The Contextualized Psalms (Punjabi Zabur) Yousaf Sadiq,2020-11-09 The metrical translation of the Psalms into the Punjabi language, set to indigenous music in the late nineteenth century in India, plays a vital role in the personal and communal worship of the global Punjabi Christian community. This book is a pioneer work that comprehensively encompasses the cultural, socio-historical, missional, and sociolinguistic aspects of the Punjabi Psalter. It investigates the unique and fascinating story of the contextualizing of Psalms in an exclusive South Asian Punjabi context and engages in an in-depth study on the life and work of Rev. Dr. Imam-ud-Din Shahbaz. This work determines to bring a deeper appreciation for the Punjabi Psalter by encouraging the Punjabi Christians to not only pass the Psalms on to the next generations but also to grow in loving and valuing their mother-tongue, the Punjabi language. The thrust of this book is to esteem the shared heritage of the global Punjabi Christian community—the Psalms in Punjabi, commonly known as the Punjabi Zabur.

The Global News Challenge Anne Geniets,2013-12-13 The Global News Challenge tackles one of the timeliest topics in mass communication today—the challenges facing international broadcasters with universal branding strategies in developing countries. In these heavily government-controlled media environments with a scarcity of reliable information, international news providers traditionally had an influential position. With the ongoing media liberalization, however, commercial domestic providers have gained in strength to become strong competitors. Additionally, in a number of countries, pan-Arab broadcasting enterprises have widened their reach, contributing to the growing competition for traditional international providers such as the BBC or France 24. This book employs a global perspective to explore the subject across the whole population and different media platforms in select developing markets of Africa and South Asia. It is unique in providing a theoretical framework by which to analyze demand and usage of and trust in news from international broadcasters across the whole population, not just opinion leaders. It outlines the strategic options for international broadcasters in these evolving market contexts.

The Muslim Extremist Discourse Faizullah Jan, 2015-11-12 This unique book analyzes the discourse of organizations affiliated with al-Qaeda. It interrogates the discourse of these extremist organizations, which publish their own newspapers. These publications, widely distributed to the local population, play a critical role in securing and maintaining public support for the militant organizations. The book examines how these organizations discursively construct the socio-political reality of their world, in the process defining the Self and the Other. The Self becomes umma, or the global Muslim community, while the Other becomes the West, including the United States, Israel, and India. This book presents an analysis of three historical moments—the assassination of al-Qaeda chief Osama Bin Laden, the controversial YouTube video *Innocence of the Muslims*, and the shooting of the Pakistani child activist and Nobel Laureate Malala Yousafzai. This analysis reveals the discursive strategies used by the militant organizations to create what Foucault calls regimes of truth and articulate identities of the Self and the Other. The first of its kind, this book provides an insight into the mind-set of extremists. It presents a picture of the world that extremists construct through their own discourse and explains how extremists try to win the hearts and minds of mainstream Muslims in order to expand their support base, seek donations, and find new recruits. Understanding extremist narratives and the ways they feed the broader militant discourse may yield more meaningful and effective strategies for the West to communicate with mainstream Muslims.

Television Dramas and the Global Village Diana I. Ríos, Carolyn A. Sexuality, Oppression and Human Rights Júlia Tomás,Nico Epple,2019-01-04 This volume was first published by Inter-Disciplinary Press in 2015. The gradual demystification of sexuality leads to its slow departure from long date traditional honour codes. This evolution in thought and in attitude allows one to observe new—and not so new—mentalities and behaviours. Sexuality is indeed a social construct that can encompass physical and/or symbolic domination and viciousness. It concerns women and children, as well as men. It involves every culture, every country, and every population. This anthology presents interdisciplinary studies with a human rights based approach from researchers and social workers around the world. The essays discuss sexual violence and its social ramifications and violence against various sexualities. It aims at elucidating not only contemporary, historical, and social facts related to sexual exploitation and sexual violence, but also discourses that perpetuate sexual oppression. Moreover, it offers the reader insights into prevention methods and last, but not least, it presents individual and collective creative tools to combat sexual domination.
