Interventional Pain Agnes R. Stogicza, André M. Mansano, Andrea M. Trescot, Peter S.

Staats, 2020-12-11 This comprehensive book serves as a review for the Fellow of Interventional Pain Practice (FIPP) exam and functions as a concise guide for all interventional pain doctors. Through educational initiatives, it helps to promote consensus-building among experts on the effectiveness of existing techniques and avenues for advancement of therapeutic performances. The book is divided into four sections (head and neck, thoracic, lumbar and sacral/pelvic), and each chapter is devoted to the safe, standardized approach to interventional procedures. To prepare both the examiner and the examinee for the FIPP examination, each chapter contains the relevant C-arm images and outlines the most common reasons for “unacceptable procedures performance” and “potentially unsafe procedures performance.” Distinguishing it from many of the previous guides, it also includes labeled fluoroscopic high quality images and focuses on the current FIPP-examined procedures with all accepted approaches. Written and edited by world leaders in pain, Interventional Pain guides the reader in study for FIPP Exam and offers a consensus on how interventional procedures should be performed and examined.

The Making of the Chinese Middle Class Jean-Louis Rocca, 2016-11-07 This book analyses the making of the Chinese middle class that started in the 1990s using a constructivist approach. With the development of the Chinese economy, a new group of middle wage earners appeared. Chinese social scientists and state institutions promoted the idea that China needs a middle class to

achieve modernization. Middle class members are defined—and define themselves—as good consumers, educated people, politically engaged but reasonable citizens. As such, the making of the middle class is the result of three convergent phenomena: an attempt to define the middle class, a process of civilization, and the development of protest movements. The making of the Chinese middle class, Rocca argues, is a way to end the stalemate that modern Chinese society is facing, in particular the necessity to democratize without introducing an election system.

organisations more innovative than others? Drawing on extensive first-hand research this book explains how different international media organisations approach digital news and pinpoints the common organisational factors that help build their success.
