Historical Dictionary of Poland, 966-1945 Halina Lerski,1996-01-19 The first authoritative, comprehensive historical dictionary of Poland in English, this volume includes over 2,000 entries on people, events, places, and terms important to Poland's history from 966 to 1945. Entries include English and Polish language bibliographic sources. The student of Polish history seeking specific information on a person or event in medieval times, the troubled era leading to the late 18th century partitions of Poland, and the Polish nationalist struggles before 1919, reborn Poland in the interwar years, or the trauma of World War II will be amply rewarded by the accurate, concise information provided in this unique historical dictionary. Each of the alphabetically arranged entries is followed by pertinent bibliographic sources in both English and Polish languages. A list of abbreviations, a note on the Polish alphabet, and a series of historical maps precede the entries. Helpful cross-references are provided throughout the text and in the index. A general bibliography precedes the index. After five years of work, George Lerski completed the original manuscript in 1992, shortly before his untimely death. The special editing subsequently undertaken preparatory to publication has remained faithful to the original work, its concept, organization, and purpose.

The Catholic Church in Polish History Sabrina P. Ramet,2017-06-22 The book chronicles the evolution of the church's political power throughout Poland's unique history. Beginning in the tenth century, the study first details how Catholicism overcame early challenges in Poland, from converting the early polytheists to pushing back the Protestant Reformation half a millennium later. It continues into the dawn of the modern age—including the division of Poland between Prussia, Russia, and Austria between 1772 and 1795, the interwar years, the National Socialist occupation of World War Two, and the communist and post-war communist eras—during which The Church only half-correctly presented itself as a steadfast protector of Poles, with clergy members who either stood up to foreign authorities or collaborated with those same Nazi and Communist leaders. This study ends with a consideration of how the Church has taken advantage of the fall of communism to push its own social agenda, at times against the wishes of most Poles.
