Revitalizing Urban Neighborhoods William Dennis Keating,Norman Krumholz,Philip Star,1996 Since the 1950s and the advance of urban renewal, local governments and urban policy have focused heavily on the central business district. However, such development has all but ignored the inner-city neighborhoods that continue to struggle in the shadows of high-rise America. This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development. Together they show how urban neighborhoods can and must be preserved as economic, cultural, and political centers.

Literally Unbelievable Bronwyn Harris,2016-09-14 The inequality in American education is increasing but statistics cannot possibly tell the whole story. As a new teacher thrust into the classroom mid-year in the part of Oakland, California, that police call the Killing Zone, Bronwyn Harris learned to make her own way as she helped parents advocate for their children with law enforcement and school officials, while enduring a revolving door of school administrators. Harris's students were intelligent, hardworking, funny, loyal, and incredibly empathetic in the face of considerable trauma and instability. She quickly realized that her teacher preparation classes had not covered making child abuse reports, teaching traumatized children, helping students cope with difficult emotions, or keeping a class calm during a lockdown. This book chronicles the lives of Harris's students and shows the difference a caring teacher and support from the greater community can make. This book takes me right back to my days working down the street from Ms. Harris. Her stories of our kids and our classrooms bring back vivid memories of the love, exhaustion, sadness, and so many more emotions that I felt. This book offers an accessible, sobering introduction to under-resourced public schools for those wishing to learn what it's really like. But it also conveys the profound richness and importance of the students that this system has left behind. This should be required reading for all prospective teachers, policy makers, and researchers. -Emily Penner, Ph.D. Assistant Professor of Education UC Irvine
