Top Gear: Daft Cars Matt Master,2012-07-31 From flying cars to amphibious vehicles, solar-powered saloons to rockets on wheels, these are over 50 of the most wacky cars ever devised. Fancy a car that drives sideways? Try the Jeep Hurricane. Or maybe a car in which the windows change colour according to your mood for a more serene and health-giving driving experience? That'll be the Toyota RiN. And if you like a flutter, you'll need the Chrysler Town and Country Black Jack, which contains a mini onboard casino. Some concept cars are designed to demonstrate alternative materials and energy sources, or to showcase the gadgets of the future, or even cater for specific lifestyles or groups of people. Many don't even get beyond the prototype stage - for reasons of cost or practicality, or, in the case of the nuclear-powered Ford Nucleon of 1958, the danger of causing a small atomic explosion. Featuring everything from practical experiments such as the hatchback fire engine, and ideas that have managed to make it into production, to stunning yet impractical supercar concepts, this book both celebrates and cringes at some of motoring's most daft - and even idiotic - ideas.

Top Gear's Midlife Crisis Cars Matt Master,2012-05-31 Following up on *Crap Cars* and *My Dad Had One of Those*, *Top Gear* celebrates the midlife crisis with the definitive collection of the flashiest, fastest, most impractical cars ever to be found in the driveways of otherwise perfectly sensible men. Drawing on the high level of expertise in this area, *Top Gear* explores the phenomenon of motoring and the midlife crisis, identifying over 50 classics of the genre across four desperate decades. From Ford Capri to Ferrari Testarossa, it celebrates the flashiest, fastest and most ridiculous attempts to cover a bald spot, meanwhile offering a profound insight into the complex psychology of a middle-aged man and his quest for eternal youth. *Top Gear's Midlife Crisis Cars* both rejoices and recoils at the time-honoured tradition of flushing the children's inheritance on something you're too arthritic to get into in the first place.

Daft Cars Matt Master,2009 *Top Gear* meets *Tomorrow's World* in the fourth in this series of bestselling, humorous hardbacks. Featuring *Top Gear's* very own catastrophically unsuccessful attempts to create concept cars - remember the Reliant Robin Space Shuttle and the amphibious Volkswagen 'damper van'? - this book both celebrates and cringes at some of motoring's most idiotic ideas.

Maze Master Kathleen O'Neal Gear,2018-07-17 New York Times bestselling author Kathleen Gear's new apocalyptic thriller *Maze Master* shows the world ending not in fire nor in ice but in

science. Kathleen Gear, who often co-writes with her husband W. Michael Gear, has authored 42 books which have been New York Times, USA Today and international bestsellers. Translated into 29 languages, there are around 17 million copies of her books in print worldwide. LucentB is a retrovirus that's inevitable, unstoppable, and utterly catastrophic for humanity. The US government believes the only person who can find the cure is the geneticist who tried to warn them about it and then disappeared: James Hakari. They assign the task of finding him to his former student Anna Asher, who in turn recruits paleographer and religious studies scholar Dr. Martin Nadai. The brilliant but insane geneticist is leaving clues for Anna and Martin to follow, showing he's truly earned his students' nickname for him: the Maze Master. The search takes Anna and Martin around the world and into a warzone they never imagined. Maze Master's LucentB is based off of the real retrovirus HERV-K, which has caused several plagues over the past 75,000 years, almost wiping out Neanderthals 50,000 years ago, and maybe 30,000 years ago. Modern geneticists consider HERV-K not to be extinct, but rather to be waiting for some trigger to come alive again. With its scientific and archaeological authenticity and suspenseful clues, Maze Master will have readers rushing through its intricate maze to find out the fate of the world in this thrilling adventure.
