The Feed Nick Clark Windo, 2018-03-13 Now a Streaming Series! Blake Crouch's *Recursion* meets *Mad Max* and *The Girl with All the Gifts* in this startling and timely debut that explores what it is to be human and what it truly means to be connected in the digital age. The Feed is accessible everywhere, by everyone, at any time. It instantaneously links us to all information and global events as they break. Every interaction, every emotion, every image can be shared through it; it is the essential tool everyone relies on to know and understand the thoughts and feelings of partners, parents, friends, children, colleagues, bosses, employees . . . in fact, of anyone and everyone else in the world. Tom and Kate use the Feed, but Tom has resisted its addiction, which makes him suspect to his family. After all, his father created it. But that opposition to constant connection serves Tom and Kate well when the Feed collapses after a horrific tragedy shatters the world as they know it. The Feed's collapse, taking modern society with it, leaves people scavenging to survive. Finding food is truly a matter of life and death. Minor ailments, previously treatable, now kill. And while the collapse has demolished the trappings of the modern world, it has also eroded trust. In a world where survival of the fittest is a way of life, there is no one to depend upon except yourself . . . and maybe even that is no longer true. Tom and Kate have managed to protect themselves and their family. But then their six-year-old daughter, Bea, goes missing. Who has taken her? How do you begin to look for someone in a world without technology? And what happens when you can no longer even be certain that the people you love are really who they claim to be?

The Civic Organization and the Digital Citizen Chris Wells, 2015-06-16 The powerful potential of digital media to engage citizens in political actions has now crossed our news screens many times. But scholarly focus has tended to be on networked, anti-institutional forms of collective action, to the neglect of advocacy and service organizations. This book investigates the changing fortunes of the citizen-civil society relationship by exploring how social changes and innovations in communication technology are transforming the information expectations and preferences of many citizens, especially young citizens. In doing so, it is the first work to bring together theories of civic identity change with research on civic organizations. Specifically, it argues that a shift in information styles may help to explain the disjuncture felt by many young people when it comes to institutional participation and politics. The book theorizes two paradigms of information style: a dutiful style, which was rooted in the society, communication system and citizen norms of the modern era, and an actualizing style, which constitutes the set of information practices and expectations of the young citizens of late modernity for whom interactive digital media are the norm. Hypothesizing that civil society institutions have difficulty adapting to the norms and practices of the actualizing information style, two empirical studies apply the dutiful/actualizing framework to innovative content analyses of organizations' online communications-on their websites, and through Facebook. Results demonstrate that with intriguing exceptions, most major civil society organizations use digital media more in line with dutiful information norms than actualizing ones: they tend to broadcast strategic messages to an audience of receivers, rather than encouraging participation or exchange among an active set of participants. The book concludes with a discussion of the tensions inherent in bureaucratic organizations trying to adapt to an actualizing information style, and recommendations for how they may more successfully do so.

Feed Tommy Pico, 2019-11-05 A Finalist for the Kingsley Tufts Award for Poetry A New York Times Notable Book of the Year From the Winner of the Whiting Award, an American Book Award, and finalist for a Lambda, Tommy Pico's *Feed* is the final book in the Teebs Cycle. *Feed* is the fourth book in the Teebs tetralogy. It's an epistolary recipe for the main character, a poem of nourishment, and a jaunty walk through New York's High Line park, with the lines, stanzas, paragraphs, dialogue, and registers approximating the park's cultivated gardens of wildness. Among its questions, *Feed* asks what's the difference between being alone and being lonely? Can you ever really be friends with an ex? How do you make perfect mac & cheese?

Feed is an ode of reconciliation to the wild inconsistencies of a northeast spring, a frustrating season of back-and-forth, of thaw and blizzard, but with a faith that even amidst the mess, it knows where it's going.

Never Eat Alone Keith Ferrazzi, Tahl Raz, 2014-06-05 An updated and expanded edition of the runaway bestseller *Never Eat Alone* by Keith Ferrazzi. Proven advice on networking for success: over 400,000 copies sold. As Keith Ferrazzi discovered early in life, what distinguishes highly successful people from everyone else is the way they use the power of relationships - so that everyone wins. His form of connecting to the world around him is based on generosity and he distinguishes genuine relationship-building from the crude, desperate glad-handling usually associated with 'networking'. In *Never Eat Alone*, Ferrazzi lays out the specific steps - and inner mindset - he uses to reach out to connect with the thousands of colleagues, friends, and associates on his Rolodex, people he has helped and who have helped him. He then distills his system of reaching out to people into practical, proven principles. Keith Ferrazzi is founder and CEO of Ferrazzi Greenlight, a marketing and sales consulting company. He is the author of the #1 New York Times bestseller *Who's Got Your Back* and has been a contributor to *Inc.*, the *Wall Street Journal*, and *Harvard Business Review*. Previously, he was CMO of Deloitte Consulting and at Starwood Hotels & Resorts, and CEO of YaYa media. He lives in Los Angeles and New York.

Feed M.T. Anderson, 2012-07-17 Identity crises, consumerism, and star-crossed teenage love in a futuristic society where people connect to the Internet via feeds implanted in their brains. This new edition contains new back matter and a refreshed cover. A National Book Award finalist.

Nature Poem Tommy Pico, 2017-05-09 A book-length poem about how an American Indian writer can't bring himself to write about nature, but is forced to reckon with colonial-white stereotypes, manifest destiny, and his own identity as a young, queer, urban-dwelling poet. A Best Book of the Year at BuzzFeed, Interview, and more. *Nature Poem* follows Teebs—a young, queer, American Indian (or NDN) poet—who can't bring himself to write a

nature poem. For the reservation-born, urban-dwelling hipster, the exercise feels stereotypical, reductive, and boring. He hates nature. He prefers city lights to the night sky. He'd slap a tree across the face. He'd rather write a mountain of hashtag punchlines about death and give head in a pizza-parlor bathroom; he'd rather write odes to Aretha Franklin and Hole. While he's adamant—bratty, even—about his distaste for the word “natural,” over the course of the book we see him confronting the assimilationist, historical, colonial-white ideas that collude NDN people with nature. The closer his people were identified with the “natural world,” he figures, the easier it was to mow them down like the underbrush. But Teebs gradually learns how to interpret constellations through his own lens, along with human nature, sexuality, language, music, and Twitter. Even while he reckons with manifest destiny and genocide and centuries of disenfranchisement, he learns how to have faith in his own voice.

IRL Tommy Pico, 2016 Composed as a long text message, this poem asks what happens to a modern, queer indigenous person a few generations after his ancestors were alienated from their language, their religion, and their history.
