Principles of Financial Regulation John Armour, Dan Awrey, Paul Davies, Luca Enriques, Jeffrey N. Gordon, Colin Mayer, Jennifer Payne, 2016-08-04 The financial crisis of 2007-9 revealed serious failings in the regulation of financial institutions and markets, and prompted a fundamental reconsideration of the design of financial regulation. As the financial system has become ever-more complex and interconnected, the pace of evolution continues to accelerate. It is now clear that regulation must focus on the financial system as a whole, but this poses significant challenges for regulators. Principles of Financial Regulation describes how to address those challenges. Examining the subject from a holistic and multidisciplinary perspective, Principles of Financial Regulation considers the underlying policies and the objectives of regulation by drawing on economics, finance, and law methodologies. The volume examines regulation in a purposive and dynamic way by framing the book in terms of what the financial system does, rather than what financial regulation is. By analysing specific regulatory measures, the book provides readers to the opportunity to assess regulatory choices on specific policy issues and encourages critical reflection on the design of regulation.

From Individualism to the Individual George M. Frankfurter, Elton G. McGoun, 2018-01-18 This title was first published in 2002: From Individualism to the Individual treats finance as a social and cultural process, exploring the unseen side of academic discourse and the many obstacles the deeply entrenched elite puts in the way of alternative thinking. Opening with a detailed discussion of the role of ideology in the perpetuation of the limited methodological bias of the profession toward markets, the book then examines the more specific effects of such ideological limitations on theoretical and empirical research in finance. The authors develop alternative ways to examine finance both as a profession and as a field of inquiry. This book will be of particular value to researchers and practitioners working in finance, as well as those in other social science disciplines whose research relates to finance, culture and society.

Catching Lightning in a Bottle Winthrop H. Smith, Jr, 2014-08-20 The fascinating story behind the company that revolutionized the financial world Catching Lightning in a Bottle traces the complete history of Merrill Lynch and the company's substantial impact on the world of finance, from the birth of the once-mighty company to its inauspicious end. Throughout its ninety-four year history, Merrill Lynch revolutionized finance by bringing Wall Street to Main Street, operating under a series of guidelines known as the Principles. These values allowed the company to gain the trust of small investors by putting the clients' interests first, driving a business trajectory that expanded capital markets and fueled the growth of the American post-war economy. Written by the son of Merrill Lynch co-founder Winthrop H. Smith, this book describes the creation and evolution of the company from Charlie Merrill's one-man shop in 1914 to its acquisition by Bank of America in 2008. Author Winthrop H. Smith Jr. spent twenty-eight years at the company his father co-founded, bringing a unique perspective to bear in telling the story of the company that democratized the stock market and eventually fell from its lofty perch. Learn why the industry initially scoffed at Charles Merrill's radical investment ideas Discover the origin of the Principles, and how they drove operations for nearly a century Find out why the author left a successful Wall Street career, and why it was such a smart move Examine the culture and values that built Merrill Lynch into one of the world's most successful and respected companies Revolutionary vision is rare, and enduring success is even more so. When a single organization demonstrates both of those characteristics, it is felt throughout the world. Discover the fascinating story behind Merrill Lynch and the men who built it from an insider's perspective in Catching Lightning in a Bottle.
