. They provide novel insights into the ways in which wh-phrases can be used to introduce complements, relative clauses, and adverbial clauses, and show how the meanings associated with wh-words are exploited beyond their standard distribution. The findings have implications for our understanding of both the phenomenon of subordination as a whole and the relationship between form and meaning in wh-clauses.

Memory Politics and Populism in Southeastern Europe Jody Jensen, 2021-07-29 This book explores the politics of memory in Southeastern Europe in the context of rising populisms and their hegemonic grip on official memory and politics. It speaks to the increased political, media and academic attention paid to the rise of discontent, frustration and cultural resistance from below across the European continent and the world. In order to demonstrate the complexities of these processes, the volume transcends disciplinary boundaries to explore memory politics, examining the interconnections between memory and populism. It shows how memory politics has become one of the most important fields of symbolic struggle in the contemporary process of meaning-making, providing space for actors, movements and other mnemonic entrepreneurs who challenge and point to incoherencies in the official narratives of memory and forgetting. Charting the contemporary rise of populist movements, the volume will be of particular interest to regional specialists in Southeastern Europe, Balkan and postcommunist studies, as well as researchers, activists, policy-makers and politicians at the national and EU levels and academics in the fields of political science, sociology, history, cultural heritage and management, conflict and peace studies.

Europeanisation of the Contemporary Far Right Anita Nissen, 2022-03-03 Europeanisation of the Contemporary Far Right explores the role of transnational European identity in far-right mobilisation strategies. Focusing on the national members of two trans-European far-right coalitions – Generation Identity and Fortress Europe – the author explores the extent to which European far-right extra-parliamentary actors Europeanise their mobilisation. Drawing on social movement literature, the book argues that national extra-parliamentary actors' Europeanisation processes are influenced by their political and discursive opportunities and resources. Focusing on the groups' mobilisation during the 'refugee crisis' (2015–2017), the analysis considers the groups' frames, collective action, and coalition-building in the period, finding that the depth of the groups' resources particularly affects their capacity to mobilise. This book will be of interest to scholars, students, and civil society actors in fields related to the far right, European studies, social movements, and migration.

The Politics of Power Lars-Christian U. Talseth, 2017-01-20 This book sheds new light on the complex EU-Russia relationship, by providing the first comprehensive account of the EU-Russia Energy Dialogue. The author examines why Moscow and Brussels have failed to cooperate in this crucial area of interdependence. By invoking constructivism and Mikhail Bakhtin's concept of dialogue, and drawing on dozens of interviews with Russian and European officials, Talseth argues that the Energy Dialogue was unsuccessful because its interlocutors failed to come up with a common narrative for cooperation. Evidence suggests that the collapse of the Energy Dialogue was not pre-determined and initially there was a great deal of optimism and goodwill. Ultimately, the outcome of the Energy Dialogue was shaped by the unfolding time-space of Russo-European relations.
