Exquisite Moments Huishu Li,2001 This exhibition reevaluates Southern Song art in the context of the geography, cultural traditions and historical references of West Lake in Hangzhou. The Southern Song (1127 - 1279) capital of Lin'an, located near beautiful West Lake, was the center of a dynasty that looked largely inward. In this regard, the story of Southern Song art can be presented in a manner that is site-specific. The exhibition includes over 50 paintings (album leaves, hanging scrolls and fan paintings) and lustrous ceramics from premier collections, from the U.S. and abroad, and utilizes maps and literary accounts to further emphasize the influence of place in Southern Song art from a period known to many as one of the most 'exquisite moments' in art history.

Re-creating the Word Barbara L. Moulard, 2002 *Re-Creating the Word: Painted Ceramics of the Prehistoric Southwest* is a survey of prehistoric ceramic art created by anonymous artists of the Southwest. Through an analysis of the ceramic artworks, author Barbara L. Moulard examines the cultural and mythological traditions and worldviews of the Hohokam, Mogollon, and Pueblo (Anasazi) societies. This book introduces fresh discussion and interpretation of prehistoric Southwest ceramics, and new insight and appreciation of the artisans and societies that created them. The 130 artworks presented here have been culled from thousands of examples for more than thirty years. They are some of the most exquisite prehistoric ceramics known to exist, and span a time period of nine hundred years from roughly A.D. 750 to 1680. In *Re-Creating the Word*, you will see twenty-eight Mimbres bowls, the finest group of Sikyatki Polychromes ever assembled in a private collection, and beautiful and rare Salado, Hohokam, and White Mountain Red Wares.

Bernard Leach Emmanuel Cooper, 2003 A biography of one of the most influential potters of the 20th century, an artist who lived in turmoil while creating pots of serenity and beauty. played a pioneering role in creating an identity for artist potters in Britain and around the world. Born in the East (Hong Kong) and educated in the West (England), throughout his life Leach perceived himself as a courier between the disparate cultures. His exquisite pots reflect the inspiration he drew from East and West as well as his response to the basic tenets of modernism - truth to materials, the importance of function to form, and simplicity of decoration. This biography provides a detailed account of Leach's life and its relation to his art. recollections of the artist's family, friends and students to tell Leach's story. Cooper explores Leach's working methods, the themes of his pottery, his writings and philosophy, his recognition in Japan and Britain, and his continuing legacy, bringing into focus a complex man who captured in his work as a potter the still centre that always eluded him in his tumultuous personal life.

Pottery and Porcelain, from Early Times Down to the Philadelphia Exhibition of 1876 Charles Wyllys Elliott, 1878 What we have attempted has been to gather and present, in a way to be easily

understood, the most important facts respecting Pottery and Porcelain.--Preface

500 Ceramic Sculptures Suzanne J. E. Tourtillott,2009 The successful 500 series shines a spotlight on today's most breathtaking ceramic sculptures. Selected from more than 8,000 entries by the distinguished art critic, historian, and professor Glen R. Brown--an elected member of the International Academy of Ceramics in Geneva--these exquisite works will inspire both beginning and professional ceramists, as well as collectors and enthusiasts. They include Esther Shimazu's hand-built, Asian-influenced nudes; Von Venhuizen's mixed-media, wheel-thrown stoneware, and Katy's Rush's slip-cast and press-molded porcelain. Every work is amazing.

Raqqa Revisited Metropolitan Museum of Art (New York, N.Y.),Marilyn Jenkins,2006 What follows in these pages is the chronicle of ceramic objects unearthed in Raqqa in the first quarter of the twentieth century. Marilyn Jenkins-Madina, Curator Emerita of Islamic Art at the Metropolitan Museum, describes the dramatic journey of these ceramics from their discovery in the medieval city to the emporiums of Paris and New York, the drawing rooms of the great collectors, and the galleries of the Metropolitan Museum. Using art-historical detective work, archival documents, and scientific data, the author convincingly establishes provenance and dating, placing these objects - some of the most exquisite ever produced by Islamic potters - in a secure historical context for the first time.--BOOK JACKET.

A Discerning Eye Carol E. Mayer,2015-02-14 Like the ceramics he collected throughout his life,

Walter C. Koerner was a survivor of turbulent times. Born in Moravia in 1889, Koerner fled his homeland shortly before the Nazi occupation of Czechoslovakia. After immigrating to Canada and settling in B.C., he prospered in business and became one of the University of British Columbia's most significant benefactors. Today, the gallery in the Museum of Anthropology that bears Koerner's name is home to one of the most exquisite collections of European ceramics in North America. The Koerner Ceramics Gallery is a testament to elegance, craftsmanship, and the beauty of everyday objects. Yet it is also a reflection of the complex socio-political forces at work throughout four centuries of European history. A lavish celebration of this impressive collection, *A Discerning Eye* highlights approximately two hundred functional and decorative wares from the sixteenth to the nineteenth century. From Italian Renaissance maiolica, still considered by many to be the pinnacle of European ceramic art; to Haban pottery created by Anabaptist craftsmen, which carries the history of religious faith and persecution; to delftware from Holland, which was inspired by the Chinese and Japanese porcelain that arrived on Dutch shores in the seventeenth century - the pieces featured in this volume document the evolution of style, technique, and culture. This book is a fascinating, comprehensive, and visually stunning tribute. Inside Japanese Ceramics Richard L. Wilson, 1999-10-01 This practical and supremely useful manual is the first comprehensive, hands-on introduction to Japanese ceramics. The Japanese ceramics tradition is without compare in its technical and stylistic diversity, its expressive content, and the level of appreciation it enjoys, both in Japan and around the world. *Inside Japanese Ceramics* focuses on tools, materials, and procedures, and how all of these have influenced the way traditional Japanese ceramics look and feel. A true primer, it concentrates on the basics: setting up a workshop, pot-forming techniques, decoration, glazes, and kilns and firing. It introduces the major methods and styles that are taught in most Japanese workshops, including several representative and well-known wares: Bizen, Mino, Karatsu, Hagi, and Kyoto. While presenting the time-tested techniques of the tradition, author Richard L. Wilson also accommodates modern technologies and materials as

appropriate. Wilson has gathered a wealth of information on two fronts—as a researcher of Japanese pottery and art history, and as a potter who has studied and worked for years with master Japanese potters. In his introduction, he provides a short history of Japanese ceramics, and in closing he looks beyond traditional methods toward ways in which Western potters can make Japanese methods their own. Richly illustrated with 24 color plates, over 100 black-and-white photographs, and over 70 instructive line-drawings, *Inside Japanese Ceramics* is indispensable for potters as well as connoisseurs and collectors of Japanese ceramics. Above all, it is an invitation to participate—to study, make, touch, and use the exquisite products of the Japanese ceramic tradition.

Arts of China Hugo Munsterberg, Ph.D.,2011-12-20 The arts of China explores the world's oldest continuous artistic tradition as well as one of its most brilliant. In this stimulating art history, noted Oriental art authority Dr. Hugo Munsterberg traces the history of Chinese art dynasty by dynasty, elucidating the origins and development of major movements in Chinese painting, ceramics, bronzes, sculpture, and architecture. He clearly describes and defines the important trends and influences that culminated in the brilliant sculpture of the Tang Dynasty, the enchanting landscape paintings of the Song Dynasty, and the exquisite ceramics of the Ming Dynasty. Outstanding examples of each genre are presented in over one hundred superb color and black-and-white photographs.

Chinese Ceramics Lili Fang,2011-03-03 Throughout China's long history ceramic products have been very much a part of people's lives. This book takes the reader through the rich history of Chinese ceramics, from primitive pottery to the delicate porcelain for which China is famed, complemented by full color illustrations throughout.

Maiolica: Italian Renaissance Ceramics in the Metropolitan Museum of Art Timothy Wilson,2016-08-29 The form of tin-glazed earthenware known as maiolica reveals much about the culture and spirit of Renaissance Italy. Engagingly decorative, often spectacularly colorful, sometimes whimsical or frankly bawdy, these magnificent objects, which were generally made for use rather than simple ornamentation, present a fascinating glimpse into the realities of daily life. Though not as well known as Renaissance painting and sculpture, maiolica is also prized by collectors and amateurs of the decorative arts the world over. This volume offers highlights of the world-class collection of maiolica at the Metropolitan Museum. It presents 135 masterpieces that reflect more than four hundred years of exquisite artistry, ranging from early pieces from Pesaro—including an eight-figure group of the Lamentation, the largest, most ambitious piece of sculpture produced in a Renaissance maiolica workshop—to everyday objects such as albarelli (pharmacy jars), bella donna plates, and humorous

genre scenes. Each piece has been newly photographed for this volume, and each is presented with a full discussion, provenance, exhibition history, publication history, notes on form and glaze, and condition report. Two essays by Timothy Wilson, widely considered the foremost scholar in the field, provide overviews of the history and technique of maiolica as well as an account of the formation of The Met's collection. Also featured is a wide-ranging introduction by Luke Syson that examines how the function of an object governed the visual and compositional choices made by the pottery painter. As the latest volume in The Met's series of decorative arts highlights, Maiolica is an invaluable resource for scholars and collectors as well as an absorbing general introduction to a multifaceted subject.
