*Nightly Business Report Presents Lasting Leadership* Mukul Pandya, Robbie Shell, Susan Warner, Sandeep Junnarkar, Jeffrey Brown, 2006-01-31  
Now in paperback. . . . What outstanding leaders do, and how they do it. Building corporate culture that can withstand anything. Reinventing your business: when it's time, how to do it. Key attributes of lasting leadership. The greatest business leaders of our generation. How they achieved the impossible. What you can learn from them. How to use those lessons to supercharge your career. Two of the world's leaders in business knowledge and insight come together to select and profile the 25 most influential businesspeople of the past quarter century. The team: Nightly Business Report, the United States' #1 daily TV business news program, and Knowledge@Wharton, The Wharton School's online journal of research and

business analysis. The book's incisive profiles show exactly how each business leader became so influential. They teach lessons you can use to discover, refine, and nurture your own leadership style -- and gain powerful influence in your own career. You'll gain new insights into familiar faces (Jack Welch, Lou Gerstner, Bill Gates). But you'll also gain greater appreciation for less heralded individuals -- from Mary Kay's Mary Kay Ash to Mohammed Yunus, whose 'microlending' revolution is helping millions of poor people around the world transform themselves into entrepreneurs. No other book offers this much actionable insight into this many extraordinary business leaders.

Mobility and Locative Media Adriana de Souza e Silva,Mimi Sheller,2014-08-07 Mobilities has become an important framework to understand and analyze contemporary social, spatial, economic and political practices. Especially as mobile media become seamlessly integrated into transportation networks, navigating urban spaces, and connecting with social networks while on the move, researchers need new approaches and methods to bring together mobilities with mobile

communication and locative media. Mobile communication scholars have focused on cell phones, often ignoring broader connections to urban spaces, geography, and locational media. As a result, they emphasized virtual mobility and personalized communication as a way of disconnecting from place, location and publics. The growing pervasiveness of location-aware technology urges us to rethink the intersection among location, mobile technologies and mobility. Few studies have addressed the many transformations taking place in mobile sociality and in urban spatial processes through the appropriation of these technologies. With this evolutionary approach, the authors emphasize the field's most persistent concepts, principles, and mechanisms-- the core information that will help you understand why and how content delivery works today, and apply that knowledge in the future. Focuses on the principles that will give you a deep and timely understanding of content networking.
