Maurice Hamilton

Chequered Conflict Maurice Hamilton, 2008-09-04 The 2007 Formula One Championship was the first since the legendary 1986 season in which three drivers went into the final race with the possibility of being crowned champion. And not since that fateful year, when Mansell, Piquet and Prost went head-to-head, has a season so captured the world's attention and drawn so many new spectators to the sport - for reasons both on and off the track. It wasn't meant to be that way. When Fernando Alonso joined McLaren for 2007, the unspoken assumption was that the double world champion would steadily proceed to his third title in a row. He would have done exactly that, but for a development no-one could have foreseen. Carl Lewis Hamilton, a relative unknown and just twenty-two-years old, would climb into the other McLaren-Mercedes and captivate the world with consistently brilliant performances. Even as it welcomed this new prodigy, however, the world of Formula One was rocked by accusations of spying between McLaren and their bitter rivals Ferrari; accusations that resulted in millions of pounds in fines and an ill feeling between the teams, their drivers and the governing body that now threatens the future of the sport. Revisiting the 1986 season to contrast it with the world of F1 today, and applying his extensive experience as an award-winning motor-sport journalist for over 30 years, Maurice Hamilton provides a review of a season that will be remembered as one of the most important and unique in the sport's history. Analysing the individual races in expert detail as well as looking at the drivers themselves, **CHEQUERED CONFLICT** in its look at how radically the sport has changed in those twenty years, will become a classic of its

Williams Maurice Hamilton, 2012-04-24 A story of true drive – now the topic of a major documentary Founded in 1977 by Sir Frank Williams and Patrick Head, Williams F1 represents the last of the true independent teams; a company devoid of corporate dogma and run by enthusiasts driven by a love of racing and the satisfaction that comes with beating the rest of the world. Since its first Grand Prix victory at Silverstone on 14 July 1979, the team has won a further 116 GPs, delivered seven World Champions - among them Nigel Mansell and Damon Hill - and won nine Constructors Championships. This is the definitive history of the Williams team as told by those who have worked for Williams past and present. At the heart of the book are Sir Frank's personal recollections, along with memories and anecdotes from those at every level: from the shop floor to the upper strata of management; from the mechanics and machinists to the drivers - Mansell, Hill, Alain Prost and Alan Jones among them. It relates both the incredible highs of winning against the odds while never shying the terrible lows - the tragic deaths of

Piers Courage in 1970 and Ayrton Senna in 1994 among them. Conveying the history and soul of a unique band of people, Williams F1 explains exactly why the Williams team is held in more affection than any other team in Britain, if not the world.

Animal studies demonstrate the health implications of excessive caffeine consumption during gestation. Human epidemiologic data is extensively reviewed and found inadequate in assessing and association between caffeine exposure and fetal abnormalities.
