Eradicating Child Maltreatment Arnon Bentovim,Jenny Gray,2014-09-28 Is it possible to overcome the enduring problem of child maltreatment? In *Eradicating Child Maltreatment*, leading international figures in the field of child welfare address this enduring and thorny question, setting out a public health approach to prevention. It draws on groundbreaking research and practice on prevention and early intervention from around the globe spanning health, social care, education and criminal justice. Contributors describe what is known about the incidence of child maltreatment, how far we have succeeded in eradicating it, which preventative strategies have been proven to be effective, and offers evidenced recommendations for policy and practice. Aiming to draw us nearer to the goal of a world free from child maltreatment first articulated by the visionary paediatrician Dr. C. Henry Kempe in 1978, this important book provides new insights for professionals, managers, academics and policymakers across the range of child and family welfare services.

Mindset of Miracles Pamela Ann Ezell,2012-05 If you are reading these words, it is because you have asked for this knowledge to come to you at this time. It is because your soul is searching for something—for the touch of the Divine, for joy, for comfort, for hope, for happiness. You are seeking to understand why certain things have occurred in your life. You thirst for true knowledge. You desire to forge a happy life.I'm Pamela Ann. I teach people how to command there world with exactness and even put a date on it!I can declare these bold statements because I have continually witnessed an astonishing, extraordinary phenomenon. Shortly after my amazing, motivated clients begin their first training session, they feel an awakening and a shift toward a peaceful relief and awareness; their eyes begin to see their world in a new reality. They also begin to experience other powerful feelings such as renewed hope, well-being, acceptance, profound love and enlightenment. That shift can come in a variety of forms, from a gentle “Ah-Ha!” moment to a joyful mind-blowing experience. Notice that I describe these individuals as motivated clients. They are people who are open and teachable, ready to receive and activate within something more deeply meaningful and satisfying in their immediate lives. They are prepared to let go of fearful, sabotaging, distracting stumbling blocks and useless worries that have paralyzed their progress toward the life goals they desire. These individuals are also prepared to release ego, pride and embarrassment plus indoctrinations, lifestyles or rote habits. They are ready to rid themselves of traditions that no longer serve them or provide value in their daily lives while still embracing their core beliefs. They are the seekers of genuine abiding joy and invigorating happiness undisturbed by any person or situation in this finite world.Now ask yourself this question: “Am I one of those motivated individuals?” If your answer is, “Yes!” you too can learn how to purposefully dial in what you would love to create in your life, business, health, finances and relationships. These principles are simple eternal laws that can be applied to any situation you encounter.Through the stories presented here, you will receive answers to many questions you have. This knowledge is also written for people of all ages, backgrounds and walks of life. Whether you live in a simple tent or a regal mansion, you were created to experience immense joy in every moment of this life. In this book, you will discover step-by-step examples showing you how to invoke this soul-healing Power and have it come alive in you. You will learn how to personally connect to it and create the world you prefer. You will also discover how to allow that Power to flow into every moment of your existence, if that is your desire.You will learn how to create miraculous occurrences through different stories of real life experiences. The steps taken to deliberately form those miracles are given to you through individual narratives as well as through Take Action! suggestions at the end of each chapter. At any time, you can start applying these simple steps and usher similar miracles into your own life. By the way, no matter what your current situation, you can change your life at any time, make course adjustments or even embark upon a completely new adventure. Allow yourself to feel a tickle of hope and excited anticipation for the adventure you are embarking on. Let this change occur in your mind—better yet, in your entire soul so you can receive and develop your Mindset of Miracles.

Semitic Languages Edward Lipiński,2001 The first comparative grammar of the Semitic languages, by H. Zimmern, was published a hundred years ago and the last original work of this kind was issued in Russian in 1972 by B.M. Grande. The present grammar, designed to come out in the centenary of the completion of Zimmern's work, fills thus a gap. Besides, it is based on both classical and modern Semitic languages, it takes new material of these last decades into account, and situates the Semitic languages in the wider context of Afro-Asiatic. The introduction briefly presents the languages in question. The main parts of the work are devoted to phonology, morphology, and syntax, with elaborate charts and diagrams. Then follows a discussion of fundamental questions related to lexicographical analysis. The study is supplemented by a glossary of linguistic terms used in Semitics, by a selective bibliography, by a general index, and by an index of words and forms. The book is the result of twenty-five years of research and teaching in comparative Semitic grammar.

Attributive constructions in North-Eastern Neo-Aramaic Ariel Gutman,2016 This study is the first wide-scope morpho-syntactic comparative study of North-Eastern Neo-Aramaic dialects to date. Given the historical depth of Aramaic (almost 3 millennia) and the geographic span of the modern dialects, coming in contact with various Iranian, Turkic and Semitic languages, these dialects provide an almost pristine laboratory setting for examining language change from areal, typological and historical perspectives. While the study has a very wide coverage of dialects, including also contact languages (and especially Kurdish dialects), it focuses on a specific grammatical domain, namely attributive constructions, giving a theoretically motivated and empirically grounded account of their variation, distribution and development. The results will be enlightening not only to Semitists seeking to learn about this fascinating modern Semitic language group, but also for typologists and general linguists interested in the dynamics of noun phrase morphosyntax.

Tablets from the Iri-Saġrig Archive Marcel Sigrist,Tohru Ozaki,2021-06-21 While each of the previously known archives from the Third Dynasty of Ur has provided distinct views of Sumerian society, those from Iri-Saġrig present an extraordinary range of new sources, depicting a cosmopolitan Sumerian/Akkadian city unlike any other from this period. In this publication, Marcel Sigrist and Tohru Ozaki present more than two thousand newly identified tablets, mostly from Iri-Saġrig. This unique and extensive corpus elucidates the importance that Iri-Saġrig represented politically, militarily, and culturally in Sumer. Although these tablets were not able to be cleaned, baked, or photographed, the authors’ transliterations are based on the original tablets, often after repeated collations. Moreover, access to so many well-preserved tablets made it possible to improve upon the readings and interpretations offered in previous publications. Volume 1 contains a catalog and classification of the texts by provenance, a list of month names and year formulas, another of inscriptions, a chronological listing of the texts, and extensive indexes of personal names, deities, toponyms, and selected words and phrases. Volume 2 presents the texts in transliteration with substantial commentary. This two-volume publication preserves and makes available to the scholarly community a significant segment of Iraq’s cultural legacy that otherwise might have been ignored or even lost. It will augment and enhance our understanding of the unique civilization of Mesopotamia in the late third millennium BCE.
