Confessions of a Professional Overthinker Kristy

Riggall, 2020-01-09 Your subconscious mind is your automatic thought system that runs in the background of your brain ninety to ninety-five percent of the day. It's your internal drive, and it can harm or heal you. A harmful facet of the mind is overthinking—a symptom that causes disharmony and a battle between the subconscious and conscious minds. In Confessions of a Professional Overthinker, Kristy Riggall explains the source of our overthinking and why we do it. By utilizing her advice, you can go from chronic

overthinking to tranquility. You will find a balanced life and embrace change instead of fearing it. For some, this book will even assist with addictions to food, alcohol, or social media. Follow simple, active steps to help you discover the source of your overthinking. Kristy's began in childhood and became her normal way of life—until she found healing. When your internal world feels like a battleground, it's time to start letting go of control and perfectionism. Stop being stressed and discover self-acceptance by making simple changes in your daily life.

American Televangelism and Participatory Cultures Denis J. Bekkering, 2018-10-12 This book examines unintended participatory cultures and media surrounding the American televangelists Robert Tilton and Tammy Faye Bakker-Messner. It brings to light heavily ironic fan followings; print, audio, and video projects; public access television parodies; and other comedic participatory practices associated with these controversial preachers from the 1980s onwards. For Tilton's ministry, some of these activities and artifacts would prove irksome and even threatening, particularly an analog video remix turned online viral sensation. In contrast, Bakker-Messner's "campy" fans – gay men attracted to her "ludicrous tragedy" – would provide her unexpected opportunities for career rehabilitation. Denis J. Bekkering challenges "supply-side" religious economy and branding approaches, suggestions of novelty in religion and "new" media studies, and the emphasis on sincere devotion in research on religion and fandom. He also highlights how everyday individuals have long participated in public negotiations of Christian authenticity through tongue-in-cheek play with

purported religious “fakes.”

Quilting a Legacy Steph B. Jones, Rachele Alpine, 2022-07-26 Myka signs her Gammy and three best friends up for quilting classes, but for someone who is used to being the best at each activity she tries, Myka finds quilting surprisingly challenging.--

The Acolytes of Crane J. D. Tew, 2014-02 Twelve-year-old Theodore Crane is a prankster from a small Minnesota town, who half-heartedly shares a friend with a belligerent bully. When he is not spending his days dodging an abusive father, he is out fleeing the scenes of goofy pranks and dares. With the help of his loyal friend Jason and a mysterious amulet, Theodore finds the courage to oppose his cruel father. When Jason's life is cut short by an accident, Theodore questions everything about himself, his family, and the universe. Three years after the tragedy, Theodore searches for answers by returning to the scene of Jason's death and discovers the truth when an intervention from outer space brings him into an epic intergalactic conflict. The truth: millions of guided microscopic devices have been recording his life and controlling his fate. Will this covert invasion be enough to pull Theodore toward his destiny?

Facing Cyber Threats Head On Brian Minick, 2017-01-12 News breaks all the time that hackers have attacked another company. Media outlets regularly cover cyber events. The President issues executive orders, and Congress explores cyber legislation. With all these events happening, business leaders must ask: what does

this mean for my business and me? Facing Cyber Threats Head On looks at cyber security from a business leader perspective. By avoiding deep technical explanations of “how” and focusing on the “why” and “so what,” this book guides readers to a better understanding of the challenges that cyber security presents to modern business, and shows them what they can do as leaders to solve these challenges. Facing Cyber Threats Head On explains that technology is not the answer to cyber security issues. People, not technology, are behind emerging cyber risks. Understanding this brings to light that cyber protection is not a battle of technology against technology, but people against people. Based on this, a new approach is required—one that balances business risk with the cost of creating defenses that can change as quickly and often as attackers can. Readers will find here a ready resource for understanding the why and how of cyber risks, and will be better able to defend themselves and their businesses against them in the future.
