Humour and successful children's films André F. Nebe, 2023-06-18 André F. Nebe uses his humour structure analysis to make viewers' preferences and corresponding audiovisual offerings in films visible. Complex and multi-layered audiovisual (hypotactic) humour is used in the more successful films, while less successful films make simple (paratactic) humour offerings. The humour structure analysis offers insights into promising humour offerings and can also be used in the story development phase for writers, directors, producers and dramaturges.

Alone Scott Sigler, 2017-03-07 In the final installment of an exhilarating sci-fi adventure trilogy in the vein of The Hunger Games, Divergent, and Red Rising, Scott Sigler's unforgettable heroine, Em Savage, must come to grips once and for all with the perilous mysteries of her own existence. "We thought this place was our destiny—not our doom." Pawns in a millennia-old struggle, the young people known only as the Birthday Children were genetically engineered to survive on the planet Omeyocan—but they were never meant to live there. They were made to be "overwritten," their minds wiped and replaced by the consciousnesses of the monsters who created them. Em changed all of that. She unified her people and led a revolt against their creators. Em and her friends escaped an ancient ghost ship and fled to Omeyocan. They thought they would find an uninhabited paradise. Instead, they found the ruins of a massive city long since swallowed by the jungle. And they weren't alone. The Birthday Children fought for survival against the elements, jungle wildlife, the "Grownups" who created them . . . and, as evil corrupted their numbers, even against themselves. With these opponents finally defeated, Em and her people realized that more threats were coming, traveling from across the universe to lay claim to their planet. The Birthday Children have prepared as best they can against this alien armada. Now, as the first ships reach orbit around Omeyocan, the final battle for the planet begins. Praise for Alone "Another Scott Sigler masterpiece . . . thrills on every page, shocking turns, vulnerable and powerful characters, heartbreak, and battles."—Amy Braun, award-winning author of the Dark Sky series "Thrilling . . . an incredible end to an incredible series."—Bingeing on Books Praise for Scott Sigler's Alive "Suspenseful . . . Savage is one hell of a heroine. Get ready to be left breathless."—Kristin Cast, New York Times bestselling author of the House of Night series "Sigler has created a wonderful and engrossing character in M. Savage. Strong and smart, but with the naïveté and misgivings of any teenage girl, she's someone you'll definitely want on your side when s**t hits the fan, which it most certainly does."—Veronica Belmont, host of Sword & Laser "The puzzle unfolds masterfully, right down to the last page."—Phil Plait, PhD, author of Bad Astronomy

Super Burp! #1 Nancy Krulik, 2010-07-08 The first day at a new school is always the hardest, right? No, not always as George finds out the hard way. On the second day at...Sugarman Elementary School, he is suddenly seized by uncontrollable burps, burps so loud they practically break the sound barrier, burps that make him do wild and crazy stuff and land him in trouble with a capital T. One thing is for sure: these are not normal burps, they are magic burps—and they must be stopped! But how?

Fat Rabbit's BURP Wayne Patterson, 2016-11-19 Fat Rabbit's burp cannot be found. Wherever can it be? He really does miss that burping sound and saying, Pardon Me!

Alight Scott Sigler, 2016-10-04 In Alive, Scott Sigler introduced readers to an unforgettable young heroine and a mysterious new world reminiscent of those of The Hunger Games, Divergent, and Red Rising. Now he expands his singular vision in the next thrilling novel of this powerful sci-fi adventure series. "If it's war they want, they messed with the wrong girl." M. Savage—or Em, as she is called—has made a bewildering and ominous discovery. She and the other young people she was chosen to lead awoke in strange coffins with no memory of their names or their pasts. They faced an empty, unknown place of twisting tunnels and human bones. With only one another to depend on, they searched for answers and found the truth about their terrifying fate. Confronted by a monstrous enemy, they vowed never to surrender—and, by any means, to survive. The planet Omeyocan may be the sanctuary Em and her comrades seek. But the planet for which they were created turns out not to be a pristine, virgin world. Vestiges of a lost civilization testify to a horrifying past that may yet repeat itself. And when a new enemy creeps from the jungle shadows, Em and her young refugees learn there's nowhere left to run. They face a simple choice: fight or die. In the midst of this desperate struggle, their unity is compromised from within—and a dangerous zealot devoted to a bloodthirsty god moves to usurp Em's command, threatening to lead them all down a path to violent doom. Praise for Scott Sigler's Alive "Suspenseful . . . [Alive] lives up to its hype, packing plenty of thrills. . . . A page-turner that whets the appetite for volume 2."—Entertainment Weekly "Fascinating and intriguing . . . a cross between Lord of the Flies and The Maze Runner and yet . . . so much more."—Fresh Fiction "A ripping, claustrophobic thunderbolt of a novel."—Pierce Brown, New York Times bestselling author of Red Rising "Unstoppable and real, M. Savage is one hell of a heroine. Burp, Spit & Fart Julia Garstecki,2019-03-26 Burp, Spit & Fart: The Science Behind the Gross Things Babies Do answers some of the most pressing questions young readers have about their baby siblings—a companion book to Pick, Spit & Scratch: The Science of Disgusting Habits and Sniff, Lick & Scratch: The Science of Disgusting Animal Habits. Why does a baby's poop change color as it gets older? How do diapers keep all that pee in? Why do babies have to be burped after eating, and how does burping work, anyway? Do all babies suck their thumbs? And why can they put their toes in their mouths? As with the gross things that other humans and animals do, there's a bit of science behind the strange things that babies do. Each spread describes a specific habit or behavior, offering multilayered reading opportunities in the form of weird, disgusting facts that ratchet up the gross factor. Weird baby habits are transformed into relatable concepts for kids. In many cases, the author even debunks commonly held myths described and, in the process, shows that babies, though sometimes weird to older kids, are really just in the process of developing into normal kids. When you need immediate answers to questions about specific icky behaviors, use Burp, Spit & Fart's handy glossary and index. Kids will get a thrill out of exclaiming Eww! as they read this book. Parents will love that their children are reading and engaged in scientific inquiry.

Nino Rota Richard Dyer,2019-07-25 Nino Rota is one of the most important composers in the history of cinema. Both popular and prolific, he wrote some of the most cherished and memorable of all film music – for The Godfather Parts I and II, The Leopard, the Zeffirelli Shakespeares, nearly all of Fellini and for more than 140 popular Italian movies. Yet his music does not quite work in the way that we have come to assume music in film works: it does not seek to draw us in and identify, nor to overwhelm and excite us. In itself, in its pretty but reticent melodies, its at once comic and touching rhythms, and in its relation to what's on screen, Rota's music is close and affectionate towards characters and events but still restrained, not detached but ironically attached. In this major new study of Rota's film career, Richard Dyer gives a detailed account of Rota's aesthetic, suggesting it offers a new approach to how we understand both film music and feeling and film more broadly. He also provides a first full account in English of Rota's life and work, linking it to notions of plagiarism and pastiche, genre and convention, irony and narrative. Rota's practice is related to some of the major ways music is used in film, including the motif, musical reference, underscoring and the difference between diegetic and non-diegetic music, revealing how Rota both conforms to and undermines standard conceptions. In addition, Dyer considers the issue of gay cultural production, Rota's favourite genre, comedy, and his productive collaboration with the director Federico Fellini.
