Photos Framed: A Fresh Look at the World's Most Memorable Photographs Ruth

Thomson, 2014-08-05 Portrait. Nature. Art. Documentary. A look at some of the world's most iconic photographs invites viewers to focus on the medium's place in art and history. Photographs can be beautiful or harrowing, honest or manipulative, dramatic or comforting. Photos Framed explores twenty-seven of the most important and vivid photos taken over the medium's history, from a formal portrait of Louis Daguerre taken in 1844 to a candid shot of a Cuban girl and her doll in 2011. Readers are invited to use their powers of observation to zoom in on photographic elements, blow up details of the subject matter, think about the big picture, and pan out on the photographer. Photos Framed will open viewers' eyes to the art of photography and its power to tell a story.

**Good Pictures** Kim Beil, 2020-06-23 A picture-rich field guide to American photography, from daguerreotype to digital. We are all photographers now, with camera phones in hand and social media accounts at the ready. And we know which pictures we like. But what makes a good picture? And how could anyone think those old styles were actually good? Soft-focus yearbook photos from the '80s are now hopelessly—and happily—outdated, as are the low-angle portraits fashionable in the 1940s or the blank stares of the 1840s. From portraits to products, landscapes to food pics, Good

Pictures proves that the history of photography is a history of changing styles. In a series of short, engaging essays, Kim Beil uncovers the origins of fifty photographic trends and investigates their original appeal, their decline, and sometimes their reuse by later generations of photographers. Drawing on a wealth of visual material, from vintage how-to manuals to magazine articles for working photographers, this full-color book illustrates the evolution of trends with hundreds of pictures made by amateurs, artists, and commercial photographers alike. Whether for selfies or sepia tones, the rules for good pictures are always shifting, reflecting new ways of thinking about ourselves and our place in the visual world.
