Masculinities in British Adventure Fiction, 1880-1915 Joseph A. Kestner, 2016-05-06 Making use of recent masculinity theories, Joseph A. Kestner sheds new light on Victorian and Edwardian adventure fiction. Beginning with works published in the 1880s, when writers like H. Rider Haggard took inspiration from the First Boer War and the Zulu War, Kestner engages tales involving initiation and rites of passage, experiences with the non-Western Other, colonial contexts, and sexual encounters. Canonical authors such as R.L. Stevenson, Rudyard Kipling, Joseph Conrad, and Olive Schreiner are examined alongside popular writers like A.E.W. Mason, W.H. Hudson and John Buchan, providing an expansive picture of the crisis of masculinity that pervades adventure texts during the period.

Storied and Supernatural Places Ülo Valk, Daniel Sävborg, 2018-05-09 This book addresses the narrative construction of places, the relationship between tradition communities and their environments, the supernatural dimensions of cultural landscapes and wilderness as they are manifested in European folklore and in early literary sources, such as the Old Norse sagas. The first section "Explorations in Place-Lore" discusses cursed and sacred places, churches, graveyards, haunted houses, cemeteries, grave mounds, hill forts, and other tradition dominants in the micro-geography of the Nordic and Baltic countries, both retrospectively and from synchronous perspectives. The supernaturalisation of places appears as a socially embedded set of practices that involves storytelling and ritual behaviour. Articles show, how places accumulate meanings as they are layered by stories and how this shared knowledge about environments can actualise in personal

experiences. Articles in the second section “Regional Variation, Environment and Spatial Dimensions” address ecotypes, milieu-morphological adaptation in Nordic and Baltic-Finnic folklores, and the active role of tradition bearers in shaping beliefs about nature as well as attitudes towards the environment. The meaning of places and spatial distance as the marker of otherness and sacrality in Old Norse sagas is also discussed here. The third section of the book “Traditions and Histories Reconsidered” addresses major developments within the European social histories and mentalities. It scrutinizes the history of folkloristics, its geopolitical dimensions and its connection with nation building, as well as looking at constructions of the concepts Baltic, Nordic and Celtic. It also sheds light on the social base of folklore and examines vernacular views toward legendry and the supernatural.

Wake-up Calls Will Davis Jr, 2005-04 I don't know about you, but I need all the help I can get when it comes to spiritually jump-starting my day. Some days I get up and it is all I can do to concentrate on a few verses of Scripture. Other days I feel tempted to blow off my twenty minutes of reading because I'm anxious that I have too much to do. On such days I have found it helpful to have a source to direct my thoughts toward God. I need a tool to help me rouse my weary spirit and prepare to take on yet another day of kingdom building. In short, I need a wake-up call. Do you? So writes Will Davis Jr., in *Wake-Up Calls*. *Wake-Up Calls* helps bleary-eyed Christians to better see God's kingdom. It deals practically with such topics as temptation, sin, prayer, relationships, suffering, conflict, death and obedience with honesty and in-your-face clarity. If you need a blast of kingdom

reality that cuts through the morning's spiritual fog, then Wake-Up Calls is for you.

The Secret Byron Preiss,2016-10-05 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels, are buried. The key to finding each can be found within the twelve full color paintings and verses of The Secret. Yet The Secret is much more than that. At long last, you can learn not only the whereabouts of the Fair People's treasure, but also the modern forms and hiding places of their descendants: the Toll Trolls, Maitre D'eamons, Elf Alphas, Tupperwerewolves, Freudian Sylphs, Culture Vultures, West Ghosts and other delightful creatures in the world around us. The Secret is a field guide to them all. Many armchair treasure hunt books have been published over the years, most notably Masquerade (1979) by British artist Kit Williams. Masquerade promised a jewel-encrusted golden hare to the first person to unravel the riddle that Williams cleverly hid in his art. In 1982, while everyone in Britain was still madly

digging up hedgerows and pastures in search of the golden hare, *The Secret: A Treasure Hunt* was published in America. The previous year, author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. Preiss was killed in an auto accident in the summer of 2005, but the hunt for his casques continues.
