Using Sequence Generator Pro and Friends Alex McConahay, 2019-09-10 This guide is specifically aimed at those who are using—or want to use—Sequence Generator Pro. SGP is a “session management” software package that controls the telescope, mount, camera, and ancillary equipment to target and secure images during a night of imaging astronomical objects. The book begins with a special tutorial to get up and running with SGP. With a comprehensive reference section, it takes the user in detail through the various aspects of user and equipment profiles, equipment definitions, the sequencer, and other essential elements of SGP. Finally, it focuses on how to get the most out of the ancillary programs—target databases, autoguider, plate solvers, planetarium software, and other applications. Oftentimes, technical guides can end up being far denser than the processes they intend to explain. Many of the insights provided by SGP expert Alex McConahay are beyond what can be found in the official program documentation. In this

book, the reader will find in-depth, yet straightforward practical advice on how to automate nightly astroimaging sessions with Sequence Generator Pro.

Time Like a River Randy Perrin, Hannah Perrin, Tova Perrin, 1997 Unforgettable is the word best used to describe *Time Like a River* by Randy Perrin and his young daughters, Hannah and Tova. This book has several themes. The first illustrates the friendship between 13-year-old Margie, who is Jewish, and her best friend, Isabel, who is Catholic. The second is about Margie's mom who has become dangerously ill with an unknown disease. The third is about a school history project the girls are working on which takes them to an historical archive where they find a diary written by a Chinese man 100 years before Margie travels back in time to visit the Chinese man who recently lost his father to a mysterious malady. Through this experience Margie figures out the disease her mother has and helps the doctors save her life. Social Studies teachers can also learn how much more important it is to emphasize how people lived, thought, and felt in the past, rather than make children memorize isolated facts. -Independent Publisher

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S. Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

Hidden Alliances Elisabeth Schimana,2020-02-18 Where are all of the women in the avant-garde electronic music scene? Anyone who thinks they do not exist is totally wrong. It is, however, a fact that hardly anyone has done any research on them or written about them. Wondering about a world allegedly lacking in female electronic musicians, Elisabeth Schimana began a search in the late 1990s and the initial results of her research went into her performance Portrait 01 - Die Futuristin (Portrait 01 - the female futurists). Her research brought her into the sphere of electronic music, which culminated in the founding of the IMA- Institute for Media Archaeology. Now, this publication presents twenty female artists and their work. The artists create a somewhat different picture of the creation and development of electronic music. This illustrated volume is as intriguing as it is fascinating, and, above all, a significant portrait of this new history.
