A Grand Day to Get Lost Kris Radish, 2013 A wrong turn down a remote Florida backwoods highway turns into the ride of a lifetime for Emily Weaver, a university librarian, when she mysteriously discovers a manuscript written by Pulitzer Prize-winning author Marjorie Kinnan Rawlings, dated years after the beloved author's death. Emily unwittingly begins a treasure hunt in a world that is as beautiful as it is dangerous, and it is a hunt that could not only change her life, but the landscape of the entire literary world. Is it really possible that the renowned author of *The Yearling* faked her own death in 1953? Parading through the scrub country in Rawling's seemingly fresh footsteps, Emily must separate fact from

fiction as she discovers more than one secret world, opens up her heart to new friendships and challenges, encounters ghosts from the past, and puts her own life in danger to uncover the truth. *A Grand Day to Get Lost* not only resurrects a bold literary icon but also explores the emotional landscape of loss, survival, and forgiveness in a world where anything is possible for those who dare to risk and follow their dreams.

Get It Done Sam Bennett,2014 Organized and artist don't usually go together. Creative types are more often seen as sensitive, melodramatic, eccentric, misunderstood, and the like. To labels like this, Sam Bennett says, Congratulations! You're an artist. And through The Organized Artist Company, she has

coached hundreds of artists to overcome procrastination, lack of focus, and time-sucking habits so that they can get their art done and out into the world. Bennett explains why procrastination is genius in disguise and then prescribes dozens of wonderfully revelatory exercises. From My Heroes lists to Could Do lists (because To-Do lists make Bennett belligerent) to recognizing who you should not talk to about your project and when research has created Analysis Paralysis, each of these actions requires only a 15-minute commitment. But while quickly accomplished, each shifts the reader's thinking and prompts the kind of insights that have the power to turn underperforming geniuses into accomplished artists--

Get Wise Bob Merritt, 2014-10-14 We make dozens of decisions, big and small every day--some without much thought at all. But with many decisions, there's a certain amount of danger. One wrong decision can destroy a career or a marriage. A string of wrong decisions can derail a life. So how do we know if our decisions are wise ones? Pastor Bob Merritt has found that the best way to get it right is to cultivate godly

wisdom. In *Get Wise*, he takes God's best wisdom as found in the book of Proverbs and applies it to the top decisions every person has to make--decisions about education, work, family, friends, sex, parenting, money, and more. Topic by topic, he shows readers how to make choices that result in long-term benefits in health, reputation, peace, and finances.

Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of *Sprint* comes “a unique and engaging read about a proven habit framework [that] readers can apply to each day” (*Insider*, *Best Books to Form New Habits*). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-

fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.
