**A Buccaneer's Atlas** Basil Ringrose,1992-01-01 On July 29, 1681, a band of English buccaneers that had been terrorizing Spanish possessions on the west coast of the Americas captured a Spanish ship, from which they obtained a derrotero, or book of charts and sailing directions. When they arrived back in England, the Spanish ambassador demanded that the buccaneers be brought to trial. The derrotero was ordered to be brought to King Charles II, who apparently appreciated its great intelligence value. The buccaneers were acquitted, to the chagrin of the king of Spain, who had the English ambassador expelled from the court at Madrid on a seemingly trumped-up charge. The derrotero was subsequently translated, and one of the buccaneers, Basil Ringrose, added a text to the compilation and information to the Spanish charts. The resulting atlas, consisting of 106 pages of charts and 106 pages of text, is published in full for the first time in this volume. Covering the coast from California to Tierra del Fuego, the Galapagos, and Juan Fernandes, Basil Ringrose's south sea waggoner is a rich source of geographical information, with observations on navigational, physical, biological, and cultural features as well as on ethnography, customs, and folklore. After almost exactly three hundred years, this secret atlas is now made available to libraries and individuals. The editors have provided an extensive introduction on historical, geographical, and navigational aspects of the atlas, as well as annotations to the charts and text, and they have plotted the coverage of the charts on modern map bases. **Journey to the Republic of Guatemala; Land of the Maya** Kalman Dubov,2023-05-10 The Central American country of Guatemala was populated by the Maya people whose empire extended from Honduras to the south to today's southern Mexico. Remnants of their presence are found throughout this region, with monumental architecture, cities, palaces, and great pyramids. Wherever one looks, the explosion of growth and development captures the viewer in its thrall. Even the many glyphs adorning these sites with their unique writing style are a marvel to behold. They lived here for an estimated two thousand years, and then, in the early 16th century, the Spanish came and conquered these people. By then, their greatness had already ended in the midst of the 10th century, when their culture and civilization collapsed. But they retained their culture by way of thousands of pictographic books which detailed their way of life and their advancements. But the Spaniards, zealous in their Catholicism, sought out and destroyed every such book they could find and burned them all. Except for three such books, known as the Maya Codices. Historians and scholars began the slow process of deciphering the Maya past. Great effort was expended and the reality of their lives, culture, kings, wars and daily practice began to emerge. And the world was astounded by the emerging picture. Perhaps a first in the world, was their mathematical calculation with 'zero,' a phenomenal achievement. Interestingly, the glyph of the zero depicted a woman - what mathematical genius was she to use zero in calculations? Their astronomy of the heavenly spheres was astoundingly precise, as was their knowledge of geometry and trigonometry. Their religion, however, included human sacrifices, following the practice of other nearby civilizations, such as the Aztecs, the Inca in South America, and others. The Spaniards stopped such worship and offerings and now subjugated these people into serfdom called encomiendas, or enforced working for the conquistadors and their descendants. Independence from Spain came in 1821, but the Mayan living conditions did not change. The country became divided between the Spanish descendants, now known as the Criollos, the middle class, known as Ladinos (not to be confused with Jews in 9th century Castilian Spain), and the Maya and other indigenous. The social distance from the upper to lower classes was immense. And that distance came forward during Guatemala's Civil War, from 1960 to 1996. The violence and massacres during this period was so evil, the president of the country, Rios Montt, was charged and convicted of Genocide, the first time a country charged its own leader with this crime. At a previous age and time, the face of Guatemala presented immense achievements. Today, violence, crime, and cultural penury is self-evident. Guatemala is a third-world country, where the majority of its people live in great poverty while the upper class has the land, its abundance and vast wealth.
