Guns, Grenades, and Grunts Gerald A. Voorhees, Joshua Call, Katie

Whitlock, 2012-11-02 Known for their visibility and tendency to generate controversy, first-person shooter (FPS) games are cultural icons and powder-kegs in American society. Contributors will examine a range of FPS games such as the Doom, Half-Life, System Shock, Deus Ex, Halo, Medal of Honor and Call of Duty franchises. By applying and enriching a broad range of perspectives, this volume will address the cultural relevance and place of the genre in game studies, game theory and the cultures of game players. *Guns, Grenades, and Grunts* gathers scholars from all disciplines to bring the weight of contemporary social theory and media criticism to bear on the public controversy and intellectual investigation of first-person shooter games. As a genre, FPS games have helped shepherd the game industry from the early days of shareware distribution and underground gaming clans to contemporary multimillion dollar production budgets, Hollywood-style launches, downloadable content and worldwide professional gaming leagues. The FPS has been and will continue to be a staple of the game market.

Shoot to Win Chris Cheng, 2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract

with the show sponsor, Bass Pro Shops. How did a tech support guy who didn't shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel's Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel's program Top Shot. American Shooter Gerry Souter, 2012-02-01 Gun ownership has long been a hot-button topic in the United States, and the National Rifle Association has the reputation of being an organization of primarily politically conservative members. American Shooter provides a unique look at gun ownership, handgun bans, shooting sports, and the controversy over how to interpret the Second Amendment from the point of view of a liberal gun owner and enthusiast. Gerry Souter examines the history of firearms in the United States, from the settlers who carried matchlock muskets ashore at Jamestown to the citizens who purchase guns in record numbers today. Recent Supreme Court decisions that uphold the right to bear arms have galvanized citizens on both sides of the debate, making the gun issue hotter than ever. To provide a personal view, Souter weaves in tales of his own experiences with guns, including sport shooting as a young man, hunting and bonding with his father, and facing the smoking end of a muzzle as an international photojournalist. American Shooter is both a history and a personal journey that traces the path of American gun ownership culture from the Revolution to today. It recounts how the country has lived with guns from the flintlock hung over the fireplace to the concealed-carry, laser-sighted Glock semiautomatic pistol tucked away in the hidden pocket of a mom's purse.

From a Taller Tower Seamus McGraw, 2021-04-20 We, as a nation, have become desensitized to the shock and pain in the wake of mass shootings. In the

bottomless silence between gunshots, as political stalemate ensures inaction, the killing continues; the dying continues. From a Taller Tower attends to the silence that has left us empty in the aftermath of these atrocities. Veteran journalist Seamus McGraw chronicles the rise of the mass shooter to dismantle the myths we have constructed around the murderers and ourselves. In 1966, America's first mass shooter, from atop the University of Texas tower, unleashed a new reality: the fear that any of us may be targeted by a killer, and the complicity we bear in granting these murderers the fame or infamy they crave. Addressing individual cases in the epidemic that began in Austin, From a Taller Tower bluntly confronts our obsession with the shooters—and explores the isolation, narcissism, and sense of victimhood that fan their obsessions. Drawing on the experiences of survivors and first responders as well as the knowledge of mental health experts, McGraw challenges the notion of the “good guy with a gun,” the idolization of guns (including his own), and the reliability of traumatized memory. Yet in this terrible history, McGraw reminds us of the humanity that can stop the killing and the dying.

The Trigger Daniel J. Patinkin, 2018-06-05 Six moving profiles reveal the complex realities behind gun violence in the United States. These are the stories of the shooters. In South Carolina, a young man embarks on a life of crime that culminates in a drug-related shooting and decades in prison; in Chicago, an off-duty police officer engages in a shootout with a murderous

gunman, saving a fellow patrolman; in rural Tennessee, a troubled teenager shoots her abusive father in his sleep. The Trigger recounts the dramatic life stories of six individuals who have shot someone in America. In 2017, over 15,000 were killed and over 31,000 were injured by gunfire. Faced with these desensitizing statistics, one easily forgets that each incident is perpetrated by a living, feeling human being who has walked a unique path. The causes and consequences of these violent acts are often far more complicated than one might expect. Author Daniel J. Patinkin exhaustively interviewed each of six shooters about their life experiences and about the unique circumstances that compelled them to use a firearm against another person. The result is a series of profound narratives that is sure to distress and challenge the reader, but also, perhaps, to provide enlightenment and inspiration.

Student of the Gun ,

Perpetual Trouble Shooter's Manual John Francis Rider,1936

A Sudden Shot Camille Kimball,2009-09-01 Arizona never experienced a summer like this, as snipers Dale Hausner and Sam Dieteman took aim at anything?and everything?in their path. Phoenix was a city in terror as the deadly spree ultimately claimed 37 vicitims, people and pets? until one detective began to put the pieces together to nail the murderous duo.

The Second Shooter Nick Mamatas,2021-11-09 "There was video of the second shooter. There was video." In the first reports of every mass shooting,

there's always mention of a second shooter—two sets of gunshots, a figure seen fleeing the scene—and they always seem to evaporate as events are pieced together. Commissioned by a fringe publisher to investigate the phenomenon, journalist Mike Karras finds himself tailed by drones, attacked by a talk radio host, badgered by his all-knowing (and maybe all-powerful) editor, and teaming up with an immigrant family of conspiracy buffs. Together, they uncover something larger and stranger than anyone could imagine—a technomystical plot to 'murder America.' Time for Karras to meet his deadline.

Shooter's Bible, 101st Edition Jay Cassell, 2009-11-03 A resource with two hundred color photographs includes complete up-to-date information on new products, specifications, and prices for thousands of firearms and related equipment, and offers feature articles written by experts and comprehensive ballistictables.

Fifteen Feet For Free Jim Lee, 2012-02 Jimmy Lee was the best shooter from 15-feet I have ever seen. If he got his shot, he made it. Early, middle, or late in games - it did not matter when. Jimmy had great fundamentals, he worked hard and he shot the ball with great confidence. He was so consistent; if he missed a shot you thought it was an accident. His thoughts and techniques can help anyone improve their free throw shooting Jim Boeheim - Head Coach at Syracuse University, Naismith Basketball Hall of Fame, Class of 2005; 2008 Olympic Gold Medal, Team USA, 2010 World Championship Gold Medal,

Team USA; 2010 Division I Coach of the Year Jim Lee and I were contemporaries at Syracuse. He played in the games - I talked about them. I remember him as a clutch shooter (in the 1975 NCAA Tournament, his 18-footer with 3 seconds left upset North Carolina, and paved the way for Syracuse's first trip to the Final Four). Since Jimmy was pretty close to automatic from the foul line, just about every player, at every level, can benefit from his advice and proven approach. Bob Costas - NBC Sports This is a rare book, because Jim is able to weave together invaluable skills instruction with a very personal and informative story about his relationships with teammates, coaches, and most importantly his family. Jim's father, as both a veteran and a person with disabilities, clearly served as an exemplar for Jim with regard to how he approached basketball - and how he approached life. This is clearly illustrated by the fact that Jim has committed to leverage the proceeds from sales of this book to improve the lives of this generation of veterans with disabilities. On so many levels, Jim's book is powerfully positioned to impart lessons about basketball and life that are meaningful and timeless. Mike Haynie, PhD - Executive Director, Institute for Veterans and Military Families, Syracuse University; Barnes Professor of Entrepreneurship, Whitman School of Management, Syracuse University Fifteen Feet For Free is an easy read for all ages. It can be very helpful for kids just beginning their basketball days, and I can see a great benefit for more experienced players. The fundamental instructions in this book can easily improve a player's free

throw percentage. Morgan Wootten - 1,274 wins as Head Basketball Coach at DeMatha HS; Naismith Basketball Hall of Fame, Class of 2000; National Coach of the 20th Century; Four-time recipient of National Coach of the Year; 10-time recipient of Coach of the Year in the Washington D.C. Area The fundamentals of great free throw shooting are in complete alignment with the values of practice, repetition, goal setting, and mental calm that successful business people employ. Jim gets this and writes about it in an amazingly real and compelling way. Mike Perlis - President and CEO, Forbes Media

Shooters Abigail A. Kohn, 2004-06-10 Frequenting gun shops and shooting ranges, and devoting particular attention to those whose interest in weaponry extends beyond the casual, Abigail A. Kohn captures in finegrained and often entertaining, yet always humane, detail how gun owners actually think and feel about their guns. Through her conversations--with cowboy action shooters at a regional match, sport shooters, hunters, with shooters of all ages and races--we hear of the savage beauty of a beautifully crafted long gun, of the powerful historical import owners attach to their guns, of the sense of empowerment that comes with shooting skill, and the visceral thrill of discharging a dangerous weapon. Cutting through the cliches that link gun ownership with violent, criminal subcultures and portray shooters as gun nuts or potential terrorists, Kohn provides us with a lively and untainted portrait of American gun enthusiasts.

Gunfitting Don Currie, 2021-12-01 Expert shooting coach, teacher, and

competitor Don Currie delivers a solid book on gunfitting based on a lifetime of experience gained from working with Orvis and Purdey. Don knows that shooting with a properly fitted shotgun is critical to a shooter's success, and he delivers on the art and science of fitting proper shotguns. The science requires the gunfitter to understand the structure of the shooter's body and what stock specifications are needed to accommodate the shooter's physique. To master the art of the process, the fitter must understand how shooters shoot and how the eye and brain see and read the target. The fitter must critically evaluate the shooter's stance, mount, and level of experience along with taking into consideration the shooter's discipline and style and how the shooter will develop and evolve.

Shooting Incident Reconstruction Michael G. Haag, Lucien C. Haag, 2020-10-10 Shooting Incident Reconstruction, Third Edition, offers a thorough explanation of matters from simple to complex to help the reader understand the factors surrounding ballistics, trajectory, and shooting scenes. Forensic scientists, law enforcement, and crime scene investigators are often tasked with reconstruction of events based on crime scene evidence, along with the subsequent analysis of that evidence. The use and misuse of firearms to perpetrate crimes from theft to murder necessitates numerous invitations to reconstruct shooting incidents. The discharge of firearms and the behavior of projectiles create many forms of physical evidence that, through proper testing and interpretation by a skilled forensic scientist, can establish

what did and what did not occur. Written by the world's most well-respected shooting scene and ballistics experts, the book addresses the terminology, science, and factors involved in reconstructing shooting incident events to solve forensic cases. It covers the full range of related topics including: the range from which a firearm was discharged; the sequence of shots in a multiple discharge shooting incident; the position of a firearm at the moment of discharge; and the position of a victim at the moment of impact. The probable flight path of a projectile and the manner in which a firearm was discharged are also discussed. Case studies illustrate real-world application of technical concepts, supported by over 200 full-color diagrams and photographs. This book will be of value to practicing forensic scientists (firearm and toolmark examiners), ballistics experts, crime scene personnel, police departments, forensic consultants (generalists), attorneys and judges, medical examiners (coroners), and forensic pathologists. New chapters on special reconstructive properties and value of shootings involving sub-machine guns or pseudo automatic firearms, rate of fire with special attention on shot-to-shot time intervals, human factors in shooting incidents Updated and revised glossary terms to fit with new technology and the emergence of standardization of terms by groups such as the Organization of Scientific Advisory Committees Provides clear practice standards and ethical guidelines for those involved in reconstructing shooting scenes

Shooter Sgt. Jack Coughlin, Casey Kuhlman, Donald A. Davis, 2007-04-01 The

phenomenal New York Times bestseller Shooter captures a professional sniper's life, both on the battlefield--where he has racked up more than 60 confirmed kills--and off. Jack Coughlin is the Marine Corps' top-ranked sniper, the man who personally brings America's military muscle to the enemy's front door. In twenty years of active service, he has accumulated one of the most impressive records in the Corps, ranging through many of the world's hot spots. During Operation Iraqi Freedom alone, he recorded at least thirty-six kills, thirteen of them in a single twenty-four-hour period. In Shooter, Coughlin has written a highly personal story about his deadly craft, taking readers deep inside an invisible society that is off-limits to outsiders. This is not a heroic battlefield memoir, but the careful study of an exceptional man as he carries forward one of the deadliest legacies in the U.S. military.

Blowin' Smoke Steve Carmichael, 2021-09-08 One person's journey through the golden years of trapshooting in the United States as both a competitor and gun club operator. Includes visits to premier facilities that no longer exist, and stories of the colorful characters that frequented them. It was a time like no other when tournament prizes included substantial cash, gold coins and Cadillacs. This was a period that will never be repeated.

A Shooter's Moon D.J. Power, 2018-05-10 This is the continuation of Jim Coleman's inner battle with his morals to decide what is right and wrong. Jim had spent most of his teen years in parochial schools, and he can't get out of his mind what the nuns taught him. The worst commandment to break is Thou

Shall Not Kill. He has been sent on temporary duty to a top secret unit of the CIA, which only the most powerful and influential men in Washington know about. Jim has been designated as the number one assassin, and this takes him to the most difficult assignments in Southeast Asia. As his unit progresses, each mission becomes more difficult and dangerous with Jim, and his unit of five is in North Vietnam more than most. As time comes closer to the United States getting into the war, Jim's unit, along with all the other units, is assigned to rescue to down pilots on the border of North Vietnam and China. This mission, as dangerous as it is, could be the end of all the assassins assigned to the CIA.
