Grasping Greatness Ashley J. Tellis; Bibek Debroy; C. Raja Mohan,2023-01-23 Since its independence in 1947, India's leaders have sought to grasp the greatness that the country seemed destined for. India's first prime minister, Jawaharlal Nehru, articulated these aspirations early on but, overwhelmed by development challenges, his successors focused largely on domestic concerns rather than on global leadership. The post-1991 era saw India positioned for the first time in many decades as an economic success, suggesting that it was on the cusp of breaking out as a global player. The twenty-odd years following the 1991 reforms were heady for India. Based on the expectation that India was now poised to ascend as a major power, Prime Minister Narendra Modi- less than a year after he first took office in May 2014-expressed his desire that India assume a leading role: completing the transformation from being merely an influential entity into one whose weight and preferences are defining for international politics. Grasping Greatness explores the various tasks pertaining to this push for eminence in world affairs. It elaborates the economic, state-building, and international dimensions of this ambition. Eminent thinkers like Rakesh Mohan, Ila Patnaik, Surjit Bhalla, Arjun Subramanian, and others reflect upon the tasks at hand and the desirable routes to achieve them. Edited by Ashley J. Tellis, Bibek Debroy and C. Raja Mohan, Grasping Greatness is an important contribution to the intellectual debates as India enters into a new era on the world stage.

Pathways to Greatness A.P.J. Abdul Kalam,2017-02-20 What makes a nation great? Is it simply economic prosperity and military strength -- or something more? What is it that we as a nation require to make that last-mile journey to what all the plans, investments and projects are meant to

lead up to? It is only a matter of time before India is termed economically developed. But a nation has to learn to survive in tough times too. And for that what is most important is national character, born out of the value systems that exist in our families, what schools teach students, and the culture of the nation. In *Pathways to Greatness*, A.P.J. Abdul Kalam shifts focus from the economic development of India by 2020 to the development of our strengths, offering key lessons that will help India withstand the forces of change. He identifies what makes a nation great and also compares the standards of living of other nations with India's. He draws on his travels and his interactions with people. He evolves unique oaths for citizens from all walks of life to ensure that a better life becomes possible for everyone. In the book he completed just a few months before he passed away in 2015, one of India's best-known icons writes how our nation can become a leader on the pathways to greatness.

**1971** Boria Majumdar, Gautam Bhattacharya, 2021-04-20 1971 was the year that changed Indian cricket forever. Accustomed to seeing a talented but erratic Indian team go from one defeat to another, a stunned cricketing world watched in astonishment as India first beat the West Indies in a Test series on their home turf, and then emerged victorious over England-in England. Suddenly, the Indian team had become a force to reckon with. Boria Majumdar and Gautam Bhattacharya's book is a thrilling account of the 1971 twin tours, that brings to life the on-field excitement and the backroom drama. Against a canvas that features legends: Pataudi and Wadekar, who captained India to the two sensational series victories abroad; Sardesai, Durani, Viswanath, Engineer, Solkar, Abid Ali; the famed spin quartet of Bedi, Prasanna, Chandrasekhar and Venkataraghavan; and a young batsman named Sunil Gavaskar who was making his debut-it is the tale of a young country ready and eager to make an impression on the world stage. Fifty years later, this is a wonderful book to relive

those glory days with.

**The Greatness of Indian Kitchen: Gender, Memory and Rights** Dr. Rajesh.M ,Vishnu N,2022-03-01 Food is one of man's three basic needs, and it unites and connects people from all walks of life. The cultural practices, beliefs, and norms that surround the production and consumption of food are referred to as food culture. It primarily reflects our ethnicity and evokes nostalgic childhood memories. Religion, sexuality, and the market economy all revolve around food. The Cultural Politics of Food and Eating takes an ethnographic approach to understanding how people use food to make sense of life in an increasingly interconnected world. The proposed edited collection of essays covers everything from our daily food consumption to global food politics. There is really no refuting that newer perspectives on food culture make the collection more interesting to read.

Making India Great Aparna Pande,2020-08-13 India will be the world's most populous country by 2024 and its third largest economy by 2028. But the size of our population and a sense of historical greatness alone are insufficient to guarantee we will fulfil our ambition to become a global power. Our approach to realize this vision needs more than just planning for economic growth. It requires a shift in attitudes. In Making India Great, Aparna Pande examines the challenges we face in the areas of social, economic, military and foreign policy and strategy. She points to the dichotomy that lies at

the heart of the nation: our belief in becoming a global power and the reluctance to implement policies and take actions that would help us achieve that goal. The New India holds all the promise of greatness many of its citizens dream of. Can it become a reality? The book delves into this question.

**A Touch of Greatness** R. M. Lala, 2001 Author records his impressions about luminaries on eminent personalities predominantly of Indians from a wide variety of fields.

*Getting India Back on Track* Ashley J. Tellis, Bibek Debroy, Reece Trevor, 2014-06-09 India has fallen far and fast from the runaway growth rates it enjoyed in the first decade of the twenty-first century. In order to reverse this trend, New Delhi must seriously reflect on its policy choices across a wide range of issue areas. *Getting India Back on Track* broadly coincides with the 2014 Indian elections to spur a public debate about the program that the next government should pursue in order to return the country to a path of high growth. It convenes some of India's most accomplished analysts to recommend policies in every major sector of the Indian economy. Taken together, these seventeen focused and concise memoranda offer policymakers and the general public alike a clear blueprint for India's future. Contents Foreword Ratan N. [A Vision of United India](#) Kittu Reddy, 2014-11-24 On 15th August 1947, India attained her independence from British rule; however, it was a fissured independence as India was partitioned

into two States, India and Pakistan. On that day, Sri Aurobindo gave a message in which he spoke of the five dreams that had been the basis of his whole life. He wrote: "Indeed, on this day I can watch almost all the world-movements which I hoped to see fulfilled in my lifetime, though then they looked like impracticable dreams, arriving at fruition or on their way to achievement. In all these movements free India may well play a large part and take a leading position."The first of these dreams was the freedom and the unity of India. However, India got freedom but not unity. Sri Aurobindo wrote in the same message: "But the old communal division into Hindus and Muslims seems now to have hardened into a permanent political division of the country. It is to be hoped that this settled fact will not be accepted as settled for ever or as anything more than a temporary expedient. For if it lasts, India may be seriously weakened, even crippled: civil strife may remain always possible, possible even a new invasion and foreign conquest. India's internal development and prosperity may be impeded, her position among the nations weakened, her destiny impaired or even frustrated. This must not be; the partition must go. Let us hope that this may come about naturally, by an increasing recognition of the necessity not only of peace and concord but of common action, by the practice of common action and the creation of means for that purpose. In this way unity may finally come about under whatever form - the exact form may have a pragmatic but not a fundamental importance. But by whatever means, in whatever way, the division must go; unity must and will be achieved, for it is necessary for the greatness of India's future."Sri Aurobindo and the Mother have been since that day working silently and in their own spiritual way to bring about this unity of India that will inevitably come about in the near future. It is this conviction and assurance that has inspired me to write this book. This book is an attempt to trace the political history of India from the ancient times to the modern day. I have tried to analyze the repeated attempts in the past

to bring about a political unity, the partial success and the failure that has attended this attempt. I have tried to analyze the reasons for the failure and made some suggestions, which may lead to the final solution of the problem of political unity of the subcontinent of India. In this effort, I have been guided throughout by the vision of Sri Aurobindo and the Mother. The book therefore contains copious references from the writings of Sri Aurobindo and the Mother. However, I take full responsibility for the views expressed in the book. The book is divided into two sections. The first section has two parts, one dealing with the history of India before Independence and the second dealing with the history after Independence. In the first part, the political history of ancient India is traced and the success and failure to bring about political unity is analyzed. Next, the political situation after the advent of the Muslims is discussed in some detail. Later, the political situation after the British conquest of India and its policy of divide and rule has been discussed. Ultimately, India got its freedom but was partitioned and divided into two. In the second part, there is a detailed discussion and analysis of the political situation after the partition of India till the modern times. In the second section of the book, I have tried to show that Pakistan as a nation will inevitably disintegrate. This is based on my study of Political Science in the light of Sri Aurobindo. I have tried to show that Pakistan is an artificial unit and will therefore inevitably disappear.
