Chile's integration strategy : is there room for improvement ? (Working Paper ITD = Documento de Trabajo ITD ; n. 21) Mauricio Mesquita Moreira, Juan S. Blyde, 2006

What are the main issues in Chile's trade agenda? This paper argues that the country's agenda does not lend itself to that traditional kind of policy advice usually given throughout Latin America. Protection is low and uniform, institutions that govern trade policy are strong and well protected from capture and the country has put a lot of effort in opening markets in the region and abroad. The important issues that come out of the analysis are to a great extent, second generational. That is: export diversification, the regional distribution of trade gains, completion of the multidimensional trade strategy and transport costs. Whereas Chile has made progress in diversifying its exports away from copper, concentration is still high even when compared to other resource intensive countries. On the regional issue, it seems clear that Chile's export-led growth in the last two decades was not evenly distributed across the regions. On Chile's multidimensional trade strategy, Asia is clearly the missing link in the country's wide net of preferential agreements and the evidence available suggest that transport costs are these days a more important obstacle to Chile's trade than traditional trade barriers.

The impact of the Chilean law on food labelling on the food production sector Food and Agriculture Organization of the United Nations, 2021-07-02 The worrying increase in overweight and obesity in the Region has led the countries to develop regulations and public policies to overcome this problem. Many of these aim to transform food environments to be healthier, improving access and influencing people's behavior, discouraging the purchase and consumption of unhealthy foods. In Chile, in 2016 a Law on Nutritional Composition of Foods and its advertising was implemented, which mandates the use of warning stamps HIGH IN on foods with high sugar, sodium, saturated fat or energy content, also prohibiting their sale in schools and advertising with a focus on children under 14 years of age. The food industry in Chile played a very active role during the discussion and implementation of the law, having as major concern the impact it could have on the productive sector. At the time of its implementation, it showed good compliance with the use of stamps, also responding with reformulation and development of new products, also adjusting its advertising and marketing campaigns. This document evaluates four aspects of the response of the food production sector in the implementation of the first phase of the Law: attitudes of the main actors of the food sector, food reformulation, use of stamps as a marketing strategy and impact on variables of the manufacturing sector and commercial. This information is an additional input to the discussion of the impact of the labeling laws that are being implemented in countries of the Region.

Worms and Human Disease Ralph Muller, Derek Wakelin, 2002 This second edition of the popular advanced student textbook (previously published as Worms and Disease: A Manual of Medical Helminthology) has been thoroughly updated and revised since it was first published in 1975. It is an authoritative handbook covering all human helminth infections with particular emphasis on diagnosis, treatment, clinical manifestations, pathogenesis, epidemiology and control. Practical guidelines are given for estimating the clinical and public significance of helminthiasis, vital in areas where the majority of inhabitants are infected with many helminths but only a few are sick.

Olga Rudge & Ezra Pound Anne Conover, 2008-10-01 divA loving and admiring companion for half a century to literary titan Ezra Pound, concert violinist Olga Rudge was the muse who inspired the poet to complete his epic poem, The Cantos, and the mother of his only daughter, Mary. Strong-minded and defiant of conventions, Rudge knew the best and worst of times with Pound. With him, she coped with the wrenching dislocations brought about by two catastrophic world wars and experienced modernism's radical transformation of the arts. In this enlightening biography, Anne Conover offers a full portrait of Olga Rudge (1895-1996), drawing for the first time on Rudge's extensive unpublished personal notebooks and correspondence. Conover explores Rudge's relationship with Pound, her influence on his life and career, and her perspective on many details of his controversial life, as well as her own musical career as a violinist and musicologist and a key figure in the revival of Vivaldi's music in the 1930s. In addition to mining documentary sources, the author interviewed Rudge and family members and friends. The result is a vivid account of a highly intelligent and talented woman and the controversial poet whose flame she tended to the end of her long life. The book quotes extensively from the Rudge-Pound letters—an almost daily correspondence that began in the 1920s and continued until Pound's death in 1972. These letters shed light on many aspects of Pound's disturbing personality; the complicated and delicate balance he maintained between the two most significant women in his life, Olga and his wife Dorothy, for fifty years; the birth of Olga and Ezra's daughter Mary de Rachewiltz; Pound's alleged anti-Semitism and Fascist sympathies; his wartime broadcasts over Rome radio and indictment for treason; and his twelve-year incarceration in St. Elizabeth's Hospital for the mentally ill. /DIV

Graphic Details Sarah Lightman, 2016-04-22 The comics within capture in intimate, often awkward, but always relatable detail the tribulations and triumphs of life. In particular, the lives of 18 Jewish women artists who bare all in their work, which appeared in the internationally acclaimed exhibition “Graphic Details: Confessional Comics by Jewish Women.” The comics are enhanced by original essays and interviews with the artists that provide further insight into the creation of autobiographical comics that resonate beyond self, beyond gender, and beyond ethnicity.
