Fighter Pilot Christina Olds, Robin Olds, Ed Rasimus, 2010-04-13 Please note: This ebook edition does not include the photo insert from the print edition. The widely anticipated memoir of legendary ace American fighter pilot, Robin Olds Robin Olds was a larger-than-life hero with a towering personality. A graduate of West Point and an inductee in the National College Football Hall of Fame for his All-American performance for Army, Olds was one of the toughest college football players at the time. In WWII, Olds quickly became a top fighter pilot and squadron commander by the age of 22—and an ace with 12 aerial victories. But it was in Vietnam where the man became a legend. He arrived in 1966 to find a dejected group of pilots and motivated them by placing himself on the flight schedule under officers junior to himself, then challenging them to train him properly because he would soon be leading them. Proving he wasn't a WWII retread, he led the wing with aggressiveness, scoring another four confirmed kills, becoming a rare triple ace. Olds (who retired a brigadier general and died in 2007) was a unique individual whose personal story is one of the most eagerly anticipated military books of the year.

The Mammoth Book of Fighter Pilots Jon E. Lewis, 2011-08-04 From yesteryear's flying aces to today's top guns, The Mammoth Book of Fighter Pilots presents, in the words of the combat pilots who fought them, fifty incredible air battles that have shaped military history in the twentieth century. Veteran anthologist Jon E. Lewis has assembled firsthand accounts from all the great military campaigns of aerial warfare, including World Wars I and II, the Spanish Civil War, Korea, Vietnam, the Falklands, the Gulf, and Bosnia. Page after exciting page of this singular collection brings into vivid play the exploits of such legendary pilots as Manfred von Richthofen, Eddie Rickenbacker, Douglas Bader, and Johnnie Johnson; the Luftwaffe World War II aces Heinz Knoke, Gerd Barkhorn, and Johannes Steinhoff; and forty other brave airmen from America, Britain, France, Japan, Russia, and North Korea. Here, too, are the planes in which these pilots flew into modern history—the Spitfire, the Mustang, the Me 109, the Zero, the F-16, the MiG, and the Harrier. Together with the death-defying drama of combat, this volume vividly captures other facets of the fighter pilot's life, including the perils of bailing out in enemy territory, the daily horrors of internment in a Japanese POW camp, and a harrowing account of being shot down in a blazing Spitfire. The true-life aerial combat adventures in this stirring collection provide a vicarious, adrenaline-fueled expedition into the shell-blasted skies of war in the twentieth century.

Never Lark nor Eagle Ray Castagnaro, 2002-11-06 *Never Lark nor Eagle: A Fighter Pilot's Story*, the novel by Ray Castagnaro, is accurate, entertaining Historical fiction about Yanks in the RAF during the Battle of Britain, and their eventual transition to the U.S. Army Air Forces. The story continues with dangerous test flying at Muroc Lake, California, then the exploits of the Fourth but First Fighter Group in Korea. The reader witnesses counterinsurgency in the jungles of the Philippines, espionage in 1950s Saigon, and hypersonic test flying at Edwards. It climaxes with the electrifying, but often overlooked air campaign over Vietnam. As told through the saga of one extraordinary American family, the story of the most exciting period in aviation history is told with historical accuracy, passion, and humor. VOLUME I: The early career of a fighter pilot and his family, spanning 1938 to 1958. 16 year old crop duster Carl Morro is adopted by the Wilcox family of rural Kentucky. With his adoptive brother, Freddy, Morro joins other American pilots in Britain's Royal Air Force in 1940, transitioning to the American Eagle Squadron, and eventually into the US Army Air Force when America enters the war. Through compelling narrative and humorous dialogue, the reader witnesses an accurate history of air warfare and weapons development through the fictional career of a man who helped develop them and their tactics from pre-WWII through

Korea and the 1950s. You will need to have both Volumes I & II to read the whole story. Triumph, tragedy, love, war, revenge, deliverance. © 1980, 1990, 2002

Solitary Giora Romm, 2014-06-04 “Fighter pilots tell the greatest stories and the great ones tell the best stories of all...” —PAT CONROY, bestselling author of *The Great Santini* and *The Death of Santini* “This book is not only among the finest war writing ever but, like Viktor Frankl’s *Man’s Search for Meaning*, *Solitary* sits alongside the most profound reflections on the resilience and capacity of the human soul.” —STEVEN PRESSFIELD, bestselling author of *The Lion’s Gate* and *The War of Art* “*Solitary* is a gutsy story of one man’s survival, endurance, and strength of will...” —LARRY ALEXANDER, bestselling co-author of *A Higher Call* “I anxiously await the day my own sons are old enough to read it.” —RICH COHEN, bestselling author of *Tough Jews* “You will tear through this book...” —RYAN HOLLIDAY, bestselling author of *The Obstacle is the Way* “It grabs you immediately, and doesn’t let go until you’re finished.” —TUCKER MAX, bestselling author of *I Hope They Serve Beer in Hell* “A magnificent triumph of the human spirit...I was captivated from the first page to the last.” —SEAN PARNELL, bestselling author of *Outlaw Platoon* Giora Romm was the Israeli Air Force's first fighter ace. As a twenty-two-year-old lieutenant he shot down five MiGs during the Six Day War of 1967. Fourteen months later over the Nile Delta, an Egyptian missile exploded beneath the tail of his Mirage IIIC. Within moments Romm found himself hanging by the straps of his parachute, with a broken arm and a leg shattered in a dozen places, looking down from 10,000 feet. Streams of farmers and field workers converged below onto the spot toward which his chute was descending, with the intention, he was certain, of hacking him to death as soon as his feet touched the earth. No other Israeli pilot had survived capture in Egypt or in any other Arab state. *Solitary* is Romm's story of his imprisonment, torture, interrogation, release, and return to service. *Solitary* is not a war book. It's not a tale of heroism, though if anyone ever qualified for that distinction, it is this story's author. *Solitary* is not even, in its deepest parts, about captivity or imprisonment. *Solitary* is about Romm's inner war. It's the story, in his phrase, of a fall from a great height, not only literally but metaphorically. Romm could not tell his captors the truth about who he was or what he had done. He had to invent an entire fictional biography and keep it straight in his head through months of beatings and interrogations, all the while being held in solitary confinement with his body sheathed from chest to toe in a plaster cast. *Solitary* is not a grim book. It's full of wry humor, keen self-observations and revelations. An ordeal such as Romm endured is a sojourn in hell, but it is also a passage. Romm fell, and he came back. *Solitary* is his indelible account of confronting, as few of us ever will, his own fears and limitations, and discovering, ultimately, his capacity to survive and to prevail. —From the Introduction by Steven Pressfield

Bolt of Thunder, Words of Whisper James Vincent Powers, 2009-04 Mark had never flown an airplane before the war, but now he was about to face the dreaded German Luftwaffe, the most experienced pilots in the world. Many of them were aces, having shot down over a hundred planes. Mark had never said the words I love you before, but now he met the most beautiful girl he had ever seen, and found himself saying the words to her. This is a story of a romantic fighter pilot and his exploits in the air in combat, as well as with the French Mademoiselles on the ground. Based on actual happenings to the author, this novel is historical fiction, woven with a love story with a surprising twist. James Vincent Powers is the author of several publications, one of which has been made into a movie in Germany. The American version was sold to the National Geographic Channel, and was first aired December 17, 2009 at 8:00 p.m. (EST). Mr. Powers served as a fighter pilot in WWII, with 47 combat missions in Europe. He is also an engineer, and helped design the F-111 fighter plane. He has two children and one grandson, and lives an active life in California playing golf, bowling, tap dancing, and

writing.

In Their Own Words James A. Oleson, 2007 Over one hundred fighter pilots give personal glimpses of their military careers.

Velocity, 2007 This storyline addresses the only question mark on O'Malley's career -- the Lavelle raids of February 1972. Using appropriate Nixon White House audio recordings and top secret messages (sent by the Joint chiefs of Staff to Vietnam) that were acquired through the Freedom of Information Act, Aloysius and Patrick Casey rescued from character assassination the reputation not only of Jerry O'Malley but also the reputation of Gen John D. Lavelle. They reveal the real culprit in the matter -- the Nixon White House.--AU Press web site.

Troopships of World War II Roland Wilbur Charles, 1947 This book contains authentic photographs and salient facts covering 358 troopships used in World War II. In addition, other vessels of miscellaneous character, including Victory and Liberty type temporary conversions for returning troops, are listed in the appendices ...--Pref.

Young Soldiers Rachel Brett, Irma Specht, 2004 It is estimated that more than 300,000 children are involved in armed conflicts throughout the world, the vast majority through forced labour. This publication contains the personal views and experiences of child soldiers, highlighting a number of factors contributing to their participation, including the socio-economic and political environment, and their vulnerable personal circumstances, as well as how diverse risk factors interact. These personal stories also draw attention to the gender dimensions of the problem, and to concept of child soldiers 'volunteering' in armed conflict situations. The book then goes on to explore key factors in the development of a comprehensive strategy to tackle the problem, including addressing issues of breakdown of law and order, availability of weapons, extreme forms of social exclusion including poverty and inequality, lack of educational opportunities, widespread child abuse and child labour. The publication includes profiles of conflict situations in Afghanistan, Colombia, the Congo, Northern Ireland, Sierra Leone, South Africa and Sri Lanka.

Attitudes Aren't Free James E. Parco, 2010-09 Attitudes Aren't Free: Thinking Deeply about Diversity in the US Armed Forces emerged from a vision to collect essays from the brightest voices of experts across the range of contentious social issues to catalyze productive discussions between military members of all ranks and services. Forty-nine experts contributed to the following 29 chapters writing on the primary themes of religious expression, homosexuality, gender, race, and ethics. Chapters appearing in this volume passed the scrutiny of a double-blind peer-review by one or more referees from the board of reviewers. The chapters are largely written in a colloquial, intellectual op-ed fashion and capture a snapshot of the current discussions regarding a particular topic of interest to uniformed personnel, policy makers, and senior leaders. Each section seeks to frame the spectrum of perspectives captured within the current debates and lines of argument. Authors were specifically asked not to address all sides of the issue, but rather to produce a well-reasoned argument explaining why they believe their well-known position on an issue is in the best interests of the military members and make specific recommendations about how best to address the policy issues from their perspective. The volume is arranged in four primary sections by theme: Religious Expression, Homosexuality, Race and Gender, and Social Policy Perspectives. Within each section, readers will find multiple chapters--each embracing a different perspective surrounding the section's theme. Thus, because of the unbalanced nature of many of the individual chapters, it is critically important that readers focus on the entire spectrum of perspectives presented within a section to ensure they have the context necessary to frame any single

perspective. Diversity of opinion has been the hallmark of the United States since its dramatic birth in 1776 and has continued unfettered through today where we now have developed the most innovative and effective military the world has ever known. Thus, it is imperative that we continue to reflect upon the diversity of ideas about how best to formulate the right social policy to ensure our service members can most effectively execute their missions.

World Report 2019 Human Rights Watch,2019-02-05 The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

Eavesdropping on Hell Robert J. Hanyok,2013-04-10 This recent government publication investigates an area often overlooked by historians: the impact of the Holocaust on the Western powers' intelligence-gathering community. A guide for researchers rather than a narrative study, it explains the archival organization of wartime records accumulated by the U.S. Army's Signal Intelligence Service and Britain's Government Code and Cypher School. In addition, it summarizes Holocaust-related information intercepted during the war years and deals at length with the fascinating question of how information about the Holocaust first reached the West. The guide begins with brief summaries of the history of anti-Semitism in the West and early Nazi policies in Germany. An overview of the Allies' system of gathering communications intelligence follows, along with a list of American and British sources of cryptologic records. A concise review of communications intelligence notes items of particular relevance to the Holocaust's historical narrative, and the book concludes with observations on cryptology and the Holocaust. Numerous photographs illuminate the text.

Children and Violence E. Helander,2008-09-02 This book provides a disturbing account of the reality of child abuse. Based on data from 152 countries, Einar Helander considers the physical, societal, economic and judicial consequences of child abuse, proposing a universal, community-based prevention programme.

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Public Health Approaches to Reduce Vision Impairment and Promote Eye Health,2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a

Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

The Tipping Point Malcolm Gladwell,2006-11-01 From the bestselling author of *The Bomber Mafia*: discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world."

Homo Deus Yuval Noah Harari,2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

Feminism and the Politics of Childhood Rachel Rosen,Katherine Twamley,2018-02-22 *Feminism and the Politics of Childhood* offers an innovative and critical exploration of perceived commonalities and conflicts between women and children and, more broadly, between various forms of feminism and the politics of childhood. This unique collection of 18 chapters brings into dialogue authors from a range of geographical contexts, social science disciplines, activist organisations, and theoretical perspectives. The wide variety of subjects include refugee camps, care labour, domestic violence and childcare and education. Chapter authors focus on local contexts as well as their global interconnections, and draw on diverse theoretical traditions such as poststructuralism, psychoanalysis,

posthumanism, postcolonialism, political economy, and the ethics of care. Together the contributions offer new ways to conceptualise relations between women and children, and to address injustices faced by both groups. Praise for *Feminism and the Politics of Childhood: Friends or Foes?* 'This book is genuinely ground-breaking.' – Val Gillies, University of Westminster 'Feminism and the Politics of Childhood: Friends or Foes?' asks an impossible question, and then casts prismatic light on all corners of its impossibility.' – Cindi Katz, CUNY 'This provocative and stimulating publication comes not a day too soon.' – Gerison Lansdown, Child to Child 'A smart, innovative, and provocative book.' – Chandra Talpade Mohanty, Syracuse University 'This volume raises and addresses issues so pressing that it is surprising they are not already at the heart of scholarship.' – Ann Phoenix, UCL
