**Mobile Game Engines** Jason Brownlee,2012-07-31 This book contains a total of 38 must-read interviews on the making of mobile games using 15 modern game engines. In this book you'll hear how hired guns and indie game developers alike build games and get them to market using off-the-shelf mobile game engines. There is no abstracting or watering down of their experiences. You will read about what they did, in their own words. The interviews were designed to collect wisdom from game developers around the problems of choosing and working with off-the-shelf mobile game engines, and you will agree that this objective was far exceeded. You will get a snapshot into the thoughts and processes from a diverse and successful collection of mobile game developers from around the world. You will feel recharged and will be reinvigorated in your own game development efforts. The sage advice in these interviews will be useful in navigating, selecting and working with the tidal wave of promising mobile game engines available. Reading these interviews will help you find and best use the perfect engine for your mobile game and get it into the hands of an audience that loves it just as much as you.
