Workshop Statistics James H. Albert,Allan J. Rossman,2001-03-01 This first edition focuses on probability and the Bayesian viewpoint. It presents basic material on probability and then introduces inference by means of Bayes' rule. The emphasis is on statistical thinking and how one learns from data. The objective is to present the basic tenets of statistical inference. Unique in its format, the text allows students to discover statistical concepts, explore statistical principles, and apply statistical techniques. In addition to the numerous activities and exercises around which the text is built, the book includes a basic text exposition for each topic, and data appendices.

I Ain't Much to Look At...But My Wife Is! Arnold E. Harner,2009-06-12 Marriage: Best Friends; Battles; Phases of Love; Biology; and Parenting; get all this right and youll have the perfect marriage; right? Come on! Dont be an idiot! No-one can give you the perfect recipe for getting a marriage just right. We are all different; with different upbringing, attitudes, wants, desires, needs, and baggage. Although making a marriage work isnt rocket science it does require a good amount of common sense, and a great amount of selflessness. It means at times giving more love than you get, and being ok with that. It means being devoted to that special woman as long as you both shall live. It also means using your head for something more than a hat rack and making good, sensible decisions. Be the strong loving husband and father your wife desires and deserves. Marriage is an ever-evolving dance. No man and no secular book will have all the answers youre looking for; but this collection of life experiences and relationship research is one great place to start!
